

2014 ANNUAL REPORT

ARMADA HOFFLER
P R O P E R T I E S

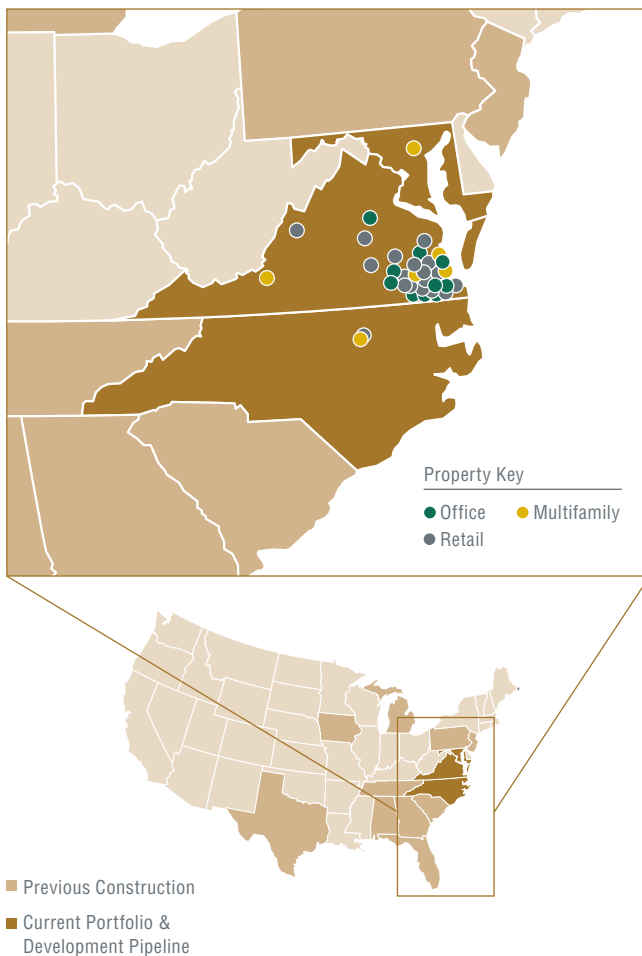

ANTHROPOLOGIE

NYSE: AHH

Armada Hoffler Properties

We are a full service real estate company with extensive experience developing, building, owning and managing high-quality, institutional-grade office, retail and multifamily properties in attractive markets throughout the Mid-Atlantic United States.

We target markets that exhibit attractive long-term supply and demand characteristics as well as favorable competitive dynamics. Our portfolio consists of office, retail and multifamily properties in Virginia, Maryland and North Carolina. Future growth will take us to the broader Mid-Atlantic region.

Dividend Yield

6.7%

*For the year ended
December 31, 2014*

To Our Fellow Stockholders:

IN MY LETTER TO YOU LAST YEAR, I SAID THAT EXECUTION WOULD REMAIN OUR FOCUS FOR 2014. I AM PROUD TO REPORT THAT BY EFFECTIVELY EXECUTING ACROSS ALL FRONTS—ASSET MANAGEMENT, DEVELOPMENT, ACQUISITIONS AND CONSTRUCTION—WE GREW NET OPERATING INCOME OVER 11% COMPARED TO 2013 AND PRODUCED OVER \$28 MILLION OF FUNDS FROM OPERATIONS DURING 2014. AS A RESULT OF OUR SUCCESS, WE WERE ABLE TO PAY OVER \$22 MILLION IN DIVIDENDS AND DISTRIBUTIONS.

Asset Management

In 2014, we set out to maintain core portfolio occupancy in the mid-nineties. At the end of the year, our occupancy exceeded 95% and during the year we increased same store NOI in all three segments of our operating property portfolio. We maintained occupancy in our office segment at over 95% and increased occupancy in our retail and multifamily segments during 2014.

Development Pipeline

In 2014, our goal was to deliver development projects as planned. I'm pleased to report that properties slated for completion in 2014 came in on budget and were delivered on time. During the year, we delivered the 4525 Main Street office high-rise, Greentree Shopping Center and the initial units at both Encore and Whetstone Apartments.

Looking ahead to 2015, during the first quarter we will deliver three build-to-suit office buildings in Hampton Roads, Virginia. All three of these public-private partnership projects are 100% leased for 15 years. In March, we will open Sandbridge Commons in Virginia Beach, Virginia, anchored by a new Harris Teeter grocery store and officially break ground on the Johns Hopkins Village project in Baltimore, Maryland. Our development pipeline remains robust with both Johns Hopkins Village and Lightfoot Marketplace targeted for delivery in 2016.

Acquisitions and Dispositions

We are committed to strategic acquisitions as a way to complement the growth from our development pipeline. In August, we

added 106,000 square feet of fully occupied retail space in the heart of the Mid-Atlantic with our acquisition of Dimmock Square. We intend to close on two grocery-store anchored retail centers in the coming months that will add over 185,000 square feet of retail space to our portfolio and further expand our geographic footprint in Maryland.

We've taken advantage of the current cap rate environment to continue our long-standing strategy of selling non-core, single tenant assets to recycle and redeploy capital. We sold the Virginia Natural Gas and the Sentara Williamsburg office buildings at 6.3% cap rates and plan to use the net proceeds to fund both our development pipeline and future acquisitions.

Construction

In 2014, we set out to execute contracts for third party construction work consistent with historic segment gross profit which increased 23% during 2014. We had over \$159 million of construction backlog at the end of 2014, which will sustain this part of our business through 2015 and into 2016.

Balance Sheet

In 2014, we set out to manage our balance sheet to provide the flexibility to fund our growth objectives in the most efficient and cost-effective manner, while managing upcoming loan maturities. We executed on planned dispositions and a measured capital raise in the fall. Subsequent to year end, we closed on a new, expanded and—most importantly—unsecured credit facility that will help fund our growth through 2015.

Net Operating Income
(For the year ended December 31, 2014)

■ Office	41%
■ Retail	36%
■ Multifamily	13%
■ General Contracting	10%

Dividend

Finally, I am excited that the Board of Directors has declared a cash dividend of \$0.17 per share for the first quarter of 2015. This represents a 6.3% increase over the prior quarter's dividend. We believe this reflects the Board's confidence in our long-term strategy, the successful execution and delivery of our development pipeline and the Board's commitment to enhancing value and returning it to stockholders.

Long-Term Strategy

Our long-term strategy remains unchanged and it is simple—continue to grow NOI through our development pipeline projects, strategic acquisitions and third party construction work.

As it relates to our development pipeline, we continue to execute at our targeted pace of commencing \$150 to \$175 million of development projects every 18 to 24 months. As for the return on cost metrics of our development projects, we target a 150–200 basis point spread between development cost and retail value.

As we look ahead to 2015, we are committed to making the right real estate decisions that continue to grow our business in a way that creates value for you, our stockholders.

Sincerely,

LOUIS S. HADDAD
President and Chief Executive Officer

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This report contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and assumptions made by, and information currently available to, management. When used, the words "anticipate," "believe," "expect," "intend," "may," "might," "plan," "estimate," "project," "should," "will," "result" and similar expressions, which do not relate solely to historical matters, are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you that while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- adverse economic or real estate developments, either nationally or in the markets in which our properties are located;
- our failure to develop the properties in our development pipeline successfully, on the anticipated timeline or at the anticipated costs;
- our failure to generate sufficient cash flows to service our outstanding indebtedness;
- defaults on, early terminations of or non-renewal of leases by tenants, including significant tenants;
- bankruptcy or insolvency of a significant tenant or a substantial number of smaller tenants;
- difficulties in identifying or completing development, acquisition or disposition opportunities;
- our failure to successfully operate developed and acquired properties;
- our failure to generate income in our general contracting and real estate services segment in amounts that we anticipate;
- fluctuations in interest rates and increased operating costs;
- our failure to obtain necessary outside financing on favorable terms or at all;
- our inability to extend the maturity of or refinance existing debt or comply with the financial covenants in the agreements that govern our existing debt;
- financial market fluctuations;
- risks that affect the general retail environment or the market for office properties or multifamily units;
- the competitive environment in which we operate;
- decreased rental rates or increased vacancy rates;

- conflicts of interests with our officers and directors;
- lack or insufficient amounts of insurance;
- environmental uncertainties and risks related to adverse weather conditions and natural disasters;
- other factors affecting the real estate industry generally;
- our failure to maintain our qualification as a real estate investment trust (“REIT”) for U.S. federal income tax purposes;
- limitations imposed on our business and our ability to satisfy complex rules in order for us to maintain our qualification as a REIT for U.S. federal income tax purposes; and
- changes in governmental regulations or interpretations thereof, such as real estate and zoning laws and increases in real property tax rates and taxation of REITs.

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes after the date of this Annual Report on Form 10-K, except as required by applicable law. You should not place undue reliance on any forward-looking statements that are based on information currently available to us or the third parties making the forward-looking statements. For a further discussion of these and other factors that could impact our future results, performance or transactions, see the risk factors described in Item 1A herein and in other documents that we file from time to time with the Securities and Exchange Commission (the “SEC”).

PART I

Item 1. Business.

Our Company

References to “we,” “our,” “us” and “our company” refer to Armada Hoffler Properties, Inc., a Maryland corporation, together with our consolidated subsidiaries, including Armada Hoffler, L.P., a Virginia limited partnership (the “Operating Partnership”), of which we are the sole general partner.

We are a full service real estate company with extensive experience developing, building, owning and managing high-quality, institutional-grade office, retail and multifamily properties in attractive markets throughout the Mid-Atlantic United States. In addition to the ownership of our operating property portfolio, we develop and build properties for our own account and through joint ventures between us and unaffiliated partners. We also provide general contracting services to third parties. Our construction and development experience includes mid- and high-rise office buildings, retail strip malls and retail power centers, multifamily apartment communities, hotels and conference centers, single- and multi-tenant industrial, distribution and manufacturing facilities, educational, medical and special purpose facilities, government projects, parking garages and mixed-use town centers. Our third-party construction contracts have included signature properties across the Mid-Atlantic region, such as the Inner Harbor East development in Baltimore, Maryland, including the Four Seasons Hotel and Legg Mason office tower, the Mandarin Oriental Hotel in Washington, D.C., and a \$50 million proton therapy institute for Hampton University in Hampton, Virginia. Our construction company historically has been ranked among the “Top 400 General Contractors” nationwide by Engineering News Record and has been ranked among the “Top 50 Retail Contractors” by Shopping Center World.

We were formed on October 12, 2012 under the laws of the State of Maryland and are headquartered in Virginia Beach, Virginia. We elected to be taxed as a REIT for U.S. federal income tax purposes commencing for the taxable year ended December 31, 2013. Substantially all of our assets are held by, and all of our operations are conducted through, our Operating Partnership. As of December 31, 2014, we owned, through a combination of direct and indirect interests, 62.9% of the units of limited partnership interest in our Operating Partnership (“OP Units”).

2014 Highlights

The following highlights our results of operations and significant transactions for the year ended December 31, 2014:

- Net income of \$12.8 million compared to \$14.5 million for the year ended December 31, 2013.
- Funds from operations (“FFO”) of \$28.1 million compared to \$19.8 million for the year ended December 31, 2013.
- Cash from operating activities of \$31.4 million compared to \$22.2 million for the year ended December 31, 2013.
- Net operating income (“NOI”) of \$46.9 million compared to \$42.1 million for the year ended December 31, 2013:
 - Office NOI of \$19.1 million compared to \$17.9 million
 - Retail NOI of \$16.8 million compared to \$15.0 million
 - Multifamily NOI of \$6.4 million compared to \$5.5 million
 - General contracting and real estate services NOI of \$4.6 million compared to \$3.7 million
- Same store NOI of \$36.0 million compared to \$35.3 million for the year ended December 31, 2013:
 - Office same store NOI of \$17.4 million compared to \$17.3 million

- Retail same store NOI of \$14.4 million compared to \$13.9 million
- Multifamily same store NOI of \$4.2 million compared to \$4.1 million
- Stabilized occupancy by segment as of December 31, 2014 compared to December 31, 2013:
 - Office occupancy at 95.2% compared to 95.2%
 - Retail occupancy at 96.4% compared to 93.4%
 - Multifamily occupancy at 95.7% compared to 94.2%
- Acquired Liberty Apartments on January 17, 2014.
- Acquired Dimmock Square on August 15, 2014.
- Sold the Virginia Natural Gas office property on November 20, 2014.
- Invested \$98.5 million in new real estate development and delivered 4525 Main Street, Greentree Shopping Center, the initial units at both Encore Apartments and Whetstone Apartments, and the redeveloped space at Dick's at Town Center.
- Executed \$215.3 million of new third-party construction contract work.
- Third-party construction backlog of \$159.1 million as of December 31, 2014.
- Raised \$49.3 million of net proceeds through an underwritten public offering of common stock on September 15, 2014.
- Declared cash dividends of \$0.64 per share.

For definitions and discussion of FFO, NOI and same store NOI, see the sections below entitled “Item 6. Selected Financial Data” and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Our Competitive Strengths

We believe that we distinguish ourselves from other REITs through the following competitive strengths:

- *High-Quality, Diversified Portfolio.* Our portfolio consists of institutional-grade, premier office, retail and multifamily properties located in Virginia and North Carolina. Our properties are generally in the top tier of commercial properties in their markets and offer Class-A amenities and finishes. Our properties have an average age of 10 years, and were, with few exceptions, built and developed by us.
- *Seasoned, Committed and Aligned Senior Management Team with a Proven Track Record.* Our senior management team has extensive experience developing, constructing, owning, operating, renovating and financing institutional-grade office, retail, multifamily and hotel properties in the Mid-Atlantic region. As of December 31, 2014, our executive officers, directors and their respective affiliates collectively owned approximately 24% of our company on a fully diluted basis, which we believe aligns their interests with those of our stockholders.
- *Strategic Focus on Attractive Mid-Atlantic Markets.* We focus our activities in our target markets in the Mid-Atlantic region of the United States that demonstrate attractive fundamentals driven by favorable supply and demand characteristics and limited competition from other large, well-capitalized operators. We believe that our longstanding presence in our target markets provides us with significant advantages in sourcing and executing development opportunities, identifying and mitigating potential risks and negotiating attractive pricing.
- *Extensive Experience with Construction and Development.* Our platform consists of development, construction and asset management capabilities, which comprise an integrated delivery system for every project that we build for our own account or for third-party clients. This integrated approach

provides a single source of accountability for design and construction, simplifies coordination and communication among the relevant stakeholders in each project and provides us valuable insight from an operational perspective. We believe that being regularly engaged in construction and development projects provides us significant and distinct advantages, including enhanced market intelligence, greater insight into best practices, enhanced operating leverage and “first look” access to development and ownership opportunities in our target markets.

- *Longstanding Public and Private Relationships.* We have extensive experience with public/private real estate development projects dating back to 1984, having worked with the Commonwealth of Virginia, the State of Georgia and the Kingdom of Sweden, as well as various municipalities. Through our experience and longstanding relationships with governmental entities such as these, we have learned to successfully navigate the often complex and time-consuming government approval process, which has given us the ability to capture opportunities that we believe many of our competitors are unable to pursue.

Our Business and Growth Strategies

Our primary business objectives are to: (i) continue to develop, build and own institutional-grade office, retail and multifamily properties in our target markets, (ii) finance and operate our portfolio in a manner that increases cash flow and property values, (iii) execute new third-party construction work with consistent operating margins and (iv) pursue selective acquisition opportunities, particularly when the acquisition involves a significant redevelopment aspect. We will seek to achieve our objectives through the following strategies:

- *Pursue a Disciplined, Opportunistic Development and Acquisition Strategy Focused on Office, Retail and Multifamily Properties.* We intend to grow our asset base through continued strategic development of office, retail and multifamily properties, and the selective acquisition of high-quality properties that are well-located in their submarkets. Furthermore, we believe our construction and development expertise provides a high level of quality control while ensuring that the projects we construct and develop are completed more quickly and at a lower cost than if we engaged a third-party general contractor.
- *Pursue New, and Expand Existing, Public/Private Relationships.* We intend to leverage our extensive experience in completing large, complex, mixed-use, public/private projects to establish relationships with new public partners while expanding our relationships with existing public partners.
- *Leverage our Construction and Development Platform to Attract Additional Third-Party Clients.* We believe that we have a unique advantage over many of our competitors due to our integrated construction and development business that provides expertise, oversight and a broad array of client-focused services. We intend to continue to conduct and grow our construction business and other third-party services by pursuing new clients and expanding our relationships with existing clients.
- *Engage in Disciplined Capital Recycling.* We intend to opportunistically divest properties when we believe returns have been maximized and to redeploy the capital into new development, acquisition, repositioning or redevelopment projects that are expected to generate higher potential risk-adjusted returns.

Our Properties

We generally consider a property to be stabilized when it reaches 80% occupancy or three years after acquisition or completion. As of December 31, 2014, our stabilized operating property portfolio comprised the following:

Property	Location	Year Built	Net Rentable Square Feet ⁽¹⁾	% Leased ⁽²⁾	Annualized Base Rent ⁽³⁾	Annualized Base Rent per Leased SF ⁽⁵⁾	Average Net Effective Annual Base Rent per Leased SF ⁽⁴⁾

(1) The net rentable square footage for each of our office properties is the sum of (a) the square footages of existing leases, plus (b) for available space, management's estimate of net rentable square footage based, in part, on past leases. The net rentable square footage included in office leases is generally determined consistently with the Building Owners and Managers Association, or BOMA, 1996

- measurement guidelines. The net rentable square footage for each of our retail properties is the sum of (a) the square footages of existing leases, plus (b) for available space, the field verified square footage.
- (2) Percentage leased for each of our office and retail properties is calculated as (a) square footage under executed leases as of December 31, 2014, divided by (b) net rentable square feet, expressed as a percentage. Percentage leased for our multifamily properties is calculated as (a) total units occupied as of December 31, 2014, divided by (b) total units available, expressed as a percentage.
 - (3) For the properties in our office and retail portfolios, annualized base rent is calculated by multiplying (a) base rental payments for executed leases as of December 31, 2014 (defined as cash base rents (before abatements) excluding tenant reimbursements for expenses paid by the landlord), by (b) 12. Annualized base rent per leased square foot is calculated by dividing (a) annualized base rent, by (b) square footage under commenced leases as of December 31, 2014. In the case of triple net or modified gross leases, annualized base rent does not include tenant reimbursements for real estate taxes, insurance, common area or other operating expenses.
 - (4) Average net effective annual base rent per leased square foot represents (a) the contractual base rent for leases in place as of December 31, 2014, calculated on a straight-line basis to amortize free rent periods and abatements, but without regard to tenant improvement allowances and leasing commissions, divided by (b) square footage under commenced leases as of December 31, 2014.
 - (5) As of December 31, 2014, the Company occupied 18,984 square feet at this property at an annualized base rent of \$529,746, or \$27.90 per leased square foot, which amounts are reflected in the percentage leased, annualized base rent and annualized base rent per square foot columns in the table. The rent paid by us is eliminated from our revenues in consolidation. In addition, effective March 1, 2013, the Company subleases approximately 5,000 square feet of space from a tenant at this property.
 - (6) This property is subject to a triple net lease pursuant to which the tenant pays operating expenses, insurance and real estate taxes.
 - (7) Includes square footage and annualized base rent pursuant to leases for space occupied by us.
 - (8) As of December 31, 2014, the Company occupied 8,995 square feet at this property at an annualized base rent of \$287,300, or \$31.94 per leased square foot, which amounts are reflected in the percentage leased, annualized base rent and annualized base rent per square foot columns in the table. The rent paid by us is eliminated from our revenues in consolidation.
 - (9) Includes \$32,460 of annualized base rent pursuant to a rooftop lease.
 - (10) Includes square footage and annualized base rent pursuant to leases for space occupied by us.
 - (11) The Company owns the land and the tenant owns the improvements thereto. The Company will succeed to the ownership of the improvements to the land upon the termination of the ground lease.
 - (12) The Company leases the land underlying this property from the owner of the land pursuant to a ground lease. The Company re-leases the land to our tenant under a separate ground lease pursuant to which our tenant owns the improvements on the land.
 - (13) Tenants collectively lease approximately 139,356 square feet of land from us pursuant to ground leases.
 - (14) Tenants collectively lease approximately 299,170 square feet of land from us pursuant to ground leases.
 - (15) Tenants collectively lease approximately 105,988 square feet of land from us pursuant to ground leases.
 - (16) Tenants collectively lease approximately 1,443,985 square feet of land from us pursuant to ground leases.
 - (17) Tenant leases approximately 200,073 square feet of land from us pursuant to a ground lease.
 - (18) The total square footage of our retail portfolio excludes the square footage of land subject to ground leases.
 - (19) Units represent the total number of apartment units available for rent at December 31, 2014.
 - (20) For the properties in our multifamily portfolio, annualized base rent is calculated by multiplying (a) base rental payments for the month ended December 31, 2014 by (b) 12.
 - (21) Average monthly base rent per leased unit represents the average monthly rent for all leased units for the month ended December 31, 2014.
 - (22) The Company leases the land underlying this property from the owner of the land pursuant to a ground lease.
 - (23) The annualized base rent for The Cosmopolitan includes \$885,000 of annualized rent from 15 retail leases at the property.

The following tables summarize the scheduled expirations of leases in our stabilized office and retail operating property portfolios as of December 31, 2014. The information in the following tables does not assume the exercise of any renewal options.

Clark Nexsen leases approximately 85,000 square feet of office space at 4525 Main Street. Because 4525 Main Street had not yet reached stabilization as of December 31, 2014, annualized base rent of \$2.4 million from Clark Nexsen has been excluded from the preceding tables.

Development Pipeline

In addition to the properties in our stabilized operating property portfolio as of December 31, 2014, we had the following properties in various stages of development and stabilization (\$ in thousands):

Pending Delivery

Property	Location	Estimated Size ⁽¹⁾	Estimated Cost ⁽¹⁾	Incurred Cost	Schedule ⁽¹⁾			AHH Ownership % ⁽¹⁾	Property Type
					Start	Initial Occupancy	Stabilized Operation

(1) Represents estimates that may change as the development process proceeds.

(2) Estimated square footage includes land subject to ground lease that will be excluded from portfolio square footage upon stabilization.

(3) We are entitled to a preferred return on our equity prior to any distributions to minority partners.

(4) Located in the Town Center of Virginia Beach.

Our execution on all of the projects identified in the preceding table are subject to, among other factors, regulatory approvals, financing availability and suitable market conditions.

The *Oceaneering International* facility is a 155,000 square foot office and manufacturing building that will serve as Oceaneering International's operational base in Virginia. The building is 100% pre-leased to Oceaneering International, which has agreed to a 15-year lease with us. We facilitated this public/private transaction among the City of Chesapeake, the Commonwealth of Virginia and Oceaneering International. We delivered the completed project in February 2015.

Sandbridge Commons continues our long-standing relationship with Harris Teeter, which has agreed to anchor this new shopping center pursuant to a 20-year ground lease. In addition to a 53,000 square foot Harris Teeter grocery store, Sandbridge Commons will include approximately 17,000 square feet of small shop retail space. The site includes two outparcels that we may either lease or sell.

Commonwealth of Virginia Projects: In January 2015, we delivered two new administrative buildings to the Commonwealth of Virginia—one in Chesapeake and one in Virginia Beach—totaling 47,000 square feet. The properties are 100% pre-leased to the Commonwealth of Virginia, which agreed to 15-year leases for both locations.

Lightfoot Marketplace will be a grocery-anchored shopping center in Williamsburg, Virginia. We expect to complete phase one of the project, consisting of approximately 88,000 square feet, in early 2016. Harris Teeter has signed a 20-year ground lease for a new 53,000 square foot store. Phase one of Lightfoot Marketplace will include an additional 35,000 square feet of shops and restaurants. Phase two represents an opportunity for us to develop another 42,000 square feet in the future.

Johns Hopkins Village will include student housing, retail space and parking located adjacent to Johns Hopkins University's Homewood campus in Baltimore, Maryland. This mixed-use development is designed to complement both the Homewood campus and nearby Charles Village neighborhood and provide a catalyst for future development in the area. CVS has agreed to lease 10,500 square feet of retail space in the new development. We have agreed to a 65-year ground lease for the site and anticipate commencing construction during March 2015.

4525 Main Street is our most recent addition to the Town Center of Virginia Beach and is located at the intersection of Main Street and Town Center Drive across from The Cosmopolitan, One Columbus and Armada Hoffer Tower. This 15-story office tower is anchored by Clark Nexsen, an international architecture and engineering firm, to whom we delivered approximately 85,000 square feet of office space in July 2014. Additionally, we delivered to the City of Virginia Beach Development Authority approximately 23,000 square feet of office space in June 2014. 4525 Main Street also features approximately 26,000 square feet of ground floor retail space anchored by Anthropologie, which opened in October 2014. All of the remaining retail space is under lease by West Elm and Tupelo Honey Cafe.

Greentree Shopping Center features a Wawa convenience store and gas station adjacent to a new Walmart Neighborhood Market. We delivered to Walmart their pad-ready site on schedule in the first quarter of 2014. We have a long-term ground lease with Wawa and delivered their pad on schedule in May 2014. We delivered the remaining retail space during 2014.

Encore Apartments are also located in the Town Center of Virginia Beach adjacent to 4525 Main Street. Encore Apartments feature free covered parking, a private pool, a business center and meeting space. We delivered the first units at Encore Apartments in September 2014.

Whetstone Apartments is Durham, North Carolina's newest urban community and is conveniently located near Duke University. We delivered the initial units at Whetstone Apartments in September 2014. On February 26, 2015, we entered into a definitive agreement to sell Whetstone Apartments for \$35.6 million. The transaction is subject to customary closing conditions and is expected to close in the second quarter of 2015.

Dick's at Town Center: During 2014, we renovated and expanded the vacant space adjacent to Dick's Sporting Goods in the Town Center of Virginia Beach. We delivered the redeveloped 20,000 square feet of office space to USI Insurance Services in December 2014.

Acquisitions and Dispositions

On January 17, 2014, we completed our acquisition of Liberty Apartments for total consideration of \$26.7 million, consisting of 695,652 OP Units, \$3.0 million of cash and the assumption of \$17.0 million of debt. Liberty Apartments are located in Newport News, Virginia, next to another one of our public/private partnership projects—the Newport News Apprentice School of Shipbuilding. In addition to 197 apartment units, Liberty Apartments also feature approximately 28,000 square feet of retail space.

On August 15, 2014, we completed our acquisition of Dimmock Square for total consideration of \$19.7 million, consisting of 990,952 OP Units and \$10.1 million of cash that we used to immediately defease the loan secured by the property. Dimmock Square is a 100% occupied 106,166 square foot retail center located in Colonial Heights, Virginia. The center is anchored by Old Navy, Best Buy and Pier 1 Imports.

On November 20, 2014, we completed the sale of the Virginia Natural Gas office property for \$8.9 million in cash. Net proceeds to us after transaction costs and tax protection payments were \$7.4 million. The gain on the disposition of the Virginia Natural Gas office property was \$2.2 million.

On January 5, 2015, we completed the sale of the Sentara Williamsburg office property for \$15.4 million in cash. Net proceeds to us after transaction costs were \$15.2 million. The gain on the disposition of the Sentara Williamsburg office property was \$6.2 million. We plan to use the net proceeds from the Sentara Williamsburg sale in combination with the issuance of common stock to acquire two grocery store anchored retail centers in Maryland for a combined purchase price of approximately \$39.1 million. These pending acquisitions will add over 185,000 square feet to our portfolio. Both transactions are subject to customary closing conditions and are expected to close by the end of the first quarter of 2015.

On January 9, 2015, we entered into an agreement to purchase a 57,000 square foot grocery store anchored retail center in Myrtle Beach, South Carolina for \$8.7 million, including the assumption of approximately \$5.1 million of debt. The transaction is subject to customary closing conditions and is expected to close in the second quarter of 2015.

On February 13, 2015, we agreed to the future sale of the Oyster Point office property for \$6.5 million in cash. We intend to complete the sale on January 15, 2017, subject to customary closing conditions.

Segments

As of December 31, 2014, we operated in four business segments: (i) office real estate, (ii) retail real estate, (iii) multifamily residential real estate and (iv) general contracting and real estate services. Additional information regarding our four operating segments is set forth in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in Note 3 to our consolidated and combined financial statements in Item 8 of this Annual Report on Form 10-K.

Tax Status

We have elected and qualified to be taxed as a REIT for U.S. federal income tax purposes commencing with our short taxable year ended December 31, 2013. Our continued qualification as a REIT will depend upon our ability to meet, on a continuing basis, through actual investment and operating results, various complex requirements under the Internal Revenue Code of 1986, as amended (the “Code”) relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our capital stock. We believe that we are organized in conformity with the requirements for qualification as a REIT under the Code and that our manner of operation will enable us to maintain the requirements for qualification and taxation as a REIT for U.S. federal income tax purposes. In addition, we have elected to treat AHP Holding, Inc., which, through its wholly-owned subsidiaries, operate our construction, development and third-party asset management businesses, as a taxable REIT subsidiary (“TRS”).

As a REIT, we generally will not be subject to U.S. federal income tax on our net taxable income that we distribute currently to our stockholders. Under the Code, REITs are subject to numerous organizational and operational requirements, including a requirement that they distribute each year at least 90% of their REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gains. If we fail to qualify for taxation as a REIT in any taxable year and do not qualify for certain statutory relief provisions, our income for that year will be taxed at regular corporate rates, and we would be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT. Even if we qualify as a REIT for U.S. federal income tax purposes, we may still be subject to state and local taxes on our income and assets and to federal income and excise taxes on our undistributed income. Additionally, any income earned by our services company, and any other TRS we form in the future, will be fully subject to federal, state and local corporate income tax.

Insurance

We carry comprehensive liability, fire, extended coverage, business interruption and rental loss insurance covering all of the properties in our portfolio under a blanket insurance policy, in addition to other coverage that may be appropriate for certain of our properties. We believe the policy specifications and insured limits are appropriate and adequate for our properties given the relative risk of loss, the cost of the coverage and industry practice; however, our insurance coverage may not be sufficient to fully cover our losses. We do not carry insurance for certain losses, including, but not limited to, losses caused by riots or war. Some of our policies, like those covering losses due to terrorism and earthquakes, are insured subject to limitations involving large deductibles or co-payments and policy limits that may not be sufficient to cover losses, for such events. In addition, all of the properties in our portfolio are located in Virginia and North Carolina, which are areas subject to an increased risk of hurricanes. While we will carry hurricane insurance on certain of our properties, the amount of our hurricane insurance coverage may not be sufficient to fully cover losses from hurricanes. We may reduce or discontinue hurricane, terrorism or other insurance on some or all of our properties in the future if the cost of premiums for any of these policies exceeds, in our judgment, the value of the coverage discounted for the risk of loss. Also, if destroyed, we may not be able to rebuild certain of our properties due to current zoning and land use regulations. As a result, we may be required to incur significant costs in the event of adverse weather conditions and natural disasters. In addition, our title insurance policies may not insure for the current aggregate market value of our portfolio, and we do not intend to increase our title insurance coverage as the market value of our portfolio increases. If we or one or more of our tenants experiences a loss that is uninsured or that exceeds policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged. Furthermore, we may not be able to obtain adequate insurance coverage at reasonable costs in the future as the costs associated with property and casualty renewals may be higher than anticipated.

Regulation

General

Our properties are subject to various covenants, laws, ordinances and regulations, including regulations relating to common areas and fire and safety requirements. We believe that each of the properties in our portfolio has the necessary permits and approvals to operate its business.

Americans With Disabilities Act

Our properties must comply with Title III of the Americans with Disabilities Act of 1990 (the “ADA”), to the extent that such properties are “public accommodations” as defined by the ADA. Under the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. Although we believe that the properties in our portfolio in the aggregate substantially comply with present requirements of the ADA, we have not conducted a comprehensive audit or investigation of all of our properties to determine our compliance, and we are aware that some particular properties may currently be in non-compliance with the ADA. Noncompliance with the ADA could result in the incurrence of additional costs to attain compliance, the imposition of fines, an award of damages to private litigants and a limitation on our ability to refinance outstanding indebtedness. The obligation to make readily achievable accommodations is an ongoing one, and we will continue to assess our properties and to make alterations as appropriate in this respect.

Environmental Matters

Under various federal, state and local laws and regulations relating to the environment, as a current or former owner or operator of real property, we may be liable for costs and damages resulting from the presence or

discharge of hazardous or toxic substances, waste or petroleum products at, on, in, under, or migrating from such property, including costs to investigate and clean up such contamination and liability for harm to natural resources. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such contamination, and the liability may be joint and several. These liabilities could be substantial and the cost of any required remediation, removal, fines, or other costs could exceed the value of the property and our aggregate assets. In addition, the presence of contamination or the failure to remediate contamination at our properties may expose us to third-party liability for costs of remediation and personal or property damage or materially adversely affect our ability to sell, lease or develop our properties or to borrow using the properties as collateral. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. Moreover, if contamination is discovered on our properties, environmental laws may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures.

Some of our properties contain, have contained, or are adjacent to or near other properties that have contained or currently contain storage tanks for the storage of petroleum products, propane or other hazardous or toxic substances. Similarly, some of our properties were used in the past for commercial or industrial purposes, or are currently used for commercial purposes, that involve or involved the use of petroleum products or other hazardous or toxic substances, or are adjacent to or near properties that have been or are used for similar commercial or industrial purposes. As a result, some of our properties have been or may be impacted by contamination arising from the releases of such hazardous substances or petroleum products. Where we have deemed appropriate, we have taken steps to address identified contamination or mitigate risks associated with such contamination; however, we are unable to ensure that further actions will not be necessary. As a result of the foregoing, we could potentially incur material liability.

Environmental laws also govern the presence, maintenance and removal of asbestos-containing building materials, or ACBM, and may impose fines and penalties for failure to comply with these requirements or expose us to third-party liability. Such laws require that owners or operators of buildings containing ACBM (and employers in such buildings) properly manage and maintain the asbestos, adequately notify or train those who may come into contact with asbestos, and undertake special precautions, including removal or other abatement, if asbestos would be disturbed during renovation or demolition of a building. In addition, the presence of ACBM in our properties may expose us to third-party liability (e.g. liability for personal injury associated with exposure to asbestos). We are not presently aware of any material adverse issues at our properties including ACBM.

Similarly, environmental laws govern the presence, maintenance and removal of lead-based paint in residential buildings, and may impose fines and penalties for failure to comply with these requirements. Such laws require, among other things, that owners or operators of residential facilities that contain or potentially contain lead-based paint notify residents of the presence or potential presence of lead-based paint prior to occupancy and prior to renovations and manage lead-based paint waste appropriately. In addition, the presence of lead-based paint in our buildings may expose us to third-party liability (e.g., liability for personal injury associated with exposure to lead-based paint). We are not presently aware of any material adverse issues at our properties involving lead-based paint.

In addition, the properties in our portfolio also are subject to various federal, state, and local environmental and health and safety requirements, such as state and local fire requirements. Moreover, some of our tenants may handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject us or our tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to us. In addition, changes in laws could increase the potential liability for noncompliance. Our leases sometimes require our tenants to comply with environmental and health and safety laws and regulations and to indemnify us for any related liabilities. But in the event of the bankruptcy or inability of any of our tenants to satisfy such obligations, we may be required to satisfy such obligations. In addition, we may be held directly

liable for any such damages or claims regardless of whether we knew of, or were responsible for, the presence or disposal of hazardous or toxic substances or waste and irrespective of tenant lease provisions. The costs associated with such liability could be substantial and could have a material adverse effect on us.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants above certain levels can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants from the affected property or increase indoor ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to liability from our tenants, employees of our tenants or others if property damage or personal injury occurs. We are not presently aware of any material adverse indoor air quality issues at our properties.

Competition

We compete with a number of developers, owners and operators of office, retail and multifamily real estate, many of which own properties similar to ours in the same markets in which our properties are located and some of which have greater financial resources than we do. In operating and managing our portfolio, we compete for tenants based on a number of factors, including location, rental rates, security, flexibility and expertise to design space to meet prospective tenants' needs and the manner in which the property is operated, maintained and marketed. As leases at our properties expire, we may encounter significant competition to renew or re-lease space in light of the large number of competing properties within the markets in which we operate. As a result, we may be required to provide rent concessions or abatements, incur charges for tenant improvements and other inducements, including early termination rights or below-market renewal options, or we may not be able to timely lease vacant space.

We also face competition when pursuing development and acquisition opportunities. Our competitors may be able to pay higher property acquisition prices, may have private access to opportunities not available to us and otherwise be in a better position to acquire or develop a property. Competition may also have the effect of reducing the number of suitable development and acquisition opportunities available to us or increasing the price required to consummate a development or acquisition opportunity.

In addition, we face competition in our construction business from other construction companies in the markets in which we operate, including small local companies and large regional and national companies. In our construction business, we compete for construction projects based on several factors, including cost, reputation for quality and timeliness, access to machinery and equipment, access to and relationships with high-quality subcontractors, financial strength, knowledge of local markets and project management abilities. We believe that we compete favorably on the basis of the foregoing factors, and that our construction business is well-positioned to compete effectively in the markets in which we operate. However, some of the construction companies with which we compete have different cost structures and greater financial and other resources than we do, which may put them at an advantage when competing with us for construction projects. Competition from other construction companies may reduce the number of construction projects that we are hired to complete and increase pricing pressure, either of which could reduce the profitability of our construction business.

Employees

At December 31, 2014, we had 137 employees. None of our employees are represented by a collective bargaining unit. We believe that our relationship with our employees is good.

Corporate Information

Our principal executive office is located at 222 Central Park Avenue, Suite 2100, Virginia Beach, Virginia 23462 in the Armada Hoffler Tower at the Town Center of Virginia Beach. In addition, we have construction offices located at 249 Central Park Avenue, Suite 300, Virginia Beach, Virginia 23462 and 1300 Thames Street, Suite 30, Baltimore, Maryland 21231. The telephone number for our principal executive office is (757) 366-4000. We maintain a website located at www.armadahoffler.com. The information on, or accessible through, our website is not incorporated into and does not constitute a part of this Annual Report on Form 10-K or any other report or document we file with or furnish to the SEC.

Available Information

We file our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to those reports with the SEC. You may obtain copies of these documents by visiting the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549, by calling the SEC at 1-800-SEC-0330 or by accessing the SEC's website at www.sec.gov. In addition, as soon as reasonably practicable after such materials are furnished to the SEC, we make copies of these documents available to the public free of charge through our website or by contacting our Corporate Secretary at the address set forth above under "—Corporate Information."

Our Corporate Governance Guidelines, Code of Business Conduct and Ethics, and the charters of our audit committee, compensation committee and nominating and corporate governance committee are all available in the Corporate Governance section of the Investor Relations section of our website.

Financial Information

For required financial information related to our operations, please refer to our consolidated and combined financial statements, including the notes thereto, included with this Annual Report on Form 10-K.

Item 1A. Risk Factors

Set forth below are the risks that we believe are material to our stockholders. You should carefully consider the following risks in evaluating our Company and our business. The occurrence of any of the following risks could materially adversely impact our financial condition, results of operations, cash flow, the market price of shares of our common stock and our ability to, among other things, satisfy our debt service obligations and to make distributions to our stockholders, which in turn could cause our stockholders to lose all or a part of their investment. Some statements in this report including statements in the following risk factors constitute forward-looking statements. Please refer to the section entitled "Special Note Regarding Forward-Looking Statements" at the beginning of this Annual Report on Form 10-K.

Risks Related to Our Real Estate Ownership, Acquisition and Development Business

The geographic concentration of our portfolio could cause us to be more susceptible to adverse economic or regulatory developments in the markets in which our properties are located than if we owned a more geographically diverse portfolio.

The properties in our stabilized portfolio are located in Virginia and North Carolina, which expose us to greater economic risks than if we owned a more geographically diverse portfolio. As of December 31, 2014, our properties in the Virginia and North Carolina markets represented approximately 94% and 6%, respectively, of the total annualized base rent of the properties in our stabilized portfolio. As a result, we are particularly susceptible to adverse economic, regulatory or other conditions in these markets (such as periods of economic slowdown or recession, business layoffs or downsizing, industry slowdowns, relocations of businesses, increases in real estate and other taxes and the cost of complying with governmental regulations or increased regulation),

as well as to natural disasters that occur in these markets (such as hurricanes and other events). For example, the markets in Virginia in which the properties in our portfolio are located contain high concentrations of military personnel and operations. A reduction of the military presence or cuts in defense spending in these markets could have a material adverse effect on us. If there is a further downturn in the economy in the Virginia or North Carolina markets, our operations and our revenue and cash available for distribution, including cash available to pay distributions to our stockholders, could be materially adversely affected. We cannot assure you that these markets will grow or that underlying real estate fundamentals will be favorable to owners and operators of office, retail or multifamily properties. Our operations may also be affected if competing properties are built in these markets. Moreover, submarkets within any of our target markets may be dependent upon a limited number of industries. Any adverse economic or real estate developments in our markets, or any decrease in demand for office, retail or multifamily space resulting from the regulatory environment, business climate or energy or fiscal problems, could materially adversely affect us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to satisfy our debt service obligations.

We have a substantial amount of indebtedness outstanding, which may expose us to the risk of default under our debt obligations and may include covenants that restrict our ability to pay distributions to our stockholders.

At December 31, 2014, we had total debt outstanding of approximately \$359.2 million, including amounts drawn under our credit facility, a substantial portion of which is guaranteed by our Operating Partnership, and we may incur significant additional debt to finance future acquisition and development activities. Payments of principal and interest on borrowings may leave us with insufficient cash resources to operate our properties or to pay the dividends currently contemplated or necessary to maintain our REIT qualification. Our level of debt and the limitations imposed on us by our debt agreements could have significant adverse consequences, including the following:

- our cash flow may be insufficient to meet our required principal and interest payments;
- we may be unable to borrow additional funds as needed or on favorable terms, which could, among other things, adversely affect our ability to meet operational needs;
- we may be unable to refinance our indebtedness at maturity or the refinancing terms may be less favorable than the terms of our original indebtedness;
- we may be forced to dispose of one or more of our properties, possibly on unfavorable terms or in violation of certain covenants to which we may be subject;
- we may default on our obligations, in which case the lenders or mortgagees may have the right to foreclose on any properties that secure the loans or collect rents and other income from our properties;
- we may violate restrictive covenants in our loan documents, which would entitle the lenders to accelerate our debt obligations or reduce our ability to pay, or prohibit us from paying, distributions to our stockholders; and
- our default under any loan with cross default provisions could result in a default on other indebtedness.

If any one of these events were to occur, our financial condition, results of operations and cash flow could be materially adversely affected. Furthermore, foreclosures could create taxable income without accompanying cash proceeds, which could hinder our ability to meet the REIT distribution requirements imposed by the Code. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources.”

We depend on significant tenants in certain of our office properties, and a bankruptcy, insolvency or inability to pay rent by any of these tenants could result in a material decrease in our rental income, which would have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

As of December 31, 2014, the largest tenant in our stabilized office portfolio—Williams Mullen—represented approximately 33% of the total annualized base rent in our stabilized office portfolio. The inability of this or other significant tenants to pay rent or the bankruptcy or insolvency of a significant tenant may adversely affect the income produced by our office properties. For example, Williams Mullen, the largest tenant at properties in our stabilized portfolio by annualized base rent, represented annualized base rent of approximately \$8.0 million as of December 31, 2014 or 14% of the total annualized base rent of our stabilized portfolio as of December 31, 2014. As a result, Williams Mullen's inability to pay rent could materially adversely affect the income produced by our portfolio.

If a tenant becomes bankrupt or insolvent, federal law may prohibit us from evicting such tenant based solely upon such bankruptcy or insolvency. In addition, a bankrupt or insolvent tenant may be authorized to reject and terminate its lease with us. Any claim against such tenant for unpaid, future rent would be subject to a statutory cap that might be substantially less than the remaining rent owed under the lease. If any of these tenants were to experience a downturn in its business or a weakening of its financial condition resulting in its failure to make timely rental payments or causing it to default under its lease, we may experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment. In many cases, we may have made substantial initial investments in the applicable leases through tenant improvement allowances and other concessions that we may not be able to recover. Any such event could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

The loss of, or a store closure by, one of the anchor stores or major tenants in our retail shopping center properties could result in a material decrease in our rental income, which would have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Our retail shopping center properties typically are anchored by large, nationally recognized tenants. As of December 31, 2014, Home Depot, Harris Teeter and Food Lion collectively represented approximately 21%, and individually represented 9%, 6% and 6%, respectively, of the total annualized base rent in our stabilized retail portfolio. In addition, several of our retail properties are single-tenant properties or are occupied primarily by a single tenant. As of December 31, 2014, the Courthouse 7-Eleven, Tyre Neck Harris Teeter and Harrisonburg Regal retail properties in our portfolio were 100% occupied by 7-Eleven, Harris Teeter and Regal Cinemas, respectively, and the Dick's at Town Center and Studio 56 retail properties were approximately 81% and 69% occupied by Dick's Sporting Goods and McCormick & Schmick's, respectively. At any time, our tenants may experience a downturn in their business that may weaken significantly their financial condition. As a result, our tenants, including our anchor and other major tenants, may fail to comply with their contractual obligations to us, seek concessions in order to continue operations or declare bankruptcy, any of which could result in the termination of such tenants' leases and the loss of rental income attributable to the terminated leases. In addition, certain of our tenants may cease operations while continuing to pay rent, which could decrease customer traffic, thereby decreasing sales for our other tenants at the applicable retail property. In addition to these potential effects of a business downturn, mergers or consolidations among retail establishments could result in the closure of existing stores or duplicate or geographically overlapping store locations, which could include stores at our retail properties.

Loss of, or a store closure by, an anchor or major tenant could significantly reduce our occupancy level or the rent we receive from our retail properties, and we may not have the right to re-lease vacated space or we may be unable to re-lease vacated space at attractive rents or at all. Moreover, in the event of default by a major tenant or anchor store, we may experience delays and costs in enforcing our rights as landlord to recover amounts due to

us under the terms of our agreements with those parties. The occurrence of any of the situations described above, particularly if it involves an anchor tenant with leases in multiple locations, could seriously harm our performance and could adversely affect the value of the affected retail property.

In the event that any of the anchor stores, major tenants or single-tenant property tenants in our retail properties do not renew their leases with us when they expire, we may be unable to re-lease such premises at market rents, or at all, which could have a material adverse effect on us, including our financial condition, results of operations, cash flow and cash available for distribution and our ability to satisfy our debt service obligations.

We may be unable to renew leases, lease vacant space or re-lease space on favorable terms or at all as leases expire, which could materially adversely affect us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

As of December 31, 2014, 4% of the square footage of the properties in our stabilized office and retail portfolios was available. We cannot assure you that leases will be renewed or that our properties will be re-leased at net effective rental rates equal to or above the current average net effective rental rates or that substantial rent abatements, tenant improvements, early termination rights or below-market renewal options will not be offered to attract new tenants or retain existing tenants. In addition, our ability to lease our multifamily properties at favorable rates, or at all, may be adversely affected by the increase in supply of multifamily properties in our target markets. Our ability to lease our properties depends upon the overall level of spending in the economy, which is adversely affected by, among other things, job losses and unemployment levels, recession, personal debt levels, the housing market, stock market volatility and uncertainty about the future. If rental rates for our properties decrease, our existing tenants do not renew their leases or we do not re-lease a significant portion of our available space and space for which leases expire, our financial condition, results of operations, cash flow, cash available for distributions and our ability to service our debt obligations could be materially adversely affected.

Competition for property acquisitions and development opportunities may reduce the number of opportunities available to us and increase our costs, which could have a material adverse effect on our growth prospects.

The current market for property acquisitions and development opportunities continues to be extremely competitive. This competition may increase the demand for the types of properties in which we typically invest and, therefore, reduce the number of suitable investment opportunities available to us and increase the purchase prices for such properties, in the event we are able to acquire or develop such properties. We face significant competition for attractive investment opportunities from an indeterminate number of investors, including publicly traded and privately held REITs, private equity investors and institutional investment funds, some of which have greater financial resources than we do, a greater ability to borrow funds to make investments in properties and the ability to accept more risk than we can prudently manage, including risks with respect to the geographic proximity of investments and the payment of higher acquisition prices. This competition will increase if investments in real estate become more attractive relative to other forms of investment. If the level of competition for investment opportunities is significant in our target markets, it could have a material adverse effect on our growth prospects.

The failure of properties that we develop or acquire in the future to meet our financial expectations could have a material adverse effect on us, including our financial condition, results of operations, cash flow, the per share trading price of our common stock and our growth prospects.

Our future acquisitions and development projects and our ability to successfully operate these properties may be exposed to the following significant risks, among others:

- we may acquire or develop properties that are not accretive to our results upon acquisition, and we may not successfully manage and lease those properties to meet our expectations;

- our cash flow may be insufficient to enable us to pay the required principal and interest payments on the debt secured by the property;
- we may spend more than budgeted amounts to make necessary improvements or renovations to acquired properties or to develop new properties;
- we may be unable to quickly and efficiently integrate new acquisitions or developed properties into our existing operations;
- market conditions may result in higher than expected vacancy rates and lower than expected rental rates; and
- we may acquire properties subject to liabilities without any recourse, or with only limited recourse, with respect to unknown liabilities such as liabilities for clean-up of undisclosed environmental contamination, claims by tenants, vendors or other persons dealing with the former owners of the properties, liabilities incurred in the ordinary course of business and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the properties.

If we cannot operate acquired or developed properties to meet our financial expectations, our growth prospects could be materially adversely affected.

Certain of the leases at our retail properties contain “co-tenancy” or “go-dark” provisions, which, if triggered, may allow tenants to pay reduced rent, cease operations or terminate their leases, any of which could materially adversely affect our performance or the value of the affected retail property.

Certain of the leases at our retail properties contain “co-tenancy” provisions that condition a tenant’s obligation to remain open, the amount of rent payable by the tenant or the tenant’s obligation to continue occupancy on certain conditions, including: (i) the presence of a certain anchor tenant or tenants, (ii) the continued operation of an anchor tenant’s store and (iii) minimum occupancy levels at the retail property. If a co-tenancy provision is triggered by a failure of any of these or other applicable conditions, a tenant could have the right to cease operations, to terminate its lease early or to reduce its rent. In periods of prolonged economic decline, there is a higher than normal risk that co-tenancy provisions will be triggered as there is a higher risk of tenants closing stores or terminating leases during these periods. In addition to these co-tenancy provisions, certain of the leases at our retail properties contain “go-dark” provisions that allow the tenant to cease operations while continuing to pay rent. This could result in decreased customer traffic at the affected retail property, thereby decreasing sales for our other tenants at that property, which may result in our other tenants being unable to pay their minimum rents or expense recovery charges. These provisions also may result in lower rental revenue generated under the applicable leases. To the extent co-tenancy or go-dark provisions in our retail leases result in lower revenue or tenant sales or tenants’ rights to terminate their leases early or to a reduction of their rent, revenues and the value of the affected retail property could be materially adversely affected.

Our dependence on smaller businesses, particularly in our retail portfolio, to rent our space could have a material adverse effect on our cash flow and results of operations.

Many of our tenants, particularly those that lease space in our retail properties are smaller businesses that generally do not have the financial strength or resources of larger corporate tenants. In particular, 70 of our retail leases (representing approximately 10% of our annualized base rent from stabilized retail properties as of December 31, 2014) lease 2,500 or less square feet from us, and many of those tenants are smaller independent businesses, which generally experience a higher rate of failure than larger businesses. As a result of our dependence on these smaller businesses, we could experience a higher rate of tenant defaults, turnover and bankruptcies, which could have a material adverse effect on our cash flow and results of operations.

Many of our operating costs and expenses are fixed and will not decline if our revenues decline.

Our results of operations depend, in large part, on our level of revenues, operating costs and expenses. The expense of owning and operating a property is not necessarily reduced when circumstances such as market

factors and competition cause a reduction in revenue from the property. As a result, if revenues decline, we may not be able to reduce our expenses to keep pace with the corresponding reductions in revenues. Many of the costs associated with real estate investments, such as real estate taxes, insurance, loan payments and maintenance, generally will not be reduced if a property is not fully occupied or other circumstances cause our revenues to decrease, which could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Increases in mortgage rates or unavailability of mortgage debt may make it difficult for us to finance or refinance our debt, which could have a material adverse effect on our financial condition, growth prospects and our ability to make distributions to our stockholders.

If mortgage debt is unavailable to us at reasonable rates or at all, we may not be able to finance the purchase or development of additional properties or refinance existing debt when it becomes due. If interest rates are higher when we refinance our properties, our income and cash flow could be reduced, which would reduce cash available for distribution to our stockholders and may hinder our ability to raise more capital by issuing more stock or by borrowing more money. In addition, to the extent we are unable to refinance our debt when it becomes due, we will have fewer debt guarantee opportunities available to offer under our tax protection agreements, which could trigger an obligation to indemnify certain parties under the applicable tax protection agreements.

Mortgage debt obligations expose us to the possibility of foreclosure, which could result in the loss of our investment in a property or group of properties subject to mortgage debt.

Mortgage and other secured debt obligations increases our risk of property losses because defaults on indebtedness secured by properties may result in foreclosure actions initiated by lenders and ultimately our loss of the property securing any loans for which we are in default. Any foreclosure on a mortgaged property or group of properties could adversely affect the overall value of our portfolio of properties. For tax purposes, a foreclosure on any of our properties that is subject to a nonrecourse mortgage loan would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the property, we would recognize taxable income on foreclosure, but would not receive any cash proceeds, which could hinder our ability to meet the REIT distribution requirements imposed by the Code. Foreclosures could also trigger our tax indemnification obligations under the terms of our tax protection agreements with respect to the sales of certain properties.

Most of our debt arrangements involve balloon payment obligations, which may materially adversely affect us, including our cash flows, financial condition and ability to make distributions to our stockholders.

Most of our debt arrangements require us to make a lump-sum or “balloon” payment at maturity. Our ability to make a balloon payment at maturity is uncertain and may depend upon our ability to obtain additional financing or our ability to sell the property. At the time the balloon payment is due, we may or may not be able to refinance the existing financing on terms as favorable as the original loan or sell the property at a price sufficient to make the balloon payment. In addition, balloon payments and payments of principal and interest on our indebtedness may leave us with insufficient cash to pay the distributions that we are required to pay to maintain our qualification as a REIT.

Our credit facility restricts our ability to engage in certain business activities, including our ability to incur additional indebtedness, make capital expenditures and make certain investments.

Our credit facility contains customary negative covenants and other financial and operating covenants that, among other things:

- restrict our ability to incur additional indebtedness;
- restrict our ability to incur additional liens;

- restrict our ability to make certain investments (including certain capital expenditures);
- restrict our ability to merge with another company;
- restrict our ability to sell or dispose of assets;
- restrict our ability to make distributions to our stockholders; and
- require us to satisfy minimum financial coverage ratios, minimum tangible net worth requirements and maximum leverage ratios.

These limitations restrict our ability to engage in certain business activities, which could materially adversely affect our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations. In addition, our credit facility may contain specific cross-default provisions with respect to specified other indebtedness, giving the lenders the right, in certain circumstances, to declare a default if we are in default under other loans.

Adverse economic and geopolitical conditions and dislocations in the credit markets could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Our business may be affected by market and economic challenges experienced by the U.S. economy or real estate industry as a whole, such as the dislocations in the credit markets and general global economic downturn during the recent recessionary period. These conditions, or similar conditions in the future, may materially adversely affect us as a result of the following potential consequences, among others:

- decreased demand for office, retail and multifamily space, which would cause market rental rates and property values to be negatively impacted;
- reduced values of our properties may limit our ability to dispose of assets at attractive prices or obtain debt financing secured by our properties and may reduce the availability of unsecured loans;
- our ability to obtain financing on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reduce our returns from our acquisition and development activities and increase our future debt service expense; and
- one or more lenders under our credit facility could refuse to fund their financing commitment to us or could fail and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all.

If the U.S. economy experiences another economic downturn, we may see increases in bankruptcies of our tenants and increased defaults by tenants, and we may experience higher vacancy rates and delays in re-leasing vacant space, which could negatively impact our business and results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Failure to hedge effectively against interest rate changes may adversely affect our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Subject to maintaining our qualification as a REIT, we expect to continue to enter into hedging transactions to protect us from the effects of interest rate fluctuations on floating rate debt. Our existing hedging transactions have, and future hedging transactions may, include entering into interest rate cap agreements or interest rate swap agreements. These agreements involve risks, such as the risk that such arrangements would not be effective in reducing our exposure to interest rate changes or that a court could rule that such an agreement is not legally enforceable. In addition, interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates. Hedging could increase our costs and reduce the overall returns on our investments. In addition,

while hedging agreements would be intended to lessen the impact of rising interest rates on us, they could also expose us to the risk that the other parties to the agreements would not perform, that we could incur significant costs associated with the settlement of the agreements or that the underlying transactions could fail to qualify as highly-effective cash flow hedges under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 815, *Derivatives and Hedging*.

Adverse conditions in the general retail environment could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to satisfy our debt service obligations and to make distributions to our stockholders.

Approximately 40% of our total stabilized annualized base rent as of December 31, 2014, are from retail properties. As a result, we are subject to factors that affect the retail sector generally, as well as the market for retail space. The retail environment and the market for retail space have been, and could continue to be, adversely affected by weakness in the national, regional and local economies, the level of consumer spending and consumer confidence, the adverse financial condition of some large retailing companies, the ongoing consolidation in the retail sector, the excess amount of retail space in a number of markets and increasing competition from discount retailers, outlet malls, internet retailers and other online businesses. Increases in consumer spending via the internet may significantly affect our retail tenants’ ability to generate sales in their stores. New and enhanced technologies, including new digital technologies and new web services technologies, may increase competition for certain of our retail tenants.

Any of the foregoing factors could adversely affect the financial condition of our retail tenants and the willingness of retailers to lease space in our retail properties. In turn, these conditions could negatively affect market rents for retail space and could materially and adversely affect us, including our financial condition, results of operations, cash flow, cash available for distributions and our ability to service our debt obligations.

We have limited operating history as a REIT or a publicly traded company.

We have limited operating history as a REIT or a publicly traded company. We cannot assure you that the past experience of our senior management team will be sufficient to successfully operate our company as a REIT or a publicly traded company, including the requirements to timely meet disclosure requirements of the SEC. We will be required to develop and implement control systems and procedures in order to qualify and maintain our qualification as a REIT and satisfy our periodic and current reporting requirements under applicable SEC regulations and comply with New York Stock Exchange (“NYSE”) listing standards, and this transition could place a significant strain on our management systems, infrastructure and other resources. Failure to operate successfully as a public company or maintain our qualification as a REIT could have a material adverse effect on our financial condition, results of operations, cash flow and per share trading price of our common stock. See “—Risks Related to Our Status as a REIT.”

We are an “emerging growth company,” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make shares of our common stock less attractive to investors.

In April 2012, President Obama signed into law the Jumpstart Our Business Startups Act (the “JOBS Act”). The JOBS Act contains provisions that, among other things, relax certain reporting requirements for “emerging growth companies,” including certain requirements relating to accounting standards and compensation disclosure. We are classified as an emerging growth company. For as long as we are an emerging growth company, which may be up to five full fiscal years, we may take advantage of exemptions from various reporting and other requirements that are applicable to other public companies that are not emerging growth companies, including the requirements to:

- provide an auditor’s attestation report on management’s assessment of the effectiveness of our system of internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act;

- comply with any new or revised financial accounting standards applicable to public companies until such standards are also applicable to private companies;
- comply with any new requirements adopted by the Public Company Accounting Oversight Board (the “PCAOB”), requiring mandatory audit firm rotation or a supplement to the auditor’s report in which the auditor would be required to provide additional information about the audit and the financial statements of the issuer;
- comply with any new audit rules adopted by the PCAOB after April 5, 2012, unless the SEC determines otherwise;
- provide certain disclosure regarding executive compensation required of larger public companies; or
- hold stockholder advisory votes on executive compensation.

We cannot predict if investors will find shares of our common stock less attractive because we will not be subject to the same reporting and other requirements as other public companies. If some investors find shares of our common stock less attractive as a result, there may be a less active trading market for our common stock, the per share trading price of our common stock could decline and may be more volatile.

We will continue to incur costs as a result of becoming a public company, and such costs may increase if and when we cease to be an “emerging growth company.”

As a public company, we expect to continue to incur significant legal, accounting, insurance and other expenses that we did not incur as a private company, including costs associated with public company reporting requirements. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect compliance with these public reporting requirements and associated rules and regulations to increase expenses, particularly after we are no longer an emerging growth company, although we are currently unable to estimate these costs with any degree of certainty. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, which could result in our incurring additional costs applicable to public companies that are not emerging growth companies.

We will be subject to the requirements of the Sarbanes-Oxley Act of 2002.

As long as we remain an emerging growth company, as that term is defined in the JOBS Act, we will be permitted to gradually comply with certain of the on-going reporting and disclosure obligations of public companies pursuant to the Sarbanes-Oxley Act. However, after we are no longer an emerging growth company under the JOBS Act, management will be required to have an independent auditor assess the effectiveness of our internal controls over financial reporting, pursuant to Section 404 of the Sarbanes-Oxley Act. Substantial work on our part is required to implement appropriate processes, document the system of internal control over key processes, assess their design, remediate any deficiencies identified and test their operation. This process is expected to be both costly and challenging. We cannot give any assurances that material weaknesses will not be identified in the future in connection with our compliance with the provisions of Section 404 of the Sarbanes-Oxley Act. The existence of any material weakness described above would preclude a conclusion by management and our independent auditors that we maintained effective internal control over financial reporting. Our management may be required to devote significant time and expense to remediate any material weaknesses that may be discovered and may not be able to remediate any material weakness in a timely manner. The existence of any material weakness in our internal control over financial reporting could also result in errors in our financial statements that could require us to restate our financial statements, cause us to fail to meet our reporting obligations and cause investors to lose confidence in our reported financial information, all of which could lead to a decline in the per share trading price of our common stock.

We may be required to make rent or other concessions or significant capital expenditures to improve our properties in order to retain and attract tenants, which may materially adversely affect us, including our financial condition, results of operations, cash flow, cash available for distributions and our ability to service our debt obligations.

Upon expiration of our leases to our tenants, to the extent that adverse economic conditions in the real estate market reduce the demand for office, retail and multifamily space, we may be required to make rent or other concessions, accommodate requests for renovations, build-to-suit remodeling and other improvements or provide additional services to our tenants, any of which would increase our costs. As a result, we may have to make significant capital or other expenditures in order to retain tenants whose leases expire and to attract new tenants in sufficient numbers. Additionally, we may need to raise capital to make such expenditures. If we are unable to do so or capital is otherwise unavailable, we may be unable to make the required expenditures. This could result in non-renewals by tenants upon expiration of their leases. If any of the foregoing were to occur, it could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Our use of units in our Operating Partnership as currency to acquire properties could result in stockholder dilution or limit our ability to sell such properties, which could have a material adverse effect on us.

We have, and in the future we may, acquire properties or portfolios of properties through tax deferred contribution transactions in exchange for OP Units. In particular, we issued OP Units in connection with our acquisition of certain properties during 2014 and intend to issue additional OP Units in connection with certain property acquisitions during 2015, as discussed in “Item 1 – Business – Acquisitions and Dispositions.” This acquisition structure may have the effect of, among other things, reducing the amount of tax depreciation we could deduct over the tax life of the acquired properties, and may require that we agree to protect the contributors’ ability to defer recognition of taxable gain through restrictions on our ability to dispose of the acquired properties or the allocation of partnership debt to the contributors to maintain their tax bases. These restrictions also could limit our ability to sell properties at a time, or on terms, that would be favorable absent such restrictions. In addition, future issuances of OP Units would reduce our ownership percentage in our Operating Partnership and affect the amount of distributions made to us by our Operating Partnership and, therefore, the amount of distributions we can make to our stockholders. To the extent that our stockholders do not directly own OP Units, our stockholders will not have any voting rights with respect to any such issuances or other partnership level activities of our Operating Partnership.

Significant competition in the leasing market could have a material adverse effect on us, including our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

We compete with numerous developers, owners and operators of real estate, many of which own properties similar to ours in the same submarkets in which our properties are located. If our competitors offer space at rental rates below current market rates, or below the rental rates we currently charge our tenants, we may lose existing or potential tenants and we may be pressured to reduce our rental rates below those we currently charge or to offer more substantial rent abatements, tenant improvements, early termination rights or below-market renewal options in order to retain tenants when our tenants’ leases expire. As a result, our financial condition, results of operations, cash flow, cash available for distributions and our ability to service our debt obligations could be materially and adversely affected.

Our success depends on key personnel whose continued service is not guaranteed, and the loss of one or more of our key personnel could adversely affect our ability to manage our business and to implement our growth strategies, or could create a negative perception of our company in the capital markets.

Our continued success and our ability to manage anticipated future growth depend, in large part, upon the efforts of key personnel, particularly Messrs. Hoffer (our Executive Chairman), Kirk (our Vice Chairman),

Haddad (our President and Chief Executive Officer), Nero (our President of Development), Apperson (our President of Construction), O'Hara (our Chief Financial Officer and Treasurer), and Smith (our Vice President of Operations and Corporate Secretary) and Ms. Hampton (our President of Asset Management), who have extensive market knowledge and relationships and exercise substantial influence over our operational, financing, development and construction activity. Among the reasons that these individuals are important to our success is that each has a national or regional industry reputation that attracts business and investment opportunities and assists us in negotiations with lenders, existing and potential tenants and industry personnel. If we lose their services, our relationships with such personnel could diminish.

Many of our other senior executives also have extensive experience and strong reputations in the real estate industry, which aid us in identifying opportunities, having opportunities brought to us and negotiating with tenants and build-to-suit prospects. The loss of services of one or more members of our senior management team, or our inability to attract and retain highly qualified personnel, could adversely affect our business, diminish our investment opportunities and weaken our relationships with lenders, business partners, existing and prospective tenants and industry participants, which could materially adversely affect our financial condition, results of operations, cash flow and the per share trading price of our common stock.

We may be subject to on-going or future litigation, including existing claims relating to the entities that owned the properties prior to our initial public offering and otherwise in the ordinary course of business, which could have a material adverse effect on our financial condition, results of operations, cash flow and the per share trading price of our common stock.

We may be subject to on-going litigation, including existing claims relating to the entities that owned the properties and operated the businesses prior to our initial public offering and otherwise in the ordinary course of business. Some of these claims may result in significant defense costs and potentially significant judgments against us, some of which are not, or cannot be, insured against. We generally intend to vigorously defend ourselves. However, we cannot be certain of the ultimate outcomes of currently asserted claims or of those that may arise in the future. In addition, we may become subject to litigation in connection with the formation transactions related to our initial public offering in the event that prior investors dispute the valuation of their respective interests, the adequacy of the consideration received by them in the formation transactions or the interpretation of the agreements implementing the formation transactions. Resolution of these types of matters against us may result in our having to pay significant fines, judgments, or settlements, which, if uninsured, or if the fines, judgments, and settlements exceed insured levels, could adversely impact our earnings and cash flows, thereby having an adverse effect on our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations. Certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could materially adversely affect our results of operations and cash flows, expose us to increased risks that would be uninsured and adversely impact our ability to attract officers and directors.

Potential losses from hurricanes in Virginia and North Carolina may not be covered by insurance.

All of the properties in our portfolio are located in Virginia and North Carolina, which are areas particularly susceptible to hurricanes. While we carry insurance on certain of our properties in Virginia, the amount of our insurance coverage may not be sufficient to fully cover losses from hurricanes and will be subject to limitations involving large deductibles or co-payments. In addition, we may reduce or discontinue insurance on some or all of our properties in the future if the cost of premiums for any such policies exceeds, in our judgment, the value of the coverage discounted for the risk of loss. As a result, in the event of a hurricane, we may be required to incur significant costs, and, to the extent that a loss exceeds policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged.

We may not be able to rebuild our existing properties to their existing specifications if we experience a substantial or comprehensive loss of such properties.

In the event that we experience a substantial or comprehensive loss of one of our properties, we may not be able to rebuild such property to its existing specifications. Further, reconstruction or improvement of such a property would likely require significant upgrades to meet zoning and building code requirements. Environmental and legal restrictions could also restrict the rebuilding of our properties.

Joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on co-venturers' financial condition and disputes between us and our co-venturers.

In the past, we have, and in the future, we expect to, co-invest with third parties through partnerships, joint ventures or other entities, acquiring noncontrolling interests in or sharing responsibility for developing properties and managing the affairs of a property, partnership, joint venture or other entity. In particular, in connection with the formation transactions related to our initial public offering, we provided certain of the prior investors with the right to co-develop certain projects with us in the future and the right to acquire a minority equity interest in certain properties that we may develop in the future, in each case under certain circumstances and subject to certain conditions set forth in the applicable agreement. Furthermore, we are 60% and 80% joint venture partners in our Lightfoot Marketplace and Johns Hopkins Village development projects, respectively. In the event that we co-develop a property together with a third party, we would be required to share a portion of the development fee. With respect to any such arrangement or any similar arrangement that we may enter into in the future, we may not be in a position to exercise sole decision-making authority regarding the development, property, partnership, joint venture or other entity. Investments in partnerships, joint ventures or other entities may, under certain circumstances, involve risks not present where a third party is not involved, including the possibility that partners or co-venturers might become bankrupt or fail to fund their share of required capital contributions. Partners or co-venturers may have economic or other business interests or goals which are inconsistent with our business interests or goals and may be in a position to take actions contrary to our policies or objectives, and they may have competing interests in our markets that could create conflicts of interest. Such investments may also have the potential risk of impasses on decisions, such as a sale or financing, because neither we nor the partner(s) or co-venturer(s) would have full control over the partnership or joint venture. In addition, a sale or transfer by us to a third party of our interests in the joint venture may be subject to consent rights or rights of first refusal, in favor of our joint venture partners, which would in each case restrict our ability to dispose of our interest in the joint venture. Where we are a limited partner or non-managing member in any partnership or limited liability company, if such entity takes or expects to take actions that could jeopardize our status as a REIT or require us to pay tax, we may be forced to dispose of our interest in such entity. Disputes between us and partners or co-venturers may result in litigation or arbitration that would increase our expenses and prevent our officers and directors from focusing their time and effort on our business. Consequently, actions by or disputes with partners or co-venturers might result in subjecting properties owned by the partnership or joint venture to additional risk. In addition, we may in certain circumstances be liable for the actions of our third-party partners or co-venturers. Our joint ventures may be subject to debt and, during periods of volatile credit markets, the refinancing of such debt may require equity capital calls.

Increased competition and increased affordability of residential homes could limit our ability to retain our residents, lease apartment units or increase or maintain rents at our multifamily apartment communities.

Our multifamily apartment communities compete with numerous housing alternatives in attracting residents, including other multifamily apartment communities and single-family rental units, as well as owner-occupied single- and multifamily units. Competitive housing in a particular area and an increase in the affordability of owner-occupied single- and multifamily units due to, among other things, declining housing prices, oversupply, mortgage interest rates and tax incentives and government programs to promote home ownership, could adversely affect our ability to retain residents, lease apartment units and increase or maintain rents at our multifamily properties.

Our growth depends on external sources of capital that are outside of our control and may not be available to us on commercially reasonable terms or at all, which could limit our ability to, among other things, meet our capital and operating needs or make the cash distributions to our stockholders necessary to maintain our qualification as a REIT.

In order to maintain our qualification as a REIT, we are required under the Code to, among other things, distribute annually at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain. In addition, we will be subject to income tax at regular corporate rates to the extent that we distribute less than 100% of our REIT taxable income, including any net capital gains. Because of these distribution requirements, we may not be able to fund future capital needs, including any necessary capital expenditures, from operating cash flow. Consequently, we intend to rely on third-party sources to fund our capital needs. We may not be able to obtain such financing on favorable terms or at all and any additional debt we incur will increase our leverage and likelihood of default. Our access to third-party sources of capital depends, in part, on:

- general market conditions;
- the market's perception of our growth potential;
- our current debt levels;
- our current and expected future earnings;
- our cash flow and cash distributions; and
- the market price per share of our common stock.

Recently, the capital markets have been subject to significant disruptions. If we cannot obtain capital from third-party sources, we may not be able to acquire or develop properties when strategic opportunities exist, meet the capital and operating needs of our existing properties, satisfy our debt service obligations or make the cash distributions to our stockholders necessary to maintain our qualification as a REIT.

Risks Related to Our Third-Party Construction Business

Adverse economic and regulatory conditions, particularly in the Mid-Atlantic region, could adversely affect our construction and development business, which could have a material adverse effect on our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Our third-party construction activities have been, and are expected to continue to be, primarily focused in the Mid-Atlantic region, although we have also undertaken construction projects in various states in the Southeast, Northeast and Midwest regions of the United States. As a result of our concentration of construction projects in the Mid-Atlantic region of the United States, we are particularly susceptible to adverse economic or other conditions in this market (such as periods of economic slowdown or recession, business layoffs or downsizing, industry slowdowns, relocations of businesses, labor disruptions and the costs of complying with governmental regulations or increased regulation), as well as to natural disasters that occur in this region. We cannot assure you that our target markets will support construction and development projects of the type in which we typically engage. While we have the ability to provide a wide range of development and construction services, any adverse economic or real estate developments in the Mid-Atlantic region could materially adversely affect our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

There can be no assurance that all of the projects for which our construction business is engaged as general contractor will be commenced or completed in their entirety in accordance with the anticipated cost, or that we will achieve the financial results we expect from the construction of such properties, which could materially adversely affect our cash flows, results of operations and growth prospects.

Our construction business earns profit for serving as general contractor equal to the difference between the total construction fees that we charge and the costs that we incur to build a property. If the decision is made by a third-party client to abandon a construction project for any reason, our anticipated fee revenue from such project could be significantly lower than we expect. In addition, we defer pre-contract costs when such costs are directly associated with specific anticipated construction contracts and their recovery is deemed probable. In the event that we determine that the execution of a construction contract is no longer probable, we would be required to expense those pre-contract costs in the period in which such determination is made, which could materially and adversely affect our results of operations in such period. Our ability to complete the projects in our construction pipeline on time and on budget could be materially adversely affected as a result of the following factors, among others:

- shortages of subcontractors, equipment, materials or skilled labor;
- unscheduled delays in the delivery of ordered materials and equipment;
- unanticipated increases in the cost of equipment, labor and raw materials;
- unforeseen engineering, environmental or geological problems;
- weather interferences;
- difficulties in obtaining necessary permits or in meeting permit conditions;
- client acceptance delays; or
- work stoppages and other labor disputes.

If we do not complete construction projects on time and on budget, it could have a material adverse effect on us, including our cash flows, results of operations and growth prospects.

Our dependence on third-party subcontractors and equipment and material providers could result in material shortages and project delays and could reduce our profits or result in project losses, which could materially adversely affect our financial condition, results of operations and cash flow.

Because our construction business provides general contracting services, we rely on third-party subcontractors and equipment and material providers. For example, we procure equipment and construction materials as needed when engaged in large construction projects. To the extent that we cannot engage subcontractors or acquire equipment and materials at reasonable costs or if the amount we are required to pay for subcontractors or equipment exceeds our estimates, our ability to complete a construction project in a timely fashion or at a profit may be impaired. In addition, if a subcontractor or a manufacturer is unable to deliver its services, equipment or materials according to the negotiated terms for any reason, including the deterioration of its financial condition, we may be required to purchase the services, equipment or materials from another source at a higher price. Additionally, while our construction contracts generally provide that our obligation to pay subcontractors is expressly made subject to the condition precedent that we shall have first received payment, we cannot assure you that these so called “pay-if-paid” or “pay-when-paid” provisions will be recognized in all jurisdictions in which we do business, or that a subcontractor or payment bond surety may not otherwise be entitled to payment or to record a lien on the affected property. In such event, we may be required to pay a payment bond surety or the subcontractors we engage even though we have yet to receive our fees as general contractor. This may reduce the profit to be realized or result in a loss on a project for which the services, equipment or materials are needed, which may materially adversely affect us, including our financial condition, results of operations and cash flow.

Our construction business recognizes certain revenue on a percentage-of-completion basis and upon the achievement of contractual milestones, and any delay or cancellation of a construction project could materially adversely affect our cash flows and results of operations.

Our construction business recognizes certain revenue on a percentage-of-completion basis and, as a result, revenue from our construction business is driven by the performance of our contractual obligations. The percentage-of-completion method of accounting is inherently subjective because it relies on estimates of total project cost as a basis for recognizing revenue and profit. Accordingly, revenue and profit recognized under the percentage-of-completion method is potentially subject to adjustments in subsequent periods based on refinements in the estimated cost to complete a project, which could result in a reduction or reversal of previously recorded revenues and profits. In addition, delays in, or the cancellation of, any particular construction project could adversely impact our ability to recognize revenue in a particular period. Furthermore, changes in job performance, job conditions and estimated profitability, including those arising from contract penalty provisions and final contract settlements, may result in revisions to costs and income in the period in which they are determined. If any of the foregoing were to occur, it could have a material adverse effect on our cash flows and results of operations.

Construction project sites are inherently dangerous workplaces, and, as a result, our failure to maintain safe construction project sites could result in deaths or injuries, reduced profitability, the loss of projects or clients and possible exposure to litigation, any of which could materially adversely affect our financial condition, results of operations, cash flow and reputation.

Construction and maintenance sites often put our employees, employees of subcontractors, our tenants and members of the public in close proximity with mechanized equipment, moving vehicles, chemical and manufacturing processes and highly regulated materials. On many sites, we are responsible for safety and, accordingly, must implement safety procedures. If we fail to implement these procedures or if the procedures we implement are ineffective, we may suffer the loss of or injury to our employees, fines or expose our tenants and members of the public to potential injury, thereby creating exposure to litigation. As a result, our failure to maintain adequate safety standards could result in reduced profitability or the loss of projects, clients and tenants, which may materially adversely affect our financial condition, results of operations, cash flow and our reputation.

Supply shortages and other risks associated with demand for skilled labor could increase construction costs and delay performance of our obligations under construction contracts, which could materially adversely affect the profitability of our construction business, our cash flow and results of operations.

There is a high level of competition in the construction industry for skilled labor. Increased costs, labor shortages or other disruptions in the supply of skilled labor, such as carpenters, roofers, electricians and plumbers, could cause increases in construction costs and construction delays. We may not be able to pass on increases in construction costs because of market conditions or negotiated contractual terms. Sustained increases in construction costs due to competition for skilled labor and delays in performance under construction contracts may materially adversely affect the profitability of our construction business, our financial condition, results of operations and cash flow.

Our failure to successfully and profitably bid on construction contracts could materially adversely affect our results of operations and cash flow.

Many of the costs related to our construction business, such as personnel costs, are fixed and are incurred by us irrespective of the level of activity of our construction business. The success of our construction business depends, in part, on our ability to successfully and profitably bid on construction contracts for private and public sector clients. Contract proposals and negotiations are complex and frequently involve a lengthy bidding and selection process, which can be impacted by a number of factors, many of which are outside our control, including market conditions, financing arrangements and required governmental approvals. If we are unable to maintain a consistent backlog of third-party construction contracts, our results of operations and cash flow could be materially adversely affected.

If we fail to timely complete a construction project, miss a required performance standard or otherwise fail to adequately perform on a construction project, we may incur losses or financial penalties, which could materially adversely affect our financial condition, results of operations, cash flow and reputation.

We may contractually commit to a construction client that we will complete a construction project by a scheduled date at a fixed cost. We may also commit that a construction project, when completed, will achieve specified performance standards. If the construction project is not completed by the scheduled date or fails to meet required performance standards, we may either incur significant additional costs or be held responsible for the costs incurred by the client to rectify damages due to late completion or failure to achieve the required performance standards. In addition, completion of projects can be adversely affected by a number of factors beyond our control, including unavoidable delays from governmental inaction, public opposition, inability to obtain financing, weather conditions, unavailability of vendor materials, availabilities of subcontractors, changes in the project scope of services requested by our clients, industrial accidents, environmental hazards, labor disruptions and other factors. In some cases, if we fail to meet required performance standards or milestone requirements, we may also be subject to agreed-upon financial damages in the form of liquidated damages, which are determined pursuant to the contract governing the construction project. To the extent that these events occur, the total costs of the project could exceed our estimates and our contracted cost and we could experience reduced profits or, in some cases, incur a loss on a project, which may materially adversely affect our financial condition, results of operations and cash flow. Failure to meet performance standards or complete performance on a timely basis could also adversely affect our reputation.

Unionization or work stoppages could have a material adverse effect on us.

From time to time, our construction business and the subcontractors we engage may use unionized construction workers, which requires us to pay the prevailing wage in a jurisdiction to such workers. Due to the highly labor-intensive and price-competitive nature of the construction business, the cost of unionization or prevailing wage requirements for new developments could be substantial, which could adversely affect our profitability. In addition, the use of unionized construction workers could cause us to become subject to organized work stoppages, which would materially adversely affect our ability to meet our construction timetables and could significantly increase the cost of completing a construction project.

Risks Related to Our Development Business and Property Acquisitions

Our failure to establish new development relationships with public partners and expand our development relationships with existing public partners could have a material adverse effect on us, including our cash flows, results of operations and growth prospects.

Our growth strategy depends significantly on our ability to leverage our extensive experience in completing large, complex, mixed-use public/private projects to establish new relationships with public partners and expand our relationships with existing public partners. Future increases in our revenues may depend significantly on our ability to expand the scope of the work we do with the state and local government agencies with which we currently have partnered and attract new state and local government agencies to undertake public/private development projects with us. Our ability to obtain new work with state and local governmental authorities on new public/private development and financing partnerships could be adversely affected by several factors, including decreases in state and local budgets, changes in administrations, the departure of government personnel with whom we have worked and negative public perceptions about public/private partnerships. In addition, to the extent that we engage in public/private partnerships in states or local communities in which we have not previously worked, we could be subject to risks associated with entry into new markets, such as lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures. If we fail to establish new relationships with public partners and expand our relationships with existing public partners, it could have a material adverse effect on our growth prospects.

We may be unable to identify and complete development opportunities and acquisitions of properties that meet our investment criteria, which may materially adversely affect our financial condition, results of operations, cash flow and growth prospects.

Our business and growth strategy involves the development and selective acquisition of office, retail and multifamily properties. We may expend significant management time and other resources, including out-of-pocket costs, in pursuing these investment opportunities. Our ability to complete development projects or acquire properties on favorable terms, or at all, may be exposed to the following significant risks:

- we may incur significant costs and divert management attention in connection with evaluating and negotiating potential development opportunities and acquisitions, including those that we are subsequently unable to complete;
- agreements for the development or acquisition of properties are subject to conditions, which we may be unable to satisfy; and
- we may be unable to obtain financing on favorable terms or at all.

If we are unable to identify attractive investment opportunities, our financial condition, results of operations, cash flow and growth prospects could be materially adversely affected.

The risks associated with land holdings and related activities could have a material adverse effect on us, including our results of operations.

We hold options to acquire undeveloped parcels of land for future development and may in the future acquire additional land holdings for development. The risks inherent in purchasing, owning, and developing land increase as demand for office, retail or multifamily properties, or rental rates, decreases. Real estate markets are highly uncertain and volatile and, as a result, the value of undeveloped land has fluctuated significantly and may continue to fluctuate. In addition, carrying costs, including interest and other pre-development costs, can be significant and can result in losses or reduced profitability. If there are subsequent changes in the fair value of our undeveloped land holdings that cause us to determine that the fair value of our undeveloped land holdings is less than their carrying basis reflected in our financial statements plus estimated costs to sell, we may be required to take future impairment charges which would reduce our net income and could materially and adversely affect our results of operations.

The success of our activities to design, construct and develop properties in which we will retain an ownership interest is dependent, in part, on the availability of suitable undeveloped land at acceptable prices as well as our having sufficient liquidity to fund investments in such undeveloped land and subsequent development.

Our success in designing, constructing and developing projects for our own account depends, in part, upon the continued availability of suitable undeveloped land at acceptable prices. The availability of undeveloped land for purchase at favorable prices depends on a number of factors outside of our control, including the risk of competitive over-bidding on land and governmental regulations that restrict the potential uses of land. If the availability of suitable land opportunities decreases, the number of development projects we may be able to undertake could be reduced. In addition, our ability to make land purchases will depend upon us having sufficient liquidity or access to external sources of capital to fund such purchases. Thus, the lack of availability of suitable land opportunities and insufficient liquidity to fund the purchases of any such available land opportunities could have a material adverse effect on our results of operations and growth prospects.

Our real estate development activities are subject to risks particular to development, such as unanticipated expenses, delays and other contingencies, any of which could materially adversely affect us, including our financial condition, results of operations and cash flow.

We engage in development and redevelopment activities and will be subject to the following risks associated with such activities:

- unsuccessful development or redevelopment opportunities could result in direct expenses to us and cause us to incur losses;
- construction or redevelopment costs of a project may exceed original estimates, possibly making the project less profitable than originally estimated, or unprofitable;
- occupancy rates and rents of a completed project may not be sufficient to make the project profitable; and
- the availability and pricing of financing to fund our development activities on favorable terms or at all.

These risks could result in substantial unanticipated delays or expenses and, under certain circumstances, could prevent completion of development or redevelopment activities once undertaken, any of which could have an adverse effect on our financial condition, results of operations and cash flow.

There can be no assurance that all of the properties in our development pipeline will be completed in their entirety in accordance with the anticipated cost, or that we will achieve the results we expect from the development of such properties, which could materially adversely affect our growth prospects, financial condition and results of operations.

The development of the projects in our development pipeline are subject to numerous risks, many of which are outside of our control. The cost necessary to complete the development of our development pipeline could be materially higher than we anticipate. Because we generally intend to commence the construction phase of an office or retail project for our own account only where a substantial percentage of the commercial space is pre-leased, we could decide not to undertake construction on one or more of the projects in our development pipeline if our pre-leasing efforts are unsuccessful. Furthermore, if we are delayed in the completion of any development project, tenants may have the right to terminate pre-development leases, which could materially adversely affect the financial viability of the project. In addition, even if we decide to commence construction on a project, we can provide no assurances that we will complete any of the projects in our development pipeline on the anticipated schedule, or that, once completed, the properties in our development pipeline will achieve the results that we expect. If the development of the projects in our development pipeline is not completed in accordance with our anticipated timing or at the anticipated cost, or the properties fail to achieve the financial results we expect, it could have a material adverse effect on our financial condition and results of operations.

Our option properties are subject to various risks, and we may not be able to acquire them.

We have options to acquire from certain of our officers and directors certain parcels of developable land. These parcels are exposed to many of the same risks that may affect the other properties in our portfolio. The terms of the option agreements relating to these parcels were not determined by arm's-length negotiations, and such terms may be less favorable to us than those that may have been obtained through negotiations with third parties. In addition, it may become economically unattractive to exercise our options with respect to these parcels, which could cause us to decide not to exercise our option to purchase these parcels in the future. In such event, or in the event that the option agreements expire by their terms, the parcels could be sold to one of our competitors without restriction. Because our officers and directors own economic interests in these parcels, our decision to exercise or refrain from exercising such options will create conflicts of interest.

Risks Related to the Real Estate Industry

Our business is subject to risks associated with real estate assets and the real estate industry, which could materially adversely affect our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Our ability to pay expected dividends to our stockholders depends on our ability to generate revenues in excess of expenses, scheduled principal payments on debt and capital expenditure requirements. Events and conditions generally applicable to owners and operators of real property that are beyond our control may decrease cash available for distribution and the value of our properties. These events include many of the risks set forth above under “—Risks Related to Our Business and Operations,” as well as the following:

- oversupply or reduction in demand for office, retail or multifamily space in our markets;
- adverse changes in financial conditions of buyers, sellers and tenants of properties;
- vacancies or our inability to rent space on favorable terms, including possible market pressures to offer tenants rent abatements, tenant improvements, early termination rights or below-market renewal options, and the need to periodically repair, renovate and re-lease space;
- increased operating costs, including insurance premiums, utilities, real estate taxes and state and local taxes;
- a favorable interest rate environment that may result in a significant number of potential residents of our multifamily apartment communities deciding to purchase homes instead of renting;
- rent control or stabilization laws, or other laws regulating rental housing, which could prevent us from raising rents to offset increases in operating costs;
- civil unrest, acts of war, terrorist attacks and natural disasters, including hurricanes, which may result in uninsured or underinsured losses;
- decreases in the underlying value of our real estate;
- changing submarket demographics; and
- changing traffic patterns.

In addition, periods of economic downturn or recession, rising interest rates or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in rents or an increased incidence of defaults under existing leases, which could materially adversely affect our financial condition, results of operations, cash flow, cash available for distribution and our ability to service our debt obligations.

Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of our properties and harm our financial condition.

The real estate investments made, and to be made, by us are difficult to sell quickly. As a result, our ability to promptly sell one or more properties in our portfolio in response to changing economic, financial and investment conditions is limited. Return of capital and realization of gains, if any, from an investment generally will occur upon disposition or refinancing of the underlying property. We may be unable to realize our investment objectives by disposition or refinancing at attractive prices within any given period of time or may otherwise be unable to complete any exit strategy. In particular, our ability to dispose of one or more properties within a specific time period is subject to certain limitations imposed by our tax protection agreements, as well as weakness in or even the lack of an established market for a property, changes in the financial condition or prospects of prospective purchasers, changes in national or international economic conditions and changes in laws, regulations or fiscal policies of jurisdictions in which the property is located.

In addition, the Code imposes restrictions on a REIT’s ability to dispose of properties that are not applicable to other types of real estate companies. In particular, the tax laws applicable to REITs effectively require that we

hold our properties for investment, rather than primarily for sale in the ordinary course of business, which may cause us to forego or defer sales of properties that otherwise would be in our best interests. Therefore, we may not be able to vary our portfolio in response to economic or other conditions promptly or on favorable terms.

Our property taxes could increase due to property tax rate changes or reassessment, which would adversely impact our cash flows.

Even if we qualify as a REIT for federal income tax purposes, we will be required to pay some state and local taxes on our properties. The real property taxes on our properties may increase as property tax rates change or as our properties are assessed or reassessed by taxing authorities. Therefore, the amount of property taxes we pay in the future may increase substantially from what we have paid in the past. If the property taxes we pay increase, our cash flow would be adversely impacted, and our ability to pay dividends to our stockholders could be adversely affected.

As an owner of real estate, we could incur significant costs and liabilities related to environmental matters.

Under various federal, state and local laws and regulations relating to the environment, as a current or former owner or operator of real property, we may be liable for costs and damages resulting from the presence or discharge of hazardous or toxic substances, waste or petroleum products at, on, in, under or migrating from such property, including costs to investigate, clean up such contamination and liability for harm to natural resources. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such contamination, and the liability may be joint and several. These liabilities could be substantial and the cost of any required remediation, removal, fines or other costs could exceed the value of the property and our aggregate assets. In addition, the presence of contamination or the failure to remediate contamination at our properties may expose us to third-party liability for costs of remediation and personal or property damage or materially adversely affect our ability to sell, lease or develop our properties or to borrow using the properties as collateral. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. Moreover, if contamination is discovered on our properties, environmental laws may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures. See “Part I—Business—Regulation.”

Some of our properties have been or may be impacted by contamination arising from current or prior uses of the property, or adjacent properties, for commercial or industrial purposes. Such contamination may arise from spills of petroleum or hazardous substances or releases from tanks used to store such materials. For example, some of the tenants of properties in our retail portfolio operate gas stations or other businesses that utilize storage tanks to store petroleum products, propane or wastes typically associated with automobile service or other operations conducted at the properties, and spills or leaks of hazardous materials from those storage tanks could expose us to liability. See “Part I—Business—Regulation—Environmental Matters.” In addition to the foregoing, while we obtained Phase I Environmental Site Assessments for each of the properties in our portfolio, the assessments are limited in scope and may have failed to identify all environmental conditions or concerns. For example, they do not generally include soil sampling, subsurface investigations or hazardous materials survey. Furthermore, we do not have current Phase I Environmental Site Assessment reports for all of the properties in our portfolio and, as such, may not be aware of all potential or existing environmental contamination liabilities at the properties in our portfolio. As a result, we could potentially incur material liability for these issues.

As the owner of the buildings on our properties, we could face liability for the presence of hazardous materials, such as asbestos or lead, or other adverse conditions, such as poor indoor air quality, in our buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if we do not comply with such laws, we could face fines for such noncompliance. Also, we could be liable to third parties, such as occupants of the buildings, for damages related to exposure to hazardous materials or adverse

conditions in our buildings, and we could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in our buildings. In addition, some of our tenants routinely may handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject us or our tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to us, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect our operations, or those of our tenants, which could in turn have an adverse effect on us. If we incur material environmental liabilities in the future, we may face significant remediation costs, and we may find it difficult to sell any affected properties.

Our properties may contain or develop harmful mold or suffer from other air quality issues, which could lead to liability for adverse health effects and costs of remediation.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants above certain levels can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants from the affected property or increase indoor ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to liability from our tenants, employees of our tenants or others if property damage or personal injury is alleged to have occurred.

We may incur significant costs complying with various federal, state and local laws, regulations and covenants that are applicable to our properties.

Properties are subject to various covenants and federal, state and local laws and regulatory requirements, including permitting and licensing requirements. Local regulations, including municipal or local ordinances, zoning restrictions and restrictive covenants imposed by community developers may restrict our use of our properties and may require us to obtain approval from local officials or restrict our use of our properties and may require us to obtain approval from local officials of community standards organizations at any time with respect to our properties, including prior to developing or acquiring a property or when undertaking renovations of any of our existing properties. Among other things, these restrictions may relate to fire and safety, seismic or hazardous material abatement requirements. There can be no assurance that existing laws and regulatory policies will not adversely affect us or the timing or cost of any future development, acquisitions or renovations, or that additional regulations will not be adopted that increase such delays or result in additional costs. Our growth strategy may be affected by our ability to obtain permits, licenses and zoning relief.

In addition, federal and state laws and regulations, including laws such as the ADA and the Fair Housing Amendment Act of 1988 ("FHAA"), impose further restrictions on our properties and operations. Under the ADA and the FHAA, all public accommodations must meet federal requirements related to access and use by disabled persons. Some of our properties may currently be in non-compliance with the ADA or the FHAA. If one or more of the properties in our portfolio is not in compliance with the ADA, the FHAA or any other regulatory requirements, we may incur additional costs to bring the property into compliance, incur governmental fines or the award of damages to private litigants or be unable to refinance such properties. In addition, we do not know whether existing requirements will change or whether future requirements will require us to make significant unanticipated expenditures that will adversely impact our financial condition, results of operations and cash flow.

Risks Related to Our Organizational Structure

Daniel Hoffler and his affiliates own, directly or indirectly, a substantial beneficial interest in our company on a fully diluted basis and has the ability to exercise significant influence on our company and our Operating Partnership, including the approval of significant corporate transactions.

As of December 31, 2014, Daniel Hoffler, our Executive Chairman, and his affiliates owned approximately 12% and, collectively, Messrs. Hoffler, Haddad and Kirk and their affiliates collectively owned approximately 21% of the combined outstanding shares of our common stock and OP Units of our Operating Partnership (which OP Units may be redeemable for shares of our common stock). Consequently, these individuals may be able to significantly influence the outcome of matters submitted for stockholder action, including the approval of significant corporate transactions, including business combinations, consolidations and mergers.

Conflicts of interest may exist or could arise in the future between the interests of our stockholders and the interests of holders of units in our Operating Partnership, which may impede business decisions that could benefit our stockholders.

Conflicts of interest may exist or could arise in the future as a result of the relationships between us and our affiliates, on the one hand, and our Operating Partnership or any partner thereof, on the other. Our directors and officers have duties to our company under Maryland law in connection with their management of our company. At the same time, we, as the general partner of our Operating Partnership, have fiduciary duties and obligations to our Operating Partnership and its limited partners under Virginia law and the partnership agreement of our Operating Partnership in connection with the management of our Operating Partnership. Our fiduciary duties and obligations as the general partner of our Operating Partnership may come into conflict with the duties of our directors and officers to our company. Messrs. Hoffler, Haddad and Kirk own a significant interest in our Operating Partnership as limited partners and may have conflicts of interest in making decisions that affect both our stockholders and the limited partners of our Operating Partnership.

Under Virginia law, a general partner of a Virginia limited partnership has fiduciary duties of loyalty and care to the partnership and its partners and must discharge its duties and exercise its rights as general partner under the partnership agreement or Virginia law consistently with the obligation of good faith and fair dealing. The partnership agreement provides that, in the event of a conflict between the interests of our Operating Partnership or any partner, on the one hand, and the separate interests of our company or our stockholders, on the other hand, we, in our capacity as the general partner of our Operating Partnership, are under no obligation not to give priority to the separate interests of our company or our stockholders, and that any action or failure to act on our part or on the part of our directors that gives priority to the separate interests of our company or our stockholders that does not result in a violation of the contract rights of the limited partners of the Operating Partnership under its partnership agreement does not violate the duty of loyalty that we, in our capacity as the general partner of our Operating Partnership, owe to the Operating Partnership and its partners.

Additionally, the partnership agreement provides that we will not be liable to the Operating Partnership or any partner for monetary damages for losses sustained, liabilities incurred or benefits not derived by the Operating Partnership or any limited partner, except for liability for our intentional harm or gross negligence. Our Operating Partnership must indemnify us, our directors and officers and our designees from and against any and all claims that relate to the operations of our Operating Partnership, unless: (i) an act or omission of the person was material to the matter giving rise to the action and either was committed in bad faith or was the result of active and deliberate dishonesty, (ii) the person actually received an improper personal benefit in violation or breach of the partnership agreement or (iii) in the case of a criminal proceeding, the indemnified person had reasonable cause to believe that the act or omission was unlawful. Our Operating Partnership must also pay or reimburse the reasonable expenses of any such person upon its receipt of a written affirmation of the person's good faith belief that the standard of conduct necessary for indemnification has been met and a written undertaking to repay any amounts paid or advanced if it is ultimately determined that the person did not meet the standard of conduct for indemnification. Our Operating Partnership will not indemnify or advance funds to any

person with respect to any action initiated by the person seeking indemnification without our approval (except for any proceeding brought to enforce such person's right to indemnification under the partnership agreement) or if the person is found to be liable to our Operating Partnership on any portion of any claim in the action.

We may be subject to unknown or contingent liabilities related to acquired properties and properties that we may acquire in the future, which could have a material adverse effect on us.

Properties that we have acquired, and properties that we may acquire in the future, may be subject to unknown or contingent liabilities for which we may have no recourse, or only limited recourse, against the sellers. In general, the representations and warranties provided under the transaction agreements related to the purchase of properties that we acquire may not survive the completion of the transactions. Furthermore, indemnification under such agreements may be limited and subject to various materiality thresholds, a significant deductible or an aggregate cap on losses. As a result, there is no guarantee that we will recover any amounts with respect to losses due to breaches by the sellers of their representations and warranties. In addition, the total amount of costs and expenses that may be incurred with respect to liabilities associated with these properties may exceed our expectations, and we may experience other unanticipated adverse effects, all of which may materially and adversely affect us.

Our charter contains certain provisions restricting the ownership and transfer of our stock that may delay, defer or prevent a change of control transaction that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interests.

Our charter contains certain ownership limits with respect to our stock. Our charter, among other restrictions, prohibits the beneficial or constructive ownership by any person of more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our stock, excluding any shares that are not treated as outstanding for federal income tax purposes. Our board of directors, in its sole and absolute discretion, may exempt a person, prospectively or retroactively, from this ownership limit if certain conditions are satisfied. This ownership limit as well as other restrictions on ownership and transfer of our stock in our charter may:

- discourage a tender offer or other transactions or a change in management or of control that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interests; and
- result in the transfer of shares acquired in excess of the restrictions to a trust for the benefit of a charitable beneficiary and, as a result, the forfeiture by the acquirer of certain of the benefits of owning the additional shares.

We could increase the number of authorized shares of stock, classify and reclassify unissued stock and issue stock without stockholder approval.

Our board of directors, without stockholder approval, has the power under our charter to amend our charter to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we are authorized to issue. In addition, under our charter, our board of directors, without stockholder approval, has the power to authorize us to issue authorized but unissued shares of our common stock or preferred stock and to classify or reclassify any unissued shares of our common stock or preferred stock into one or more classes or series of stock and set the preference, conversion or other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications or terms or conditions of redemption for such newly classified or reclassified shares. As a result, we may issue series or classes of common stock or preferred stock with preferences, dividends, powers and rights, voting or otherwise, that are senior to, or otherwise conflict with, the rights of holders of our common stock. Although our board of directors has no such intention at the present time, it could establish a class or series of preferred stock that could, depending on the terms of such series, delay, defer or prevent a transaction or a change of control that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interests.

Certain provisions of Maryland law could inhibit changes of control, which may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interests.

Certain provisions of the Maryland General Corporation Law (the “MGCL”), may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change of control under circumstances that otherwise could provide the holders of shares of our common stock with the opportunity to realize a premium over the then-prevailing market price of such shares, including:

- “business combination” provisions that, subject to limitations, prohibit certain business combinations between us and an “interested stockholder” (defined generally as any person who beneficially owns 10% or more of the voting power of our outstanding voting shares or an affiliate or associate of ours who was the beneficial owner, directly or indirectly, of 10% or more of the voting power of our then outstanding stock at any time within the two-year period immediately prior to the date in question) or an affiliate thereof for five years after the most recent date on which the stockholder becomes an interested stockholder, and thereafter imposes certain fair price and supermajority stockholder voting requirements on these combinations; and
- “control share” provisions that provide that holders of “control shares” of our company (defined as shares of stock that, when aggregated with other shares of stock controlled by the stockholder, entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) acquired in a “control share acquisition” (defined as the direct or indirect acquisition of ownership or control of issued and outstanding “control shares”) have no voting rights with respect to their control shares, except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding all interested shares.

By resolution of our board of directors, we have opted out of the business combination provisions of the MGCL and provided that any business combination between us and any other person is exempt from the business combination provisions of the MGCL, provided that the business combination is first approved by our board of directors (including a majority of directors who are not affiliates or associates of such persons). In addition, pursuant to a provision in our bylaws, we have opted out of the control share provisions of the MGCL. However, our board of directors may by resolution elect to opt in to the business combination provisions of the MGCL and we may, by amendment to our bylaws, opt in to the control share provisions of the MGCL in the future.

Certain provisions of the MGCL permit our board of directors, without stockholder approval and regardless of what is currently provided in our charter or bylaws, to implement certain corporate governance provisions, some of which (for example, a classified board) are not currently applicable to us. If implemented, these provisions may have the effect of limiting or precluding a third party from making an unsolicited acquisition proposal for us or of delaying, deferring or preventing a change in control of us under circumstances that otherwise could provide the holders of shares of our common stock with the opportunity to realize a premium over the then current market price. Our charter contains a provision whereby we elect, at such time as we become eligible to do so, to be subject to the provisions of Title 3, Subtitle 8 of the MGCL relating to the filling of vacancies on our board of directors.

Certain provisions in the partnership agreement of our Operating Partnership may delay or prevent unsolicited acquisitions of us.

Provisions in the partnership agreement of our Operating Partnership may delay, or make more difficult, unsolicited acquisitions of us or changes of our control. These provisions could discourage third parties from making proposals involving an unsolicited acquisition of us or change of our control, although some of our stockholders might consider such proposals, if made, desirable. These provisions include, among others:

- redemption rights;
- a requirement that we may not be removed as the general partner of our Operating Partnership without our consent;

- transfer restrictions on OP Units;
- our ability, as general partner, in some cases, to amend the partnership agreement and to cause the Operating Partnership to issue units with terms that could delay, defer or prevent a merger or other change of control of us or our Operating Partnership without the consent of the limited partners; and
- the right of the limited partners to consent to direct or indirect transfers of the general partnership interest, including as a result of a merger or a sale of all or substantially all of our assets, in the event that such transfer requires approval by our common stockholders.

The limited partners in our Operating Partnership owned approximately 37.1% of the outstanding OP Units of our Operating Partnership as of December 31, 2014.

Our tax protection agreements could limit our ability to sell or otherwise dispose of certain properties.

In connection with the formation transactions related to our initial public offering, our Operating Partnership entered into tax protection agreements that provide that if we dispose of any interest in the certain protected properties in a taxable transaction prior to the seventh (or, in a limited number of cases, the tenth) anniversary of the completion of the formation transactions, subject to certain exceptions, we will indemnify certain contributors, including Messrs. Hoffler, Haddad, Kirk, Nero and Apperson and their respective affiliates and certain of our other officers, for their tax liabilities attributable to the built-in gain that existed with respect to such property interests as of the time of our initial public offering, and the tax liabilities incurred as a result of such tax protection payment. In addition, in connection with certain acquisitions in 2014, we entered into tax protection agreements that require us to indemnify the contributors for their tax liabilities in the event that we dispose of the properties subject to the tax protection agreements, and may enter into similar agreements in connection with future property acquisitions. Therefore, although it may be in our stockholders' best interests that we sell one of these properties, it may be economically prohibitive for us to do so because of these obligations. Moreover, as a result of these potential tax liabilities, Messrs. Hoffler, Haddad, Kirk, Nero and Apperson and certain of our other officers may have a conflict of interest with respect to our determination as to certain of our properties.

Our tax protection agreements may require our Operating Partnership to maintain certain debt levels that otherwise would not be required to operate our business.

Under our tax protection agreements, our Operating Partnership has agreed to provide certain contributors of properties we have acquired, including Messrs. Hoffler, Haddad, Kirk, Nero and Apperson and their respective affiliates and certain of our other officers, the opportunity to guarantee debt or enter into deficit restoration obligations upon a future repayment, retirement, refinancing or other reduction (other than scheduled amortization) of currently outstanding debt. If we fail to make such opportunities available, we will be required to deliver to each such contributor a cash payment intended to approximate the contributor's tax liability resulting from our failure to make such opportunities available to that contributor and the tax liabilities incurred as a result of such tax protection payment. We agreed to these provisions in order to assist our contributors in deferring the recognition of taxable gain as a result of the contribution of certain properties to us. These obligations may require us to maintain more or different indebtedness than we would otherwise require for our business.

We may pursue less vigorous enforcement of terms of certain agreements with members of our senior management and our affiliates because of our dependence on them and conflicts of interest.

Each of Messrs. Hoffler, Haddad and Kirk, our Executive Chairman of the Board, President and Chief Executive Officer and Vice Chairman of the Board, respectively, were parties to or had interests in contribution agreements with us pursuant to which we acquired interests in our properties and assets. In addition, we have entered into option agreements with certain of our officers and directors, or entities they control, with

respect to certain parcels of developable land. We may choose not to enforce, or to enforce less vigorously, our rights under these agreements because of our desire to maintain our ongoing relationships with members of our board of directors and our management, with possible negative impact on stockholders.

Our board of directors may change our strategies, policies and procedures without stockholder approval and we may become more highly leveraged, which may increase our risk of default under our debt obligations.

Our investment, financing, leverage and distribution policies, and our policies with respect to all other activities, including growth, capitalization and operations, will be determined exclusively by our board of directors, and may be amended or revised at any time by our board of directors without notice to or a vote of our stockholders. This could result in us conducting operational matters, making investments or pursuing different business or growth strategies than those contemplated in this Annual Report on Form 10-K. Further, our charter and bylaws do not limit the amount or percentage of indebtedness, funded or otherwise, that we may incur. Our board of directors may alter or eliminate our current policy on borrowing at any time without stockholder approval. If this policy changed, we could become more highly leveraged which could result in an increase in our debt service. Higher leverage also increases the risk of default on our obligations. In addition, a change in our investment policies, including the manner in which we allocate our resources across our portfolio or the types of assets in which we seek to invest, may increase our exposure to interest rate risk, real estate market fluctuations and liquidity risk. Changes to our policies with regards to the foregoing could materially adversely affect our financial condition, results of operations and cash flow.

Our rights and the rights of our stockholders to take action against our directors and officers are limited.

Under Maryland law, generally, a director will not be liable if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- active and deliberate dishonesty by the director or officer that was established by a final judgment as being material to the cause of action adjudicated.

Our charter authorizes us to indemnify our directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each director and officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to advance the defense costs incurred by our directors and officers. We have entered into indemnification agreements with each of our executive officers and directors whereby we agreed to indemnify our directors and executive officers to the fullest extent permitted by Maryland law against all expenses and liabilities incurred in their capacity as an officer or director, subject to limited exceptions. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist absent the current provisions in our charter and bylaws or that might exist with other companies.

We are a holding company with no direct operations and, as such, we will rely on funds received from our Operating Partnership to pay liabilities, and the interests of our stockholders will be structurally subordinated to all liabilities and obligations of our Operating Partnership and its subsidiaries.

We are a holding company and conduct substantially all of our operations through our Operating Partnership. We do not have, apart from an interest in our Operating Partnership, any independent operations. As a result, we rely on cash distributions from our Operating Partnership to pay any dividends we might declare on shares of our common stock. We also rely on distributions from our Operating Partnership to meet any of our

obligations, including any tax liability on taxable income allocated to us from our Operating Partnership. In addition, because we are a holding company, your claims as a stockholder will be structurally subordinated to all existing and future liabilities and obligations (whether or not for borrowed money) of our Operating Partnership and its subsidiaries. Therefore, in the event of our bankruptcy, liquidation or reorganization, our assets and those of our Operating Partnership and its subsidiaries will be available to satisfy the claims of our stockholders only after all of our and our Operating Partnership's and its subsidiaries' liabilities and obligations have been paid in full.

Our Operating Partnership may issue additional OP Units to third parties without the consent of our stockholders, which would reduce our ownership percentage in our Operating Partnership and could have a dilutive effect on the amount of distributions made to us by our Operating Partnership and, therefore, the amount of distributions we can make to our stockholders.

As of December 31, 2014, we owned 62.9% of the outstanding OP Units in our Operating Partnership. We may, in connection with our acquisition of properties or otherwise, issue additional OP Units to third parties. For instance, we currently expect to issue OP Units in connection with the acquisition of certain properties that we have under contract. Such issuances would reduce our ownership percentage in our Operating Partnership and could affect the amount of distributions made to us by our Operating Partnership and, therefore, the amount of distributions we can make to our stockholders. Because stockholders do not directly own OP Units, you do not have any voting rights with respect to any such issuances or other partnership level activities of our Operating Partnership.

Risks Related to Our Status as a REIT

Failure to qualify as a REIT, or failure to remain qualified as a REIT, would cause us to be taxed as a regular corporation, which would substantially reduce funds available for distribution to our stockholders.

We have elected to be taxed and to operate in a manner that will allow us to qualify as a REIT for federal income tax purposes commencing with our taxable year ended December 31, 2013. We have not requested and do not plan to request a ruling from the Internal Revenue Service (the "IRS") that we qualify as a REIT. Therefore, we cannot be assured that we will qualify as a REIT, or that we will remain qualified as such in the future. If we fail to qualify as a REIT or otherwise lose our REIT status in any taxable year, we will face serious tax consequences that would substantially reduce the funds available for distribution to our stockholders for each of the years involved because:

- we would not be allowed a deduction for dividends paid to stockholders in computing our taxable income and would be subject to U.S. federal income tax at regular corporate rates;
- we could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and
- unless we are entitled to relief under certain U.S. federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT.

In addition, if we fail to qualify as a REIT, we will no longer be required to make distributions. As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and it would adversely affect the value of our common stock.

Even if we qualify as a REIT, we may face other tax liabilities that reduce our cash flows.

Even if we qualify for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. In addition, our TRS will be subject to regular corporate federal, state and local taxes. Any of these taxes would decrease cash available for distribution to our stockholders.

Failure to make required distributions would subject us to U.S. federal corporate income tax.

We intend to continue to operate in a manner so as to qualify as a REIT for U.S. federal income tax purposes. In order to qualify as a REIT, we generally are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year to our stockholders. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to U.S. federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under the Code.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities or liquidate otherwise attractive investments.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our capital stock. In order to meet these tests, we may be required to forego investments we might otherwise make. Thus, compliance with the REIT requirements may hinder our performance.

In particular, we must ensure that at the end of each calendar quarter, at least 75% of the value of our assets consists of cash, cash items, government securities and qualified real estate assets. The remainder of our investment in securities (other than government securities, securities of TRSs and qualified real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than government securities, securities of TRSs and qualified real estate assets) can consist of the securities of any one issuer, and no more than 25% of the value of our total assets can be represented by the securities of one or more TRSs. If we fail to comply with these requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. As a result, we may be required to liquidate otherwise attractive investments. These actions could have the effect of reducing our income and amounts available for distribution to our stockholders.

The prohibited transactions tax may limit our ability to dispose of our properties.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property other than foreclosure property, held primarily for sale to customers in the ordinary course of business. We may be subject to the prohibited transaction tax equal to 100% of the net gain upon a disposition of real property. Although a safe harbor to the characterization of the sale of real property by a REIT as a prohibited transaction is available, we cannot assure you that we can comply with the safe harbor or that we will avoid owning property that may be characterized as held primarily for sale to customers in the ordinary course of business. Consequently, we may choose not to engage in certain sales of our properties or may conduct such sales through our TRS, which would be subject to federal and state income taxation.

We may pay taxable dividends in shares of our common stock and cash, in which case stockholders may sell shares of our common stock to pay tax on such dividends, placing downward pressure on the market price of our common stock.

We may distribute taxable dividends that are payable in cash and common stock at the election of each stockholder. The IRS has issued private letter rulings to other REITs treating certain distributions that are paid partly in cash and partly in stock as taxable dividends that would satisfy the REIT annual distribution requirement and qualify for the dividends paid deduction for U.S. federal income tax purposes. Those rulings may be relied upon only by taxpayers to whom they were issued, but we could request a similar ruling from the

IRS. In addition, the IRS previously issued a revenue procedure authorizing publicly traded REITs to make elective cash/stock dividends, but that revenue procedure does not apply to our 2013 and future taxable years. Accordingly, it is unclear whether and to what extent we will be able to make taxable dividends payable in cash and common stock.

If we made a taxable dividend payable in cash and common stock, taxable stockholders receiving such dividends will be required to include the full amount of the dividend as ordinary income to the extent of our current and accumulated earnings and profits, as determined for U.S. federal income tax purposes. As a result, stockholders may be required to pay income tax with respect to such dividends in excess of the cash dividends received. If a U.S. stockholder sells the common stock that it receives as a dividend in order to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our common stock at the time of the sale. Furthermore, with respect to certain non-U.S. stockholders, we may be required to withhold U.S. federal income tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in common stock. If we made a taxable dividend payable in cash and our common stock and a significant number of our stockholders determine to sell shares of our common stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our common stock. We do not currently intend to pay taxable dividends of our common stock and cash, although we may choose to do so in the future.

The ability of our board of directors to revoke our REIT qualification without stockholder approval may cause adverse consequences to our stockholders.

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interests to continue to qualify as a REIT. If we cease to qualify as a REIT, we would become subject to U.S. federal income tax on our taxable income and would no longer be required to distribute most of our taxable income to our stockholders, which may have adverse consequences on our total return to our stockholders.

Our ownership of our TRS will be subject to limitations and our transactions with our TRS will cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on arm's-length terms.

Overall, no more than 25% of the value of a REIT's assets may consist of stock or securities of one or more TRS. In addition, the Code limits the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The Code also imposes a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis. Furthermore, we will monitor the value of our respective investments in our TRS for the purpose of ensuring compliance with TRS ownership limitations and will structure our transactions with our TRS on terms that we believe are arm's length to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the 25% REIT subsidiaries limitation or to avoid application of the 100% excise tax.

You may be restricted from acquiring or transferring certain amounts of our common stock.

The restrictions on ownership and transfer in our charter may inhibit market activity in our capital stock and restrict our business combination opportunities.

In order to qualify as a REIT for each taxable year after 2013, five or fewer individuals, as defined in the Code, may not own, beneficially or constructively, more than 50% in value of our issued and outstanding stock at any time during the last half of a taxable year. Attribution rules in the Code determine if any individual or entity beneficially or constructively owns our capital stock under this requirement. Additionally, at least 100 persons must beneficially own our capital stock during at least 335 days of a taxable year for each taxable year after 2013. To help insure that we meet these tests, our charter restricts the acquisition and ownership of shares of our capital stock.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary to preserve our qualification as a REIT. Unless exempted by our board of directors, our charter prohibits any person from beneficially or constructively owning more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. Our board of directors may not grant an exemption from this restriction to any proposed transferee whose ownership in excess of 9.8% of the value of our outstanding shares would result in our failing to qualify as a REIT. This as well as other restrictions on transferability and ownership will not apply, however, if our board of directors determines that it is no longer in our best interests to continue to qualify as a REIT.

Dividends payable by REITs do not qualify for the reduced tax rates available for some dividends.

The maximum tax rate applicable to “qualified dividend income” payable to U.S. stockholders that are taxed at individual rates is 20%. Dividends payable by REITs, however, generally are not eligible for the reduced rates on qualified dividend income. The more favorable rates applicable to regular corporate qualified dividends could cause investors who taxed at individual rates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of REITs, including our common stock.

We may be subject to adverse legislative or regulatory tax changes that could reduce the market price of our common stock.

At any time, the U.S. federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. We cannot predict when or if any new U.S. federal income tax law, regulation or administrative interpretation, or any amendment to any existing U.S. federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective and any such law, regulation, or interpretation may take effect retroactively. We and our stockholders could be adversely affected by any such change in the U.S. federal income tax laws, regulations or administrative interpretations.

If our Operating Partnership failed to qualify as a partnership for federal income tax purposes, we would cease to qualify as a REIT and suffer other adverse consequences.

We believe that our Operating Partnership will be treated as a partnership for federal income tax purposes. As a partnership, our Operating Partnership will not be subject to federal income tax on its income. Instead, each of its partners, including us, will be allocated, and may be required to pay tax with respect to, its share of our Operating Partnership’s income. We cannot assure you, however, that the IRS will not challenge the status of our Operating Partnership or any other subsidiary partnership in which we own an interest as a partnership for federal income tax purposes, or that a court would not sustain such a challenge. If the IRS were successful in treating our Operating Partnership or any such other subsidiary partnership as an entity taxable as a corporation for federal income tax purposes, we would fail to meet the gross income tests and certain of the asset tests applicable to REITs and, accordingly, we would likely cease to qualify as a REIT. Also, the failure of our Operating Partnership or any subsidiary partnerships to qualify as a partnership could cause it to become subject to federal and state corporate income tax, which would reduce significantly the amount of cash available for debt service and for distribution to its partners, including us.

To maintain our REIT status, we may be forced to borrow funds during unfavorable market conditions, and the unavailability of such capital on favorable terms at the desired times, or at all, may cause us to curtail our investment activities or dispose of assets at inopportune times or on unfavorable terms, which could materially adversely affect our financial condition, results of operations and cash flow.

To qualify as a REIT, we generally must distribute to our stockholders at least 90% of our REIT taxable income each year, excluding net capital gains, and we will be subject to regular corporate income taxes to the extent that we distribute less than 100% of our REIT taxable income each year. In addition, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions paid by us in any calendar year are

less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years. In order to maintain our REIT status and avoid the payment of income and excise taxes, we may need to borrow funds to meet the REIT distribution requirements even if the then prevailing market conditions are not favorable for these borrowings. These borrowing needs could result from, among other things, differences in timing between the actual receipt of cash and inclusion of income for federal income tax purposes, or the effect of non-deductible capital expenditures, the creation of reserves or required principal or amortization payments. These sources, however, may not be available on favorable terms or at all. Our access to third-party sources of capital depends on a number of factors, including the market's perception of our growth potential, our current debt levels, the market price of our common stock, and our current and potential future earnings. We cannot assure you that we will have access to such capital on favorable terms at the desired times, or at all, which may cause us to curtail our investment activities or dispose of assets at inopportune times or on unfavorable terms, which could materially adversely affect our financial condition, results of operations and cash flows.

Risks Related to Our Common Stock

We may be unable to make distributions at expected levels, which could result in a decrease in the market price of our common stock.

We intend to continue to pay regular quarterly distributions to our stockholders. All distributions will be made at the discretion of our board of directors and will be based upon, among other factors, our historical and projected results of operations, financial condition, cash flows and liquidity, maintenance of our REIT qualification and other tax considerations, capital expenditure and other expense obligations, debt covenants, contractual prohibitions or other limitations and applicable law and such other matters as our board of directors may deem relevant from time to time. If sufficient cash is not available for distribution from our operations, we may have to fund distributions from working capital, borrow to provide funds for such distributions, or reduce the amount of such distributions. To the extent we borrow to fund distributions, our future interest costs would increase, thereby reducing our earnings and cash available for distribution from what they otherwise would have been. If cash available for distribution generated by our assets is less than our current estimate, or if such cash available for distribution decreases in future periods from expected levels, our inability to make the expected distributions could result in a decrease in the market price of our common stock.

Our ability to make distributions may also be limited by our new credit facility. Under the terms of the credit facility, our ability to make distributions during any twelve-month period is limited to the greater of (1) 95% of our adjusted funds from operations (as defined in the credit agreement) or (2) the amount required for us to (a) maintain our REIT status and (b) avoid the payment of federal or state income or excise tax. In addition, if a default or events of default exist or would result from a distribution, we are precluded from making certain distributions other than those required to allow us to maintain our status as a REIT.

As a result of the foregoing, we may not be able to make distributions in the future, and our inability to make distributions, or to make distributions at expected levels, could result in a decrease in the market price of our common stock.

The market price and trading volume of our common stock may be volatile and could decline substantially in the future.

The market price of our common stock may be volatile in the future. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. We cannot assure stockholders that the market price of our common stock will not fluctuate or decline significantly in the future, including as a result of factors unrelated to our operating performance or prospects. In particular, the market price of our common stock could be subject to wide fluctuations in response to a number of factors, including, among others, the following:

- actual or anticipated variations in our quarterly operating results or dividends;
- changes in our FFO or earnings estimates;

- publication of research reports about us or the real estate industry;
- increases in market interest rates that lead purchasers of our shares to demand a higher yield;
- changes in market valuations of similar companies;
- adverse market reaction to any additional debt we incur in the future;
- additions or departures of key management personnel;
- actions by institutional stockholders;
- speculation in the press or investment community;
- the realization of any of the other risk factors presented in this Annual Report on Form 10-K;
- the extent of investor interest in our securities;
- the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
- our underlying asset value;
- investor confidence in the stock and bond markets generally;
- changes in tax laws;
- future equity issuances;
- failure to meet earnings estimates;
- failure to meet and maintain REIT qualifications;
- changes in our credit ratings; and
- general market and economic conditions.

In the past, securities class action litigation has often been instituted against companies following periods of volatility in the price of their common stock. This type of litigation could result in substantial costs and divert our management's attention and resources, which could have a material adverse effect on us, including our financial condition, results of operations, cash flow and the per share trading price of our common stock.

Increases in market interest rates may have an adverse effect on the trading prices of our common stock as prospective purchasers of our common stock may expect a higher dividend yield and as an increased cost of borrowing may decrease our funds available for distribution.

One of the factors that will influence the trading prices of our common stock will be the dividend yield on the common stock (as a percentage of the price of our common stock) relative to market interest rates. An increase in market interest rates, which are currently at low levels relative to historical rates, may lead prospective purchasers of our common stock to expect a higher dividend yield (with a resulting decline in the trading prices of our common stock) and higher interest rates would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our common stock to decrease.

The number of shares of our common stock available for future issuance or sale could materially adversely affect the per share trading price of our common stock.

As of March 13, 2015, there were 25,081,267 shares of our common stock outstanding. In addition, as of March 13, 2015, there were 14,775,967 OP Units in our Operating Partnership outstanding, of which 13,755,015 OP Units are currently redeemable at the option of the holders and 990,952 OP Units will become redeemable by the holders in August 2015, in each case, for cash, or at our option, for shares of our common stock, on a one-for-

one basis. We have agreed to register the shares issuable upon redemption of the OP Units so that such shares will be freely tradable under the securities laws. In addition, any OP Units we issue in the future in connection with property acquisitions will be redeemable at the option of the holders for cash or shares of our common stock on a one-for-one basis beginning one year after the date of issuance of such OP Units.

We cannot predict whether future issuances or sales of shares of our common stock or the availability of shares for resale in the open market will decrease the per share trading price per share of our common stock. The per share trading price of our common stock may decline significantly when we register the shares of our common stock issuable upon redemption of outstanding OP Units.

The issuance of substantial numbers of shares of equity securities, including OP Units, or the perception that such issuances might occur could materially adversely affect us, including the per share trading price of shares of our common stock.

The redemption of OP Units for common stock, the vesting of any restricted stock granted to certain directors, executive officers and other employees under our 2013 Equity Incentive Plan, the issuance of our common stock or OP Units in connection with future property, portfolio or business acquisitions and other issuances of our common stock could have an adverse effect on the per share trading price of our common stock, and the existence of units, options or shares of our common stock issuable under our 2013 Equity Incentive Plan or upon redemption of OP Units may adversely affect the terms upon which we may be able to obtain additional capital through the sale of equity securities. In addition, future issuances of shares of our common stock or OP Units may be dilutive to existing stockholders.

Future offerings of debt, which would be senior to our common stock upon liquidation, and preferred equity securities, which may be senior to our common stock for purposes of dividend distributions or upon liquidation, may materially adversely affect us, including the per share trading price of our common stock.

In the future, we may attempt to increase our capital resources by making additional offerings of debt or equity securities (or causing our Operating Partnership to issue debt securities), including medium-term notes, senior or subordinated notes and classes or series of preferred stock. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings will be entitled to receive our available assets prior to distribution to the holders of our common stock. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our common stock and may result in dilution to owners of our common stock. Holders of our common stock are not entitled to preemptive rights or other protections against dilution. Our preferred stock, if issued, could have a preference on liquidating distributions or a preference on dividend payments that could limit our ability pay dividends to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk that our future offerings could reduce the per share trading price of our common stock and dilute their interest in us.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

The information set forth under the captions “Our Properties” and “Development Pipeline” in Item 1 of this Annual Report on Form 10-K is incorporated by reference herein.

Item 3. Legal Proceedings.

The nature of our business exposes our properties, us and the Operating Partnership to the risk of claims and litigation in the normal course of business. Other than routine litigation arising out of the ordinary course of business, we are not presently subject to any material litigation nor, to our knowledge, is any material litigation threatened against us.

Item 4. Mine Safety Disclosures.

Not Applicable.

PART II

Item 5. Market For Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

Our common stock trades on the NYSE under the symbol “AHH.” Below is a summary of the high and low prices of our common stock for each quarterly period since May 8, 2013, the date our common stock began trading on the NYSE, and the cash distributions per share declared by us with respect to each period.

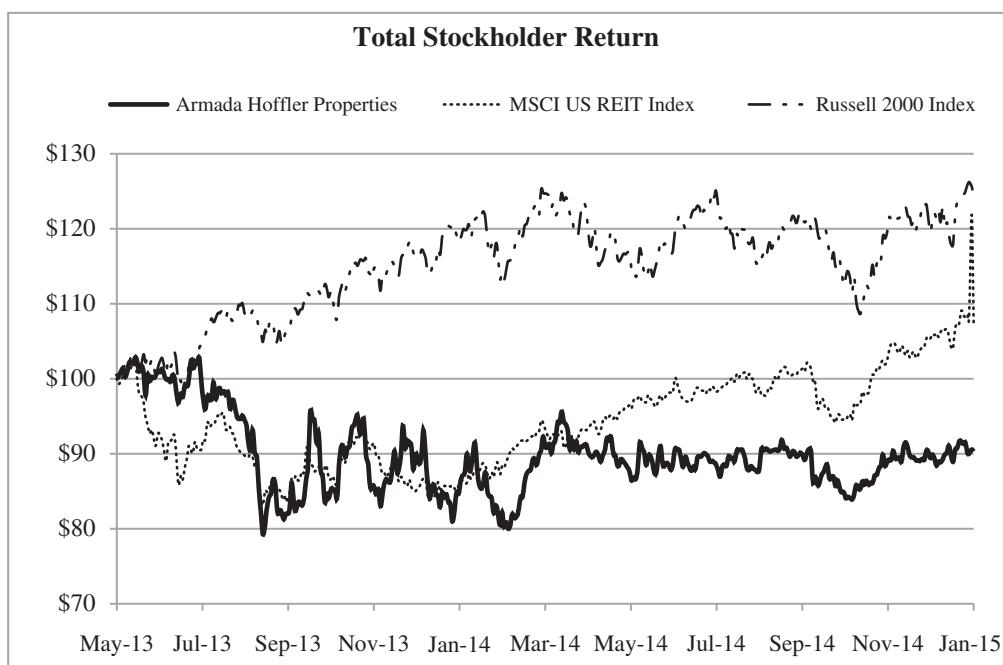

<u>2014</u>	<u>High</u>	<u>Low</u>	<u>Distributions Declared</u>
January 1, 2014—March 31, 2014	\$10.65	\$ 8.78	\$0.16
April 1, 2014—June 30, 2014	10.17	9.32	0.16
July 1, 2014—September 30, 2014	9.93	8.99	0.16
October 1, 2014—December 31, 2014	9.76	8.86	0.16
<u>2013</u>	<u>High</u>	<u>Low</u>	<u>Distributions Declared</u>
May 8, 2013—June 30, 2013 ⁽¹⁾	\$11.85	\$10.70	\$0.08
July 1, 2013—September 30, 2013	11.84	8.89	0.16
October 1, 2013—December 31, 2013	10.70	9.01	0.16

(1) We completed an initial public offering of shares of our common stock on May 13, 2013.

On December 31, 2014 and March 13, 2015, the closing price of our common stock as reported on the NYSE was \$9.49 and \$10.48, respectively.

Stock Performance Graph

The following graph sets forth the cumulative total stockholder return (assuming reinvestment of dividends) to our stockholders during the period May 8, 2013, the date our common stock began trading on the NYSE, through December 31, 2014, as well as the corresponding returns on an overall stock market index (Russell 2000 Index) and a peer group index (MSCI US REIT Index). The stock performance graph assumes that \$100 was invested on May 8, 2013. Historical total stockholder return is not necessarily indicative of future results. The information in this paragraph and the following graph shall not be deemed to be “soliciting material” or to be “filed” with the SEC or subject to Regulation 14A or 14C, other than as provided in Item 201 of Regulation S-K, or to the liabilities of Section 18 of the Exchange Act, except to the extent we specifically request that such information be treated as soliciting material or specifically incorporate it by reference into a filing under the Securities Act or the Exchange Act.

Distribution Information

Since our initial quarter as a publicly-traded REIT, we have made regular quarterly distributions to our stockholders. We intend to continue to declare quarterly distributions. However, we cannot provide any assurance as to the amount or timing of future distributions. For a description of restrictions on our ability to make distributions, see “Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—New Credit Facility,” and Note 7, “Indebtedness” to our accompanying consolidated and combined financial statements.

Any future distributions will be at the sole discretion of our board of directors, and their form, timing and amount, if any, will depend upon a number of factors, including our actual and projected financial condition, liquidity, EBITDA, FFO and results of operations, the revenue we actually receive from our properties, our operating expenses, our debt service requirements, our capital expenditures, prohibitions and other limitations under our financing arrangements, as described above, our REIT taxable income, the annual REIT distribution requirements, applicable law and such other factors as our board of directors deems relevant. To the extent that our cash available for distribution is less than 90% of our REIT taxable income, we may consider various means to cover any such shortfall, including borrowing under our new credit facility or other loans, selling certain of our assets or using a portion of the net proceeds we receive from offerings of equity, equity-related or debt securities or declaring taxable share dividends.

To the extent that we make distributions in excess of our earnings and profits, as computed for federal income tax purposes, these distributions will represent a return of capital, rather than a dividend, for federal income tax purposes. Distributions that are treated as a return of capital for federal income tax purposes will reduce the stockholder's basis in its shares (but not below zero) and therefore can result in the stockholder having a higher gain upon a subsequent sale of such shares. Return of capital distributions in excess of a stockholder's basis generally will be treated as gain from the sale of such shares for federal income tax purposes.

Stockholder Information

As of March 13, 2015, there were approximately 90 holders of record of our common stock. However, because many shares of our common stock are held by brokers and other institutions on behalf of stockholders, we believe there are substantially more beneficial holders of our common stock than record holders. As of March 13, 2015, there were 59 holders (other than our company) of our OP units. Our OP units are redeemable for cash or, at our election, for shares of our common stock.

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

During the three months ended December 31, 2014, certain of our employees surrendered shares of common stock owned by them to satisfy their minimum statutory federal and state tax obligations associated with the vesting of restricted shares of common stock issued under our 2013 Equity Incentive Plan. The following table summarizes all of these repurchases during the three months ended December 31, 2014.

Period	Total Number of Shares Purchased	Average Price Paid for Shares	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs
October 1, 2014 through October 31, 2014	—	\$ —	N/A	N/A
November 1, 2014 through November 30, 2014	63	9.38	N/A	N/A
December 1, 2014 through December 31, 2014	<u>—</u>	—	N/A	N/A
Total	<u><u>63</u></u>			

Item 6. Selected Financial Data.

The following selected historical consolidated and combined financial information should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the historical consolidated and combined financial statements as of December 31, 2014 and 2013 and for the three years ended December 31, 2014 and the related notes included elsewhere in this Annual Report on Form 10-K.

We completed our initial public offering on May 13, 2013. Due to the timing of the initial public offering, we present herein certain consolidated and combined historical financial data for us and our predecessor. Our predecessor was not a legal entity, but rather a combination of certain real estate and construction entities. The historical combined financial data for our predecessor is not necessarily indicative of our results of operations, cash flows or financial position following the completion of the initial public offering.

The selected historical consolidated and combined financial information as of and for the years ended December 31, 2014, 2013, 2012, 2011 and 2010 has been derived from our audited historical financial statements. Due to the timing of the initial public offering, the results of operations for the years ended December 31, 2012, 2011 and 2010 reflect only the financial condition and results of operations of our predecessor. The results of operations for the year ended December 31, 2013 reflect the financial condition and results of operations of our predecessor together with our company.

Cash provided by (used for) financing activities	80,945	35,254	(21,673)	(12,171)	5,566

- (1) We calculate funds from operations (“FFO”) in accordance with the standards established by the National Association of Real Estate Investment Trusts, or NAREIT. FFO represents net income (loss) (computed in accordance with U.S. generally accepted accounting principles, or GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. FFO is a supplemental non-GAAP financial measure. Management uses FFO as a supplemental performance measure because it believes that FFO is beneficial to investors as a starting point in measuring our operational performance. Specifically, in excluding real estate related depreciation and amortization and gains and losses from property dispositions, which do not relate to or are not indicative of operating performance, FFO provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of the performance of REITs, FFO will be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes real estate related depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. In addition, other equity REITs may not calculate FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs’ FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or service indebtedness. FFO also should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP. The following table sets forth a reconciliation of our FFO to net income, the most directly comparable GAAP equivalent, for the periods presented:

	Years Ended December 31,

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References to “we,” “our,” “us,” and “our company” refer to Armada Hoffler Properties, Inc., a Maryland corporation, together with our consolidated subsidiaries, including Armada Hoffler, L.P., a Virginia limited partnership, of which we are the sole general partner and to which we refer in this Annual Report on Form 10-K as our Operating Partnership.

Business Description

We are a full service real estate company with extensive experience developing, building, owning and managing high-quality, institutional-grade office, retail and multifamily properties in attractive markets throughout the Mid-Atlantic United States.

We are a Maryland corporation formed on October 12, 2012 to acquire the entities in which Daniel A. Hoffler and his affiliates, certain of our other officers, directors and their affiliates and other third parties owned a direct or indirect interest (our “Predecessor”) through a series of related formation transactions (the “Formation Transactions”). We did not have any operating activity until the consummation of our initial public offering of our shares of common stock (the “IPO”) and the Formation Transactions on May 13, 2013. Upon completing our IPO and the Formation Transactions, we carry on our operations through Armada Hoffler, L.P. (our “Operating Partnership”), whose assets, liabilities and results of operations we consolidate.

Our “Predecessor” was not a single legal entity, but rather a combination of real estate and construction entities that were under common control by our Executive Chairman, Daniel A. Hoffler. These entities included: (i) controlling interests in entities that owned seven office properties, 14 retail properties and one multifamily property, (ii) noncontrolling interests in entities that owned one retail and one multifamily property (Bermuda Crossroads and Smith’s Landing, respectively), (iii) the property development and asset management businesses of Armada Hoffler Holding Company, Inc. and (iv) the general commercial construction businesses of Armada Hoffler Construction Company and Armada Hoffler Construction Company of Virginia.

Because of the timing of the IPO and the Formation Transactions, the results of operations for the year ended December 31, 2012 are solely those of our Predecessor. The results of operations for the year ended December 31, 2013 reflect our results together with those of our Predecessor. The financial condition as of December 31, 2014 and 2013 as well as the results of operations for the year ended December 31, 2014 are solely ours.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated and combined financial statements that have been prepared in accordance with GAAP. The preparation of these financial statements requires us to exercise our best judgment in making estimates that affect the reported amounts of assets, liabilities, revenues and expenses. We base our estimates on historical experience and other assumptions that we believe to be reasonable under the circumstances. We evaluate our estimates on an ongoing basis, based upon current available information. Actual results could differ from these estimates.

We believe the following accounting policies and estimates are the most critical to understanding our reported financial results as their effect on our financial condition and results of operations is material.

Revenue Recognition

Rental Revenues

We lease our properties under operating leases and recognize base rents on a straight-line basis over the lease term. We also recognize revenue from tenant recoveries, through which tenants reimburse us for expenses paid by us such as utilities, janitorial, repairs and maintenance, security and alarm, parking lot and grounds,

general and administrative, management fees, insurance and real estate taxes, on an accrual basis. Our rental revenues are reduced by the amount of any leasing incentives on a straight-line basis over the term of the applicable lease. We include a renewal period in the lease term only if it appears at lease inception that the renewal is reasonably assured. We begin recognizing rental revenue when the tenant has the right to take possession of or controls the physical use of the property under lease. We maintain control of the physical use of the property under lease if we serve as the general contractor for the tenant. Rental revenue is recognized subject to management's evaluation of tenant credit risk. The extended collection period for accrued straight-line rental revenue along with our evaluation of tenant credit risk may result in the non-recognition of all or a portion of straight-line rental revenue until the collection of such revenue is reasonably assured.

General Contracting and Real Estate Services Revenues

We recognize revenue on construction contracts using the percentage-of-completion method. Using this method, we recognize revenue and an estimated profit as construction contract costs are incurred based on the proportion of incurred costs to total estimated costs under the contract. Provisions for estimated losses on uncompleted contracts are recognized immediately in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions and final contract settlements, may result in revisions to costs and income and are recognized in the period in which they are determined. We include profit incentives in revenues when their realization is probable and the amount can be reasonably estimated. General contracting and real estate services revenue is recognized subject to management's evaluation of customer credit risk.

Real Estate Project Costs

We capitalize direct and certain indirect costs clearly associated with the development, redevelopment, construction, leasing or expansion of our real estate assets. Capitalized project costs include direct material, labor, subcontract costs, real estate taxes, insurance, utilities, ground rent, interest on borrowing obligations and salaries and related personnel costs.

We capitalize direct and indirect project costs associated with the initial construction or redevelopment of a property up to the time the property is substantially complete and ready for its intended use. We believe the completion of the building shell is the proper basis for determining substantial completion of initial construction.

We also capitalize direct and indirect costs, including interest costs, on vacant space during extended lease-up periods after construction of the building shell has been completed if costs are being incurred to prepare the vacant space for its intended use. If costs and activities incurred to prepare the vacant space for its intended use cease, then cost capitalization is also discontinued until such activities are resumed. Once necessary work has been completed on a vacant space, project costs are no longer capitalized. In addition, all leasing commissions paid to third parties for new leases or lease renewals are capitalized.

We depreciate buildings on a straight-line basis over 39 years and tenant improvements over the shorter of their estimated useful lives or the term of the related lease.

Real Estate Impairment

We evaluate our real estate assets for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If such an evaluation is necessary, we compare the carrying amount of any such real estate asset with the undiscounted expected future cash flows that are directly associated with, and that are expected to arise as a direct result of, its use and eventual disposition. Our estimate of the expected future cash flows attributable to a real estate asset is based upon, among other things, our estimates regarding future market conditions, rental rates, occupancy levels, tenant improvements, leasing commissions, tenant concessions and assumptions regarding the residual value of our properties. If the carrying amount of a

real estate asset exceeds its associated undiscounted expected future cash flows, we recognize an impairment loss to reduce the carrying amount of the real estate asset to its fair value based on marketplace participant assumptions.

Adoption of New or Revised Accounting Standards

As an emerging growth company under the Jumpstart Our Business Startups Act, we can elect to adopt new or revised accounting standards as they are effective for private companies. However, we have elected to opt out of such extended transition period. Therefore, we will adopt new or revised accounting standards as they are effective for public companies. This election is irrevocable.

Segment Results of Operations

As of December 31, 2014, we operated our business in four segments: (i) office real estate, (ii) retail real estate, (iii) multifamily residential real estate and (iv) general contracting and real estate services that are conducted through our taxable REIT subsidiaries (“TRS”). Net operating income (segment revenues minus segment expenses) or “NOI” is the measure used by management to assess segment performance and allocate our resources among our segments. NOI is not a measure of operating income or cash flows from operating activities as measured by GAAP and is not indicative of cash available to fund cash needs. As a result, NOI should not be considered an alternative to cash flows as a measure of liquidity. Not all companies calculate NOI in the same manner. We consider NOI to be an appropriate supplemental measure to net income because it assists both investors and management in understanding the core operations of our real estate and construction businesses. See Note 3 to our consolidated and combined financial statements in Item 8 of this Annual Report on Form 10-K for a reconciliation of NOI to net income.

We define same store properties as those that we owned and operated and that were stabilized for the entirety of both periods compared. Same store properties exclude those that were in lease-up during the periods compared. We generally consider a property to be in lease-up until the earlier of: (i) the quarter after the property reaches 80% occupancy or (ii) the thirteenth quarter after the property receives its certificate of occupancy.

Office Segment Data

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
	(\$ in thousands)		
Rental revenues	\$ 27,827	\$ 25,794	\$ 25,815
NOI	\$ 19,117	\$ 17,902	\$ 18,147
Square feet ⁽¹⁾	918,162	952,603	953,442
Occupancy ⁽¹⁾	95.2%	95.2%	94.1%

(1) Stabilized properties as of the end of the periods presented.

Rental revenues for the year ended December 31, 2014 increased \$2.0 million compared to the year ended December 31, 2013. NOI for the year ended December 31, 2014 increased \$1.2 million compared to the year ended December 31, 2013. The increases in rental revenues and NOI resulted from the delivery and initial occupancy of our new 4525 Main Street office tower, higher occupancy at One Columbus and Two Columbus and lease renewals at Armada Hoffler Tower.

Rental revenues for the year ended December 31, 2013 were relatively unchanged compared to the year ended December 31, 2012. NOI decreased \$0.2 million during the year ended December 31, 2013 compared to the year ended December 31, 2012 due to increased operating costs at our office properties in the Town Center of Virginia Beach.

Office Same Store Results

Office same store rental revenues, property expenses and NOI for the comparative years ended December 31, 2014 and 2013 and December 31, 2013 and 2012 were as follows:

	Years Ended December 31,		Change	Years Ended December 31,		Change
	2014 ⁽¹⁾	2013 ⁽¹⁾		2013	2012	
	(\$ in thousands)					
Rental revenues	\$25,640	\$25,117	\$ 523	\$25,794	\$25,815	\$ (21)
Property expenses	8,208	7,816	392	7,892	7,668	224
Same Store NOI	\$17,432	\$17,301	\$ 131	\$17,902	\$18,147	\$(245)
Non-Same Store NOI	1,685	601	1,084	—	—	—
Segment NOI	<u>\$19,117</u>	<u>\$17,902</u>	<u>\$1,215</u>	<u>\$17,902</u>	<u>\$18,147</u>	<u>\$(245)</u>

(1) Same store excludes 4525 Main Street and the Virginia Natural Gas office building.

Same store rental revenues and NOI for the year ended December 31, 2014 increased compared to the year ended December 31, 2013 because of higher occupancy at One Columbus and Two Columbus as well as lease renewals at Armada Hoffer Tower.

Same store rental revenues for the year ended December 31, 2013 were relatively unchanged compared to the year ended December 31, 2012. Same store NOI decreased during the year ended December 31, 2013 compared to the year ended December 31, 2012 due to increased operating costs at our office properties in the Town Center of Virginia Beach.

Retail Segment Data

	Years Ended December 31,		
	2014	2013	2012
	(\$ in thousands)		
Rental revenues	\$ 23,956	\$ 21,755	\$ 21,164
NOI	\$ 16,848	\$ 14,976	\$ 14,535
Square feet ⁽¹⁾	1,200,738	1,093,301	983,107
Occupancy ⁽¹⁾	96.4%	93.4%	93.9%

(1) Stabilized properties as of the end of the periods presented.

Rental revenues for the year ended December 31, 2014 increased \$2.2 million compared to the year ended December 31, 2013. NOI for the year ended December 31, 2014 increased \$1.9 million compared to the year ended December 31, 2013. The increases in rental revenues and NOI resulted primarily from our consolidation of Bermuda Crossroads upon completion of our IPO and Formation Transactions on May 13, 2013 and our acquisition of Dimmock Square on August 15, 2014.

Rental revenues increased \$0.6 million and NOI increased \$0.4 million during the year ended December 31, 2013 compared to the year ended December 31, 2012. The increases in rental revenues and NOI resulted from our consolidation of Bermuda Crossroads upon completion of our IPO and the Formation Transactions on May 13, 2013 and our completion and concurrent stabilization of Tyre Neck Harris Teeter in the second quarter of 2012. The increased rental revenues and NOI from Bermuda Crossroads and Tyre Neck Harris Teeter were partially offset by declines in occupancy at South Retail in the Town Center of Virginia Beach and Dick's at Town Center.

Retail Same Store Results

Retail same store rental revenues, property expenses and NOI for the comparative years ended December 31, 2014 and 2013 and December 31, 2013 and 2012 were as follows:

	Years Ended December 31,			Years Ended December 31,		
	2014 ⁽¹⁾	2013 ⁽¹⁾	Change	2013 ⁽²⁾	2012 ⁽²⁾	Change
	(\$ in thousands)					
Rental revenues	\$20,874	\$20,474	\$ 400	\$19,898	\$20,786	\$ (888)
Property expenses	6,487	6,525	(38)	6,254	6,458	(204)
Same Store NOI	\$14,387	\$13,949	\$ 438	\$13,644	\$14,328	\$ (684)
Non-Same Store NOI	2,461	1,027	1,434	1,332	207	1,125
Segment NOI	<u>\$16,848</u>	<u>\$14,976</u>	<u>\$1,872</u>	<u>\$14,976</u>	<u>\$14,535</u>	<u>\$ 441</u>

(1) Same store excludes Bermuda Crossroads, Dimmock Square and Greentree Shopping Center.

(2) Same store excludes Bermuda Crossroads and Tyre Neck Harris Teeter.

Same store rental revenues and NOI for the year ended December 31, 2014 increased compared to the year ended December 31, 2013 because of higher occupancy at South Retail in the Town Center of Virginia Beach, North Point Center, Gainsborough Square and Fountain Plaza, as well as increased percentage rent from 249 Central Park Retail.

Same store rental revenues and NOI decreased during the year ended December 31, 2013 compared to the year ended December 31, 2012. The decreases in same store rental revenues and same store NOI resulted from declines in occupancy at South Retail in the Town Center of Virginia Beach and Dick's at Town Center.

Multifamily Segment Data

	Years Ended December 31,		
	2014	2013	2012
	(\$ in thousands)		
Rental revenues	\$12,963	\$9,971	\$7,457
NOI	\$ 6,371	\$5,493	\$4,281
Apartment units ⁽¹⁾	626	626	342
Occupancy ⁽¹⁾	95.7%	94.2%	91.9%

(1) Stabilized properties as of the end of the periods presented.

Rental revenues for the year ended December 31, 2014 increased \$3.0 million compared to the year ended December 31, 2013. NOI increased \$0.9 million compared to the year ended December 31, 2013. The increases in rental revenues and NOI resulted primarily from our consolidation of Smith's Landing upon completion of our IPO and Formation Transactions on May 13, 2013 as well as higher occupancy at The Cosmopolitan. Our acquisition of Liberty Apartments on January 17, 2014 and our initial delivery of Encore Apartments during the third quarter of 2014 also contributed to the increase in rental revenues.

Rental revenues increased \$2.5 million and NOI increased \$1.2 million during the year ended December 31, 2013 compared to the year ended December 31, 2012 due to our consolidation of Smith's Landing upon completion of our IPO and the Formation Transactions on May 13, 2013.

Multifamily Same Store Results

Multifamily same store rental revenues, property expenses and NOI for the comparative years ended December 31, 2014 and 2013 and December 31, 2013 and 2012 were as follows:

	Years Ended December 31,			Years Ended December 31,		
	2014 ⁽¹⁾	2013 ⁽¹⁾	Change	2013 ⁽²⁾	2012 ⁽²⁾	Change
	(\$ in thousands)					
Rental revenues	\$7,758	\$7,494	\$264	\$7,494	\$7,457	\$ 37
Property expenses	3,555	3,441	114	3,441	3,176	265
Same Store NOI	\$4,203	\$4,053	\$150	\$4,053	\$4,281	\$ (228)
Non-Same Store NOI	2,168	1,440	728	1,440	—	1,440
Segment NOI	<u>\$6,371</u>	<u>\$5,493</u>	<u>\$878</u>	<u>\$5,493</u>	<u>\$4,281</u>	<u>\$1,212</u>

(1) Same store excludes Smith's Landing, Encore Apartments, Liberty Apartments and Whetstone Apartments.

(2) Same store excludes Smith's Landing.

Same store rental revenues and NOI for the year ended December 31, 2014 increased compared to the year ended December 31, 2013 because of higher occupancy at The Cosmopolitan.

Same store rental revenues increased slightly while same store NOI decreased \$0.2 million during the year ended December 31, 2013 compared to the year ended December 31, 2012. The increase in same store rental revenues resulted from increased ground floor retail occupancy at The Cosmopolitan, which helped to offset residential occupancy declines. Increased operating expenses at The Cosmopolitan caused the decrease in same store NOI during the year ended December 31, 2013.

General Contracting and Real Estate Services Segment Data

	Years Ended December 31,		
	2014	2013	2012
	(\$ in thousands)		
Segment revenues	\$103,321	\$82,516	\$54,046
NOI	4,567	3,703	3,943
Operating margin	4.4%	4.5%	7.3%
Construction backlog	\$159,139	\$46,385	\$64,577

Segment revenues for the year ended December 31, 2014 increased \$20.8 million compared to the year ended December 31, 2013. NOI for the year ended December 31, 2014 increased \$0.9 million compared to the year ended December 31, 2013. The increases in segment revenues and NOI resulted from higher volume on our construction contracts driven by the Exelon construction project as operating margins year over year were consistent.

Segment revenues for the year ended December 31, 2013 increased \$28.5 million compared to the year ended December 31, 2012. The increase in segment revenues was driven primarily by our progress and completion of the Newport News Apprentice School of Shipbuilding, Liberty Apartments and the Biomedical Research Laboratory at Hampton University. NOI decreased \$0.2 million during the year ended December 31, 2013 compared to the year ended December 31, 2012 as we experienced tighter operating margins on our construction contracts during 2013.

The changes in construction backlog for the years ended December 31, 2014 and 2013 were as follows:

	<u>Years Ended December 31,</u>	
	<u>2014</u>	<u>2013</u>
	(\$ in thousands)	
Beginning backlog	\$ 46,385	\$ 64,577
New contracts/change orders	215,303	64,742
Work performed	<u>(102,549)</u>	<u>(82,934)</u>
Ending backlog	<u>\$ 159,139</u>	<u>\$ 46,385</u>

During the year ended December 31, 2014, we executed a \$168.8 million contract for the construction of the new headquarters for Exelon's Constellation business unit in Baltimore, Maryland. Exelon is the nation's leading competitive energy provider. Construction began in the spring of 2014 with completion expected in the spring of 2016. As of December 31, 2014, we had \$126.0 million of backlog on the Exelon construction project.

Consolidated and Combined Results of Operations

Because of the timing of our IPO, the results of operations for the year ended December 31, 2012 reflect those of our Predecessor. The results of operations for the year ended December 31, 2013 reflect our results together with those of our Predecessor, while the results of operations for the year ended December 31, 2014 are solely ours.

The following table summarizes our results of operations for each of the three years ended December 31, 2014:

	<u>Years Ended December 31,</u>			<u>2014</u>	<u>2013</u>
	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>Change</u>	<u>Change</u>

Rental Revenues. Rental revenues by segment for each of the three years ended December 31, 2014 were as follows:

	<u>Years Ended December 31,</u>			<u>2014</u>	<u>2013</u>
	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>Change</u>	<u>Change</u>
	(\$ in thousands)				
Office	\$27,827	\$25,794	\$25,815	\$2,033	\$ (21)
Retail	23,956	21,755	21,164	2,201	591
Multifamily	12,963	9,971	7,457	2,992	2,514
	<u>\$64,746</u>	<u>\$57,520</u>	<u>\$54,436</u>	<u>\$7,226</u>	<u>\$3,084</u>

Rental revenues increased \$7.2 million during the year ended December 31, 2014 compared to the year ended December 31, 2013. The increase in office rental revenues resulted from the delivery and initial occupancy of our new 4525 Main Street office tower, higher occupancy at One Columbus and Two Columbus and lease renewals at Armada Hoffler Tower. The increase in retail rental revenues resulted primarily from our consolidation of Bermuda Crossroads upon completion of our IPO and Formation Transactions on May 13, 2013 and our acquisition of Dimmock Square on August 15, 2014. The increase in multifamily rental revenues resulted primarily from our consolidation of Smith's Landing upon completion of our IPO and Formation Transactions on May 13, 2013, higher occupancy at The Cosmopolitan, our acquisition of Liberty Apartments on January 17, 2014 and our initial delivery of Encore Apartments during the third quarter of 2014.

Rental revenues increased \$3.1 million during the year ended December 31, 2013 compared to the year ended December 31, 2012. Office rental revenues for the year ended December 31, 2013 were relatively unchanged compared to the year ended December 31, 2012. Retail rental revenues increased due to our consolidation of Bermuda Crossroads beginning May 13, 2013 and our completion and concurrent stabilization of Tyre Neck Harris Teeter in the second quarter of 2012. Multifamily rental revenues increased due to our consolidation of Smith's Landing beginning on May 13, 2013.

General Contracting and Real Estate Services Revenues. General contracting and real estate services revenues for the year ended December 31, 2014 increased \$20.8 million compared to the year ended December 31, 2013 because of higher volume on our construction contracts driven by the Exelon construction project. General contracting and real estate services revenues for the year ended December 31, 2013 increased \$28.5 million compared to the year ended December 31, 2012. The increase was driven primarily by our progress and completion of the Newport News Apprentice School of Shipbuilding, Liberty Apartments and the Biomedical Research Laboratory at Hampton University.

Rental Expenses. Rental expenses by segment for each of the three years ended December 31, 2014 were as follows:

	<u>Years Ended December 31,</u>			<u>2014</u>	<u>2013</u>
	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>Change</u>	<u>Change</u>
	(\$ in thousands)				
Office	\$ 6,395	\$ 5,721	\$ 5,499	\$ 674	\$ 222
Retail	5,011	4,808	4,791	203	17
Multifamily	5,261	3,496	2,383	1,765	1,113
Other	—	—	9	—	(9)
	<u>\$16,667</u>	<u>\$14,025</u>	<u>\$12,682</u>	<u>\$2,642</u>	<u>\$1,343</u>

Rental expenses increased \$2.6 million during the year ended December 31, 2014 compared to the year ended December 31, 2013. Office rental expenses increased primarily because of the initial operation of 4525 Main Street. Retail rental expenses increased because of our consolidation of Bermuda Crossroads on May 13,

2013 as well as our acquisition of Dimmock Square on August 15, 2014. Multifamily rental expenses increased because of our acquisition of Liberty Apartments on January 17, 2014, our initial delivery of Encore Apartments and Whetstone Apartments during the second half of 2014 and our consolidation of Smith's Landing on May 13, 2013.

Rental expenses increased \$1.3 million during the year ended December 31, 2013 compared to the year ended December 31, 2012, primarily driven by our multifamily segment. Multifamily rental expenses increased due to our consolidation of Smith's Landing beginning on May 13, 2013. Office rental expenses increased \$0.2 million because of repairs and maintenance. Retail rental expenses were relatively unchanged.

Real Estate Taxes. Real estate taxes by segment for each of the three years ended December 31, 2014 were as follows:

	<u>Years Ended December 31,</u>			<u>2014</u>	<u>2013</u>
	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>Change</u>	<u>Change</u>
	(\$ in thousands)				
Office	\$2,315	\$2,171	\$2,169	\$144	\$ 2
Retail	2,097	1,971	1,838	126	133
Multifamily	1,331	982	793	349	189
Other	—	—	65	—	(65)
	<u>\$5,743</u>	<u>\$5,124</u>	<u>\$4,865</u>	<u>\$619</u>	<u>\$259</u>

Real estate taxes increased \$0.6 million during the year ended December 31, 2014 compared to the year ended December 31, 2013. Office real estate taxes increased because of the delivery of 4525 Main Street. Retail real estate taxes increased because of our consolidation of Bermuda Crossroads on May 13, 2013 and our acquisition of Dimmock Square on August 15, 2014. Multifamily real estate taxes increased because of our acquisition of Liberty Apartments on January 17, 2014 and our consolidation of Smith's Landing on May 13, 2013.

Real estate taxes increased \$0.3 million during the year ended December 31, 2013 compared to the year ended December 31, 2012. Office real estate taxes were relatively unchanged. Retail real estate taxes increased due to our consolidation of Bermuda Crossroads beginning May 13, 2013 and our completion and concurrent stabilization of Tyre Neck Harris Teeter in the second quarter of 2012. Multifamily real estate taxes increased due to our consolidation of Smith's Landing beginning on May 13, 2013.

General Contracting and Real Estate Services Expenses. General contracting and real estate services expenses for the year ended December 31, 2014 increased \$19.9 million compared to the year ended December 31, 2013 because of higher volume on our construction contracts driven by the Exelon construction project. General contracting and real estate services expenses for the year ended December 31, 2013 increased \$28.7 million compared to the year ended December 31, 2012. The increase was driven primarily by our progress and completion of the Newport News Apprentice School of Shipbuilding, Liberty Apartments and the Biomedical Research Laboratory at Hampton University.

Depreciation and Amortization. Depreciation and amortization for the year ended December 31, 2014 increased \$2.7 million compared to the year ended December 31, 2013. The increase was attributable to Liberty Apartments and Dimmock Square, both of which we acquired during 2014, as well as 4525 Main Street, which we delivered during 2014. Depreciation and amortization for the year ended December 31, 2013 increased \$2.0 million compared to the year ended December 31, 2012. The increase was attributable to depreciation and amortization associated with our consolidation of Bermuda Crossroads and Smith's Landing beginning on May 13, 2013.

General and Administrative Expenses. General and administrative expenses for the year ended December 31, 2014 increased \$0.8 million compared to the year ended December 31, 2013 because of higher regulatory and compliance costs. General and administrative expenses for the year ended December 31, 2013 increased \$3.7 million compared to the year ended December 31, 2012. The increase resulted from noncash stock compensation of \$1.2 million and increased corporate, regulatory and compliance costs of operating as a public company.

Acquisition, Development and Other Pursuit Costs. During the year ended December 31, 2014, we recognized \$0.2 million of costs related primarily to our acquisition of Dimmock Square.

Impairment Charges. Impairment charges during the year ended December 31, 2014 were nominal. We recognized impairment charges of approximately \$0.6 million during the year ended December 31, 2013 resulting from three retail tenants that vacated prior to their lease expiration. The impairment charge consisted of unamortized leasing costs, leasing incentives and acquired lease intangibles related to these three tenants.

Interest Expense. Interest expenses for the year ended December 31, 2014 decreased \$1.7 million compared to the year ended December 31, 2013 because we repaid \$174.7 million of secured debt during 2013. This was partially offset by our assumption of \$25.0 million of debt secured by Smith's Landing and \$17.0 million of debt secured by Liberty Apartments. Interest expense for the year ended December 31, 2013 decreased \$4.3 million compared to the year ended December 31, 2012. The decrease resulted from our overall reduction in our debt using a portion of the net proceeds from our IPO, as well as our refinancing to lower interest rates during 2013. Our consolidated indebtedness as of December 31, 2013 was \$277.7 million compared to \$335.1 million as of December 31, 2012. Our weighted average interest rate as of December 31, 2013 and 2012 was 3.6% and 4.3%, respectively.

Loss on Extinguishment of Debt. During the year ended December 31, 2013, we used a portion of the net proceeds from our IPO and borrowings under our credit facility to repay \$150.0 million of debt. As a result, we recognized a loss on extinguishment of \$1.1 million consisting of \$0.5 million of unamortized deferred financing costs and \$0.6 million of defeasance expenses. On July 17, 2013, we defeased the loan on One Columbus and recognized a loss on extinguishment of \$1.0 million representing defeasance expenses. On October 11, 2013, we repaid the Bermuda Crossroads loan for \$10.8 million and recognized a \$0.1 million gain on extinguishment of debt representing the unamortized fair value premium adjustment. On October 25, 2013, we amended Broad Creek Shopping Center Notes 1, 2 and 3 to remove the recourse component, lower the interest rates to LIBOR plus 2.25% and extend the maturity dates to October 31, 2018. We recognized a \$0.2 million loss on extinguishment of debt representing unamortized debt issuance costs on Broad Creek Shopping Center Notes 2 and 3.

Gain on Real Estate Dispositions and Acquisitions. On November 20, 2014, we completed the sale of the Virginia Natural Gas office building and recognized a gain on disposition of \$2.2 million. We accounted for our acquisition of controlling interests in Bermuda Crossroads and Smith's Landing as purchases at fair value under the acquisition method of accounting in accordance with GAAP. As a result, we recognized a gain upon acquisition of \$9.5 million representing the difference between the fair value and carrying value of our Predecessor's prior noncontrolling equity interests in Bermuda Crossroads and Smith's Landing.

Other Income (Loss). Other income (loss) decreased during year ended December 31, 2014 compared to the year ended December 31, 2013 because of our consolidation of Bermuda Crossroads and Smith's Landing on May 13, 2013. We previously accounted for our noncontrolling interests in both Bermuda Crossroads and Smith's Landing under the equity method and presented our earnings from each within other income. Negative mark-to-market adjustments on our interest rate derivatives also contributed to the decrease in other income (loss) during the year ended December 31, 2014. Other income for the year ended December 31, 2013 decreased \$0.5 million compared to the year ended December 31, 2012 due to negative mark-to-market adjustments on our interest rate derivatives.

Income Taxes. Prior to the completion of our IPO on May 13, 2013, we made no provision for U.S. federal, state or local income taxes because the profits and losses of our Predecessor flowed through to its respective partners, members and shareholders who were individually responsible for reporting such amounts. Subsequent to the completion of our IPO, our TRS, through which we conduct our development and construction business, are subject to federal, state and local corporate income taxes. The income tax provision recognized during the years ended December 31, 2014 and 2013 is attributable to the profits of our TRS.

Liquidity and Capital Resources

Overview

We believe our primary short-term liquidity requirements consist of general contractor expenses, operating expenses and other expenditures associated with our properties, including tenant improvements, leasing commissions and leasing incentives, dividend payments to our stockholders required to maintain our REIT qualification, debt service, capital expenditures, new real estate development projects and strategic acquisitions. We expect to meet our short-term liquidity requirements through net cash provided by operations, reserves established from existing cash, borrowings under construction loans to fund new real estate development and construction and borrowings available under our credit facility.

Our long-term liquidity needs consist primarily of funds necessary for the repayment of debt at or prior to maturity, general contracting expenses, property development and acquisitions, tenant improvements and capital improvements. We expect to meet our long-term liquidity requirements with net cash from operations, long-term secured and unsecured indebtedness and the issuance of equity and debt securities. We also may fund property development and acquisitions and capital improvements using our credit facility pending long-term financing.

As of December 31, 2014, we had unrestricted cash and cash equivalents of \$25.9 million and restricted cash in escrow of \$4.2 million available for both current liquidity needs as well as development activities. As of December 31, 2014, we had \$87.5 million available under our credit facility to meet our short-term liquidity requirements.

Credit Facility

On May 13, 2013, we agreed to a \$100.0 million senior secured credit facility that included an accordion feature that allowed us to increase the borrowing capacity under the facility up to \$250.0 million, subject to certain conditions. On October 10, 2013, we increased the borrowing capacity under the credit facility to \$155.0 million pursuant to the accordion feature by adding six properties to the borrowing base collateral. As of December 31, 2014, the following properties collectively served as the borrowing base collateral for the credit facility: (i) Armada Hoffer Tower, (ii) Richmond Tower, (iii) One Columbus, (iv) Two Columbus, (v) Sentara Williamsburg, (vi) Bermuda Crossroads, (vii) a portion of North Point Center, (viii) Gainsborough Square, (ix) Parkway Marketplace and (x) Courthouse 7-Eleven.

The credit facility required us to comply with various financial covenants, including:

- Maximum leverage ratio (as amended on April 22, 2014) of 65% as of the last day of each fiscal quarter through maturity;
- Minimum fixed charge coverage ratio of 1.75 to 1.0;
- Minimum tangible net worth equal to at least the sum of 80% of tangible net worth on the closing date of the credit facility plus 75% of the net proceeds of any additional equity issuances;
- Maximum amount of variable rate indebtedness not exceeding 30% of our total asset value; and
- Maximum amount of secured recourse indebtedness of 35% of our total asset value.

The credit facility permitted investments in the following types of assets: (i) unimproved land holdings in an aggregate amount not exceeding 5% of our total asset value, (ii) construction in progress in an aggregate amount not exceeding 25% of our total asset value and (iii) unconsolidated affiliates in an aggregate amount not exceeding 5% of our total asset value. Investments in these types of assets collectively could not exceed 30% of our total asset value. In addition to these financial covenants, the credit facility required us to comply with various customary affirmative and negative covenants that restricted our ability to, among other things, incur debt and liens, make investments, dispose of properties and make distributions. We were in compliance with all covenants under the credit facility as of December 31, 2014 and as of the date the credit facility terminated.

The credit facility bore interest at LIBOR plus 1.60% to 2.20%, depending on our total leverage ratio. As of December 31, 2014, the interest rate on the credit facility was LIBOR plus 1.75%. In addition to interest owed under the credit facility, we were obligated to pay an annual fee based on the average unused portion of the credit facility. This fee was payable quarterly in arrears and was 0.25% of the amount of the unused portion of the credit facility if amounts borrowed were greater than 50% of the credit facility and 0.30% of the unused portion of the credit facility if amounts borrowed were less than 50% of the credit facility.

As of December 31, 2014, we had \$59.0 million borrowed under the credit facility and had standby letters of credit issued under the credit facility totaling \$8.5 million. As of December 31, 2014, we had \$87.5 million of aggregate capacity available under the credit facility. On January 23, 2015, we borrowed an additional \$5.0 million under the credit facility. The credit facility was scheduled to mature on May 13, 2016; however, we repaid all amounts due under the credit facility with proceeds from our new credit facility and terminated the existing credit facility on February 20, 2015, as discussed below.

New Credit Facility

On February 20, 2015, we agreed to a new \$200.0 million senior unsecured credit facility that includes a \$150.0 million senior unsecured revolving credit facility and a \$50.0 million senior unsecured term loan facility. The new credit facility replaced the existing \$155.0 million senior secured revolving credit facility that was scheduled to mature on May 13, 2016. On February 20, 2015, we borrowed \$54.0 million under the revolving credit facility and \$50.0 million under the term loan facility to repay in full all outstanding amounts due under the prior credit facility and to repay approximately \$39.0 million of other indebtedness secured by properties in our portfolio for the purpose of unencumbering those properties. We intend to use future borrowings under the new credit facility for general corporate purposes, including funding acquisitions, development and redevelopment of properties in our portfolio and for working capital.

The new credit facility includes an accordion feature that allows the total commitments to be increased to \$350.0 million, subject to certain conditions. The amount permitted to be borrowed under the new credit facility, together with all of our other unsecured indebtedness is generally limited to the lesser of: (i) 60% of the value of our unencumbered borrowing base properties, (ii) the maximum amount of principal that would result in a debt service coverage ratio of 1.50 to 1.0, and (iii) the maximum aggregate loan commitment, which currently is \$200.0 million.

The new revolving credit facility has a scheduled maturity date of February 20, 2019, with a one-year extension option. The term loan facility has a scheduled maturity date of February 20, 2020. We may, at any time, voluntarily prepay any loan under the new credit facility in whole or in part without premium or penalty.

The new revolving credit facility bears interest at LIBOR plus 1.40% to 2.00%, depending on our total leverage. The term loan facility bears interest at LIBOR plus 1.35% to 1.95%, depending on our total leverage. We are also obligated to pay an unused commitment fee of 15 or 25 basis points on the unused portions of the commitments under the new credit facility, depending on the amount of borrowings under the new credit facility. If we attain investment grade credit ratings from S&P and Moody's, we may elect to have borrowings become subject to interest rates based on our credit ratings.

The new credit facility requires us to comply with various financial covenants, affirmative covenants and other restrictions, including the following:

- Total leverage ratio of the Company of not more than 60%;
- Ratio of adjusted EBITDA to fixed charges of the Company of not less than 1.50 to 1.0;
- Tangible net worth of not less than the sum of \$220.0 million and 75% of the net equity proceeds received after December 31, 2014;
- Ratio of variable rate indebtedness to total asset value of not more than 30%;
- Ratio of secured indebtedness to total asset value of not more than 45%; and
- Ratio of secured recourse debt to total asset value of not more than 25%.

The new credit facility limits our ability to pay cash dividends. However, so long as no default or event of default exists, the credit agreements allow us to pay cash dividends with respect to any 12-month period in an amount not to exceed the greater of: (i) 95% of adjusted funds from operations (as defined in the credit agreement) or (ii) the amount required for us (a) to maintain our status as a REIT and (b) to avoid income or excise tax under the Code. If certain defaults or events of default exist, we may pay cash dividends with respect to any 12-month period to the extent necessary to maintain our status as a REIT. The new credit facility also restricts the amount of capital that we can invest in specific categories of assets, such as unimproved land holdings, development properties, notes receivable, mortgages, mezzanine loans and unconsolidated affiliates.

Consolidated Indebtedness

The following table sets forth our consolidated indebtedness as of December 31, 2014 (\$ in thousands):

	Amount Outstanding	Interest Rate ⁽¹⁾	Effective Rate for Variable-Rate Debt as of December 31, 2014	Maturity Date	Balance at Maturity
Oyster Point	\$ 6,274	5.41%		December 1, 2015	\$ 6,089
Broad Creek Shopping Center					
Note 1	4,452	LIBOR+2.25	2.42%	October 31, 2018	4,223
Note 2	8,173	LIBOR+2.25	2.42%	October 31, 2018	7,752

Fountain Plaza Retail	7,783	5.99		September 8, 2016	7,542
Dick's at Town Center	8,216	LIBOR+2.75	2.92%	October 31, 2017	7,889
The Cosmopolitan	47,132	3.75		July 1, 2051	—
Smith's Landing	24,470	LIBOR+2.15	2.32%	January 31, 2017	23,793
Stabilized Portfolio	\$185,513				\$131,123
Credit Facility	59,000	LIBOR+1.60-2.20	1.92%	May 13, 2016	59,000
4525 Main Street	30,870	LIBOR+1.95	2.12%	January 30, 2017	30,870
Encore Apartments	22,215	LIBOR+1.95	2.12%	January 30, 2017	22,215
Whetstone Apartments	16,019	LIBOR+1.90	2.07%	October 8, 2016	16,019
Sandbridge Commons	5,892	LIBOR+1.85	2.02%	January 17, 2018	5,407
Oceaneering	13,490	LIBOR+1.75	1.92%	February 28, 2018	12,770
Commonwealth of Virginia —Chesapeake	3,585	LIBOR+1.90	2.07%	August 28, 2017	3,585
Lightfoot Marketplace	3,484	LIBOR+1.90	2.07%	November 14, 2017	3,484
Liberty Apartments	20,673 ⁽³⁾	5.66		November 1, 2043	—
Total	\$360,671				\$284,473
Unamortized fair value adjustments	(1,442)				
Indebtedness	\$359,229				

(1) LIBOR rate is determined by individual lenders.

(2) Subject to an interest rate swap lock.

(3) Principal balance excluding fair value adjustments.

We currently are in compliance with all covenants on our outstanding indebtedness.

As of December 31, 2014, our outstanding indebtedness matures during the following years (\$ in thousands):

Year	Amount Due	Percentage of Total
2015	\$ 8,681	3%
2016	104,300	37
2017	116,141	41
2018	44,674	16
2019	9,333	3
Thereafter	1,344	<1
	\$284,473	100%

Interest Rate Derivatives

We may use interest rate derivatives from time to time to manage our exposure to interest rate risks. Using an interest rate swap lock, we fixed our interest payments under North Point Center Note 5 at 3.57% through maturity on February 1, 2017.

As of December 31, 2014, we were party to the following LIBOR interest rate cap agreements (\$ in thousands):

Effective Date	Maturity Date	Strike Rate	Notional Amount
May 31, 2012	May 29, 2015	1.09%	\$ 8,888
September 1, 2013	March 1, 2016	3.50%	25,198
September 1, 2013	March 1, 2016	3.50%	37,848
September 1, 2013	March 1, 2016	1.50%	40,000
October 4, 2013	April 1, 2016	1.50%	18,500
March 14, 2014	March 1, 2017	1.25%	50,000
Total			\$180,434

On February 20, 2015, we entered into a \$50.0 million floating-to-fixed interest rate swap attributable to one-month LIBOR indexed interest payments. The \$50.0 million interest rate swap has a fixed rate of 2.00%, an effective date of March 1, 2016 and a maturity date of February 20, 2020. We entered into this interest rate swap agreement in connection with the new \$50.0 million senior unsecured term loan facility that bears interest at LIBOR plus 1.35% to 1.95%, depending on our total leverage. We designated this interest rate swap as a cash flow hedge of the variable interest payments associated with the term loan facility.

Contractual Obligations

The following table summarizes the future payments for known contractual obligations as of December 31, 2014 (in thousands):

Contractual Obligations	Total	Payments due by period			
		Less than 1 year	1 – 3 years	3 – 5 years	More than 5 years
Principal payments of long-term indebtedness	\$360,671	\$11,903	\$226,715	\$57,031	\$ 65,022
Long-term debt—fixed interest	73,283	7,631	11,599	6,585	47,468
Long-term debt—variable interest	11,272	4,941	5,668	663	—
Ground and other operating leases	67,795	1,546	3,000	3,051	60,198
Tenant-related and other commitments	5,923	4,071	7	—	1,845
Total	\$518,944	\$30,092	\$246,989	\$67,330	\$174,533

For long-term debt that bears interest at variable rates, we estimated future interest payments using the indexed rates as of December 31, 2014. LIBOR as of December 31, 2014 was 17 basis points.

Off-Balance Sheet Arrangements

We have entered into standby letters of credit relating to the guarantee of future performance on certain of our construction contracts. Letters of credit generally are available for draw down in the event we do not perform. As of December 31, 2014, we had aggregate outstanding letters of credit totaling \$8.5 million, all of which expire during 2015. However, all of our standby letters of credit are expected to renew for additional periods until completion of the underlying contractual obligation.

Cash Flows

	Years Ended December 31,		Change
	2014	2013	
	(\$ in thousands)		
Operating Activities	\$ 31,362	\$ 22,175	\$ 9,187
Investing Activities	(105,306)	(47,947)	(57,359)
Financing Activities	80,945	35,254	45,691
Net Increase (Decrease)	\$ 7,001	\$ 9,482	\$ (2,481)
Cash and Cash Equivalents, Beginning of Period	\$ 18,882	\$ 9,400	
Cash and Cash Equivalents, End of Period	\$ 25,883	\$ 18,882	

Net cash provided by operating activities for the year ended December 31, 2014 increased \$9.2 million compared to the year ended December 31, 2013 primarily because of higher net income adjusted for noncash items. Net income adjusted for noncash items increased \$7.2 million during the year ended December 31, 2014.

Net cash used for investing activities for the year ended December 31, 2014 increased \$57.4 million compared to the year ended December 31, 2013 because of higher investments in new real estate development. During the year ended December 31, 2014, we invested \$98.5 million in new real estate development compared to \$41.3 million during the year ended December 31, 2013.

Net cash provided by financing activities for the year ended December 31, 2014 increased \$45.6 million compared to the year ended December 31, 2013 primarily because of our underwritten public offering of common stock that raised net proceeds of \$49.3 million during the year ended December 31, 2014.

	Years Ended December 31,		Change
	2013	2012	
	(\$ in thousands)		
Operating Activities	\$ 22,175	\$ 22,326	\$ (151)
Investing Activities	(47,947)	(4,702)	(43,245)
Financing Activities	35,254	(21,673)	56,927
Net Increase (Decrease)	\$ 9,482	\$ (4,049)	\$ 13,531
Cash and Cash Equivalents, Beginning of Period	\$ 9,400	\$ 13,449	
Cash and Cash Equivalents, End of Period	\$ 18,882	\$ 9,400	

Net cash provided by operating activities decreased slightly for the year ended December 31, 2013 compared to the year ended December 31, 2012. The less than 1.0% change resulted from increased net income adjusted for noncash items offset by cash used for operating assets and liabilities. Net income adjusted for noncash items increased \$2.0 million during the year ended December 31, 2013 while cash used for operating assets and liabilities increased at a slightly higher rate.

We made significant progress on executing on the opportunities in our development pipeline during the year ended December 31, 2013 and, as a result, net cash used for investing activities increased \$43.2 million during the year. During the year ended December 31, 2013, we invested \$41.3 million of cash on new real estate development compared to \$2.7 million during the year ended December 31, 2012. During the year ended December 31, 2013, we began construction of the following properties in our development pipeline: (i) 4525 Main Street, (ii) Encore Apartments, (iii) Whetstone Apartments, (iv) Sandbridge Commons, (v) Greentree Shopping Center and (vi) the Oceaneering International facility. During the year ended December 31, 2013, we invested \$3.9 million in tenant and building improvements compared to \$2.3 million during the year ended December 31, 2012. In connection with our Formation Transactions, we paid \$2.1 million of cash to acquire controlling interests in Bermuda Crossroads and Smith's Landing. Leasing costs and leasing incentives paid during the year ended December 31, 2013 were \$1.4 million compared to \$1.2 million during the year ended December 31, 2012.

Net proceeds from our IPO in May 2013 and borrowings under our credit facility offset by debt repayments resulted in the overall \$56.9 million increase in cash provided by financing activities during the year ended December 31, 2013.

Non-GAAP Financial Measures

We calculate FFO in accordance with the standards established by NAREIT. NAREIT defines FFO as net income (loss) (calculated in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures.

FFO is a supplemental non-GAAP financial measure. Management uses FFO as a supplemental performance measure because it believes that FFO is beneficial to investors as a starting point in measuring our operational performance. Specifically, in excluding real estate related depreciation and amortization and gains and losses from property dispositions, which do not relate to or are not indicative of operating performance, FFO provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of the performance of REITs, FFO will be used by investors as a basis to compare our operating performance with that of other REITs.

However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. In addition, other equity REITs may not calculate FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or service indebtedness. FFO also should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP.

Management also believes that the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the results provided by our stabilized operating property portfolio and affect the comparability of our period-over-period performance. Accordingly, we further adjust FFO to arrive at Core FFO, which eliminates certain of these items, including, but not limited to, impairment charges, gains and losses on the extinguishment of debt, non-cash stock compensation expense, acquisition, development and other pursuit costs and the FFO from non-stabilized development projects. We generally consider a property to be stabilized when it reaches 80% occupancy or three years after acquisition or completion. Other REITs may not calculate Core FFO in the same manner as us and accordingly, our Core FFO may not be comparable to other REIT's Core FFO.

The following table sets forth a reconciliation of FFO and Core FFO for each of the three years ended December 31, 2014 to net income, the most directly comparable GAAP equivalent:

	Years Ended December 31,		
	2014	2013	2012
	(\$ in thousands)		
Net income	\$12,759	\$14,453	\$ 8,897
Depreciation and amortization	17,569	14,898	12,909
Gain on real estate dispositions and acquisitions	(2,211)	(9,460)	—
Real estate joint ventures, net	—	(85)	80
Funds from operations	\$28,117	\$19,806	\$21,886
Impairment charges	15	580	—
Loss on extinguishment of debt	—	2,387	—
Loan modification costs	—	27	—
Non-cash stock compensation	917	1,249	—
Acquisition, development and other pursuit costs	229	—	—
Non-stabilized development projects	79	—	—
Core funds from operations	\$29,357	\$24,049	\$21,886

Inflation

Substantially all of our office and retail leases provide for the recovery of increases in real estate taxes and operating expenses. In addition, substantially all of the leases provide for annual rent increases. We believe that inflationary increases may be offset in part by the contractual rent increases and expense escalations previously described. In addition, our multifamily leases generally have lease terms ranging from 7 to 15 months with a majority having 12-month lease terms allowing negotiation of rental rates at term end, which we believe reduces our exposure to the effects of inflation.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The primary market risk to which we are exposed is interest rate risk. Our primary interest rate exposure is daily LIBOR. We primarily use fixed interest rate financing to manage our exposure to fluctuations in interest rates. On a limited basis, we also use derivative financial instruments to manage interest rate risk. We do not use these derivatives for trading or other speculative purposes. We have not designated any of our derivatives as hedges for accounting purposes.

At December 31, 2014, approximately \$143.2 million, or 40%, of our debt had fixed interest rates and approximately \$216.0 million, or 60%, had variable interest rates. Considering interest rate swaps, approximately \$215.4 million of our debt is subject to interest rate risk. Assuming no increase in the level of our variable rate debt, if interest rates increased by 1.0%, our cash flow would decrease by approximately \$2.2 million per year. At December 31, 2014, LIBOR was approximately 17 basis points. Assuming no increase in the level of our variable rate debt, if LIBOR was reduced to 0 basis points, our cash flow would increase by approximately \$0.4 million per year.

Item 8. Financial Statements and Supplementary Data

Our consolidated and combined financial statements and supplementary data are included as a separate section of this Annual Report on Form 10-K commencing on page F-1 and are incorporated herein by reference.

Item 9. Changes and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

The Company's management has evaluated, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as required by paragraph (b) of Rules 13a-15 and 15d-15 of the Exchange Act. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2014, the Company's disclosure controls and procedures were effective to ensure that information we are required to disclose in reports filed or submitted with the Securities and Exchange Commission (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure.

Management's Annual Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2014 based on the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, the Company's management concluded that our internal control over financial reporting was effective as of December 31, 2014.

Attestation Report of Independent Registered Public Accounting Firm

Not applicable.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

This information is incorporated by reference from the Company's Proxy Statement with respect to the 2015 Annual Meeting of Stockholders to be filed with the SEC no later than April 30, 2015.

Item 11. Executive Compensation.

This information is incorporated by reference from the Company's Proxy Statement with respect to the 2015 Annual Meeting of Stockholders to be filed with the SEC no later than April 30, 2015.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

This information is incorporated by reference from the Company's Proxy Statement with respect to the 2015 Annual Meeting of Stockholders to be filed with the SEC no later than April 30, 2015.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

This information is incorporated by reference from the Company's Proxy Statement with respect to the 2015 Annual Meeting of Stockholders to be filed with the SEC no later than April 30, 2015.

Item 14. Principal Accountant Fees and Services.

This information is incorporated by reference from the Company's Proxy Statement with respect to the 2015 Annual Meeting of Stockholders to be filed with the SEC no later than April 30, 2015.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

The following is a list of documents filed as a part of this report:

- (1) Financial Statements

Included herein at pages F-1 through F-36.

- (2) Financial Statement Schedules

The following financial statement schedule is included herein at pages F-35 through F-36:

Schedule III—Consolidated Real Estate Investments and Accumulated Depreciation

All other schedules for which provision is made in Regulation S-X are either not required to be included herein under the related instructions, are inapplicable or the related information is included in the footnotes to the applicable financial statements and, therefore, have been omitted.

- (3) Exhibits

The exhibits required to be filed by Item 601 of Regulation S-K are listed in the Exhibit Index.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders of
Armada Hoffler Properties, Inc.

We have audited the accompanying consolidated balance sheets of Armada Hoffler Properties, Inc. (the “Company”), as of December 31, 2014 and 2013, and the related consolidated and combined statements of income, equity, and cash flows, as described in Note 1, for each of the three years in the period ended December 31, 2014. Our audits also included the financial statement schedule listed in the Index at Item 15(2). These financial statements and schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Armada Hoffler Properties, Inc. at December 31, 2014 and 2013, and the consolidated and combined results of its operations and its cash flows, as described in Note 1, for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

ARMADA HOFFLER PROPERTIES, INC. AND PREDECESSOR
Notes to Consolidated and Combined Financial Statements

1. Business and Organization

Armada Hoffler Properties, Inc. (the “Company”) is a full service real estate company with extensive experience developing, building, owning and managing high-quality, institutional-grade office, retail and multifamily properties in attractive markets throughout the Mid-Atlantic United States.

As of December 31, 2014, the Company’s operating property portfolio comprised the following:

Property	Segment	Location
4525 Main Street	Office	Virginia Beach, Virginia
Armada Hoffler Tower	Office	Virginia Beach, Virginia
One Columbus	Office	Virginia Beach, Virginia

The Company is the sole general partner of Armada Hoffler, L.P. (the “Operating Partnership”). The operations of the Company are carried on primarily through the Operating Partnership and the wholly owned subsidiaries of the Operating Partnership. Both the Company and the Operating Partnership were formed on October 12, 2012 and commenced operations upon completion of the underwritten initial public offering of shares of the Company’s common stock (the “IPO”) and certain related formation transactions (the “Formation Transactions”) on May 13, 2013.

Armada Hoffler Properties, Inc. Predecessor (the “Predecessor”) was not a single legal entity, but rather a combination of real estate and construction entities under common ownership by their individual partners, members and stockholders and under common control or significant influence of Daniel A. Hoffler prior to the IPO and the Formation Transactions. The financial position and results of operations of the entities under common control of Mr. Hoffler have been combined in the Predecessor financial statements for the periods prior to the completion of the IPO and the Formation Transactions. The Predecessor accounted for its investments in the entities under significant influence of Mr. Hoffler using the equity method of accounting.

On May 13, 2013, the Company completed the IPO of 16,525,000 shares of common stock and on May 22, 2013, the underwriters of the IPO exercised their overallotment option in full to purchase an additional 2,478,750 shares. Net proceeds from the IPO to the Company after deducting the underwriting discount and related offering costs were \$192.2 million. The Company contributed the net proceeds from the IPO to the Operating Partnership in exchange for common units in the Operating Partnership. With the net proceeds from the IPO, the Operating Partnership repaid \$150.0 million of outstanding indebtedness and paid \$47.6 million as partial consideration to prior investors in connection with the Formation Transactions.

Pursuant to the Formation Transactions, the Operating Partnership: (i) acquired 100% of the interests in the entities comprising the Predecessor, (ii) succeeded to the ongoing construction and development businesses of the Predecessor, (iii) assumed asset management of certain of the properties acquired from the Predecessor, (iv) succeeded to the third-party asset management business of the Predecessor, (v) succeeded to the projects under development by the Predecessor, (vi) received options to acquire nine parcels of developable land from the Predecessor and (vii) entered into a contribution agreement to acquire Liberty Apartments upon satisfaction of certain conditions and transferability restrictions including completion of the project’s construction by the Company. The Operating Partnership completed the acquisition of Liberty Apartments on January 17, 2014.

The Company accounted for the contribution or acquisition of interests in the combined entities of the Predecessor as transactions among entities under common control. As a result, the contribution or acquisition of interests in each of the combined entities was accounted for at the Predecessor’s historical cost. The acquisitions of interests in the equity method investments of the Predecessor were accounted for as purchases at fair value under the acquisition method of accounting.

References to “Armada Hoffler” in these notes to consolidated and combined financial statements signify the Company for the period after the completion of the IPO and the Formation Transactions on May 13, 2013 and the Predecessor for all prior periods. Because of the timing of the IPO and the Formation Transactions, the results of operations for the year ended December 31, 2012 reflect only those of the Predecessor. The results of operations for the year ended December 31, 2013 reflect those of the Predecessor together with the Company, while the results of operations for the year ended December 31, 2014 as well as the financial condition as of December 31, 2014 and 2013 reflect only those of the Company.

2. Significant Accounting Policies

Basis of Presentation

The accompanying consolidated and combined financial statements were prepared in accordance with accounting principles generally accepted in the United States (“GAAP”).

The consolidated financial statements include the financial position and results of operations of the Company, the Operating Partnership and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

The financial position and results of operations of the entities comprising the Predecessor have been combined because they were under common ownership by their individual partners, members and stockholders and under common control of Mr. Hoffler. All significant intercompany transactions and balances have been eliminated in combination.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed. Such estimates are based on management's historical experience and best judgment after considering past, current and expected events and economic conditions. Actual results could differ from management's estimates.

Segments

Segment information is prepared on the same basis that management reviews information for operational decision-making purposes. Management evaluates the performance of each of Armada Hoffler's properties individually and aggregates such properties into segments based on their economic characteristics and classes of tenants. Armada Hoffler operates in four business segments: (i) office real estate, (ii) retail real estate, (iii) multifamily residential real estate and (iv) general contracting and real estate services. Armada Hoffler's general contracting and real estate services business develops and builds properties for its own account and also provides construction and development services to both related and third parties.

Revenue Recognition

Rental Revenues

Armada Hoffler leases its properties under operating leases and recognizes base rents when earned on a straight-line basis over the lease term. Armada Hoffler begins recognizing rental revenue when the tenant has the right to take possession of or controls the physical use of the property under lease. The extended collection period for accrued straight-line rental revenue along with Armada Hoffler's evaluation of tenant credit risk may result in the nonrecognition of all or a portion of straight-line rental revenue until the collection of such revenue is reasonably assured. Armada Hoffler recognizes contingent rental revenue (e.g., percentage rents based on tenant sales) when changes in the factors on which the contingent lease payments are based actually occur. Armada Hoffler recognizes leasing incentives as reductions to rental revenue on a straight-line basis over the lease term. Armada Hoffler recognizes cost reimbursement revenue for real estate taxes, operating expenses and common area maintenance costs on an accrual basis during the periods in which the expenses are incurred. Armada Hoffler recognizes lease termination fees either upon termination or evenly over any remaining lease term.

General Contracting and Real Estate Services Revenues

Armada Hoffler recognizes general contracting revenue on construction contracts using the percentage-of-completion method. Under this method, Armada Hoffler recognizes revenue and an estimated profit as construction contract costs are incurred based on the proportion of incurred costs to total estimated construction contract costs at completion. Construction contract costs include all direct material, labor and subcontract costs as well as any indirect costs related to contract performance. Provisions for estimated losses on uncompleted contracts are recognized immediately in the period in which such losses are determined. Changes in job performance, job conditions and estimated profitability, including those arising from contract penalty provisions and final contract settlements, may result in revisions to costs and income and are recognized in the period in which they are determined. Profit incentives are included in revenues when their realization is probable and when they can be reasonably estimated.

Armada Hoffler recognizes real estate services revenues from property development and management when realized and earned, generally as such services are provided.

Real Estate Investments

Income producing property primarily includes land, buildings and tenant improvements and is stated at cost. Real estate investments held for development include land and capitalized development costs. Armada Hoffler reclassifies real estate investments held for development to construction in progress upon commencement of construction. Construction in progress is stated at cost. Direct and certain indirect costs clearly associated with the development, redevelopment, construction, leasing or expansion of real estate assets are capitalized as a cost of the property. Repairs and maintenance costs are expensed as incurred.

Armada Hoffler capitalizes direct and indirect project costs associated with the initial construction of a property until the property is substantially complete and ready for its intended use. Capitalized project costs include preacquisition development and preconstruction costs including overhead, salaries and related costs of personnel directly involved, real estate taxes, insurance, utilities, ground rent and interest. Interest capitalized during the years ended December 31, 2014 and 2013 was \$3.1 million and \$0.6 million, respectively. Interest capitalized during the year ended December 31, 2012 was not significant. Overhead, salaries and related personnel costs capitalized during each of the three years ended December 31, 2014 were \$2.4 million, \$1.6 million and \$0.4 million, respectively.

Armada Hoffler capitalizes preacquisition development costs directly identifiable with specific properties when the acquisition of such properties is probable. Capitalized preacquisition development costs are presented within other assets in the consolidated balance sheets. Capitalized preacquisition development costs as of December 31, 2014 and 2013 were \$4.6 million and \$2.0 million, respectively. Capitalized preacquisition development costs attributable to the Johns Hopkins Village project were \$2.1 million and \$0.5 million as of December 31, 2014 and 2013, respectively. Costs attributable to unsuccessful projects are expensed.

Armada Hoffler recognizes real estate development grants from state and local governments as reductions to the carrying amounts of the related real estate investments when any attached conditions are satisfied and when there is reasonable assurance that the grant will be received.

Income producing property is depreciated on a straight-line basis over the following estimated useful lives:

Buildings	39 years
Capital improvements	15—20 years
Equipment	5—15 years
Tenant improvements	Term of the related lease (or estimated useful life, if shorter)

Real Estate Investments Held for Sale

Real estate assets classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. Once a property is classified as held for sale, it is no longer depreciated. A property is classified as held for sale when: (i) senior management commits to a plan to sell the property, (ii) the property is available for immediate sale in its present condition, subject only to conditions usual and customary for such sales, (iii) an active program to locate a buyer and other actions required to complete the plan to sell have been initiated, (iv) the sale is expected to be completed within one year, (v) the property is being actively marketed for sale at a price that is reasonable in relation to its current fair value and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

The Company classified the Sentara Williamsburg office property as held for sale as of December 31, 2014.

Impairment of Long Lived Assets

Armada Hoffler evaluates its real estate assets for impairment on a property by property basis whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If such an evaluation is necessary, Armada Hoffler compares the carrying amount of any such real estate asset with the undiscounted expected future cash flows that are directly associated with, and that are expected to arise as a direct result of, its use and eventual disposition. If the carrying amount of a real estate asset exceeds the associated estimate of undiscounted expected future cash flows, an impairment loss is recognized to reduce the real estate asset's carrying value to its fair value.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits, investments in money market funds and investments with an original maturity of three months or less.

Restricted Cash

Restricted cash represents amounts held by lenders for real estate taxes, insurance and reserves for capital improvements. Armada Hoffler presents changes in cash restricted for real estate taxes and insurance as operating activities in the consolidated and combined statements of cash flows. Armada Hoffler presents changes in cash restricted for capital improvements as investing activities in the consolidated and combined statements of cash flows.

Accounts Receivable, net

Accounts receivable include amounts from tenants for base rents, contingent rents and cost reimbursements as well as accrued straight-line rental revenue. As of December 31, 2014 and 2013, accrued straight-line rental revenue presented within accounts receivable in the consolidated balance sheets was \$19.4 million and \$17.5 million, respectively.

Armada Hoffler's evaluation of the collectability of accounts receivable and the adequacy of the allowance for doubtful accounts is based primarily upon evaluations of individual receivables, current economic conditions, historical experience and other relevant factors. Armada Hoffler establishes reserves for tenant receivables outstanding over 90 days. For all such tenants, Armada Hoffler also reserves any related accrued straight-line rental revenue. Additional reserves are recorded for more current amounts, as applicable, when Armada Hoffler has determined collectability to be doubtful. As of December 31, 2014 and 2013, the allowance for doubtful accounts was not significant. Armada Hoffler presents bad debt expense within rental expenses in the consolidated and combined statements of income.

Leasing Costs

Commissions paid by Armada Hoffler to third parties to originate a lease are deferred and amortized as depreciation and amortization expense on a straight-line basis over the term of the related lease. Leasing costs are presented within other assets in the consolidated balance sheets.

Leasing Incentives

Incentives paid by Armada Hoffler to tenants are deferred and amortized as reductions to rental revenues on a straight-line basis over the term of the related lease. Leasing incentives are presented within other assets in the consolidated balance sheets.

Acquired Lease Intangibles

Acquired lease intangibles are presented within other assets and other liabilities in the consolidated balance sheets. The Company amortizes in-place lease assets as depreciation and amortization expense on a straight-line basis over the remaining term of the related leases. The Company amortizes above-market lease assets as reductions to rental revenues on a straight-line basis over the remaining term of the related leases. The Company amortizes below-market lease liabilities as increases to rental revenues on a straight-line basis over the remaining term of the related leases. The Company amortizes below-market ground lease assets as increases to rental expenses on a straight-line basis over the remaining term of the related leases.

Debt Issuance Costs

Financing costs are deferred and amortized as interest expense using the effective interest method over the term of the related debt. Debt issuance costs are presented within other assets in the consolidated balance sheets.

Derivative Financial Instruments

Armada Hoffler may enter into interest rate derivatives to manage exposure to interest rate risks. Armada Hoffler does not use derivative financial instruments for trading or speculative purposes. Armada Hoffler recognizes derivative financial instruments at fair value and presents them within other assets and liabilities in the consolidated balance sheets. Presentation of gains (losses) resulting from changes in the fair value of derivatives depend on their designation and qualification for hedge accounting. As of December 31, 2014, Armada Hoffler had not designated any of its derivative instruments as hedges for accounting purposes. As a result, changes in the fair value of derivatives have been recognized within other income (expense) in the consolidated and combined statements of income.

Stock-Based Compensation

The Company measures the compensation cost of restricted stock awards based on the grant date fair value. The Company recognizes compensation cost for the vesting of restricted stock awards using the accelerated attribution method. Compensation cost associated with the vesting of restricted stock awards is presented within either general and administrative expenses or general contracting and real estate services expenses in the consolidated and combined statements of income. Total stock-based compensation expense recognized during the years ended December 31, 2014 and 2013 was \$0.9 million and \$1.2 million, respectively. Stock-based compensation for personnel directly involved in the development and initial construction of a property is capitalized. During the year ended December 31, 2014, the Company capitalized \$0.4 million of stock-based compensation. Stock-based compensation capitalized during the year ended December 31, 2013 was not significant.

Income Taxes

The Company has elected to be taxed as a real estate investment trust (“REIT”) for U.S. federal income tax purposes. For continued qualification as a REIT for federal income tax purposes, the Company must meet certain organizational and operational requirements, including a requirement to pay distributions to stockholders of at least 90% of annual taxable income, excluding net capital gains. As a REIT, the Company generally is not subject to income tax on net income distributed as dividends to stockholders. The Company is subject to state and local income taxes in some jurisdictions and, in certain circumstances, may also be subject to federal excise taxes on undistributed income. In addition, certain of the Company’s activities must be conducted by subsidiaries that have elected to be treated as a taxable REIT subsidiary (“TRS”) subject to both federal and state income taxes. The Operating Partnership conducts its development and construction businesses through the TRS. The related income tax provision or benefit attributable to the profits or losses of the TRS and any taxable income of the Company is reflected in the consolidated and combined financial statements.

The Company uses the liability method of accounting for deferred income tax in accordance with GAAP. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the carrying value of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the statutory rates expected to be applied in the periods in which those temporary differences are settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period of the change. A valuation allowance is recorded on the Company's deferred tax assets when it is more likely than not that such assets will not be realized. When evaluating the realizability of the Company's deferred tax assets, all evidence, both positive and negative is evaluated. Items considered in this analysis include the ability to carryback losses, the reversal of temporary differences, tax planning strategies and expectations of future earnings.

Under GAAP, the amount of tax benefit to be recognized is the amount of benefit that is more likely than not to be sustained upon examination. Management analyzes its tax filing positions in the U.S. federal, state and local jurisdictions where it is required to file income tax returns for all open tax years. If, based on this analysis, management determines that uncertainties in tax positions exist, a liability is established. The Company recognizes accrued interest and penalties related to unrecognized tax positions in the provision for income taxes. If recognized, the entire amount of unrecognized tax positions would be recorded as a reduction to the provision for income taxes.

The Predecessor was comprised primarily of limited partnerships, limited liability companies and S-corporations. Under applicable federal and state income tax rules, the allocated share of net income or loss from limited partnerships, limited liability companies and S-corporations flows through to the respective partners, members and shareholders. For periods prior to the completion of the IPO and the Formation Transactions on May 13, 2013, no provision was made for U.S. federal, state or local income taxes because profits and losses of the Predecessor flowed through to its respective partners, members and shareholders that were individually responsible for reporting such amounts.

Discontinued Operations

For periods prior to January 1, 2014, Armada Hoffler presented properties held for sale as discontinued operations only when it would not have any significant continuing involvement in the properties' operations after their disposition and when the properties' operations and cash flows: (i) could be clearly distinguished and (ii) would be eliminated from Armada Hoffler's ongoing operations upon disposition.

Beginning January 1, 2014, only disposals representing a strategic shift that has or will have a major effect on the Company's operations and financial results are reported as discontinued operations.

Net Income Per Share and Unit

The Company calculates net income per share and unit based upon the weighted average shares and units outstanding for periods after the completion of the IPO and Formation Transactions on May 13, 2013. Diluted net income per share and unit is calculated after giving effect to all significant potential dilutive shares outstanding during the period. There were no significant potential dilutive shares or units outstanding during the period May 13, 2013 through December 31, 2013 or for the year ended December 31, 2014. As a result, basic and diluted outstanding shares and units were the same.

Other Comprehensive Income

Armada Hoffler had no items of other comprehensive income during any of the three years ended December 31, 2014.

Emerging Growth Company Status

The Company qualifies as an emerging growth company ("EGC") pursuant to the Jumpstart Our Business Startups Act. An EGC may choose to take advantage of the extended private company transition period

provided for complying with new or revised accounting standards that may be issued by the Financial Accounting Standards Board (the “FASB”) or the U.S. Securities and Exchange Commission (the “SEC”). The Company has elected to opt out of such extended transition period. This election is irrevocable.

Recent Accounting Pronouncements

In April 2014, the FASB revised the reporting and disclosure guidance for discontinued operations. Under the revised guidance, only disposals representing a strategic shift that has or will have a major effect on the Company’s operations and financial results will be reported as discontinued operations. The revised guidance also expands the disclosure requirements for discontinued operations and other disposals of significant business components. The revised guidance is not effective for the Company until January 1, 2015; however, early adoption is permitted. The Company early adopted the revised guidance effective January 1, 2014.

In May 2014, the FASB issued a new standard that provides a single, comprehensive model for recognizing revenue from contracts with customers. While the new standard does not supersede the guidance on accounting for leases, it could change the way the Company recognizes revenue from construction and development contracts with third-party customers. The new standard will be effective for the Company beginning on January 1, 2017. Early adoption is not permitted. Management is currently evaluating the potential impact of the new revenue recognition standard on the Company’s consolidated financial statements.

3. *Segments*

Net operating income (segment revenues minus segment expenses) is the measure used by Armada Hoffler’s chief operating decision-maker to assess segment performance. Net operating income is not a measure of operating income or cash flows from operating activities as measured by GAAP and is not indicative of cash available to fund cash needs. As a result, net operating income should not be considered an alternative to cash flows as a measure of liquidity. Not all companies calculate net operating income in the same manner. Armada Hoffler considers net operating income to be an appropriate supplemental measure to net income because it assists both investors and management in understanding the core operations of Armada Hoffler’s real estate and construction businesses.

Net operating income of Armada Hoffler's reportable segments for each of the three years ended December 31, 2014 was as follows (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
<i>Office real estate</i>			
Rental revenues	\$ 27,827	\$25,794	\$25,815
Property expenses	8,710	7,892	7,668
Segment net operating income	<u>19,117</u>	<u>17,902</u>	<u>18,147</u>
<i>Retail real estate</i>			
Rental revenues	23,956	21,755	21,164
Property expenses	7,108	6,779	6,629
Segment net operating income	<u>16,848</u>	<u>14,976</u>	<u>14,535</u>
<i>Multifamily residential real estate</i>			
Rental revenues	12,963	9,971	7,457
Property expenses	6,592	4,478	3,176
Segment net operating income	<u>6,371</u>	<u>5,493</u>	<u>4,281</u>
<i>General contracting and real estate services</i>			
Segment revenues	103,321	82,516	54,046
Segment expenses	98,754	78,813	50,103
Segment net operating income	<u>4,567</u>	<u>3,703</u>	<u>3,943</u>
Other	—	—	(74)
Net operating income	<u>\$ 46,903</u>	<u>\$42,074</u>	<u>\$40,832</u>

General contracting and real estate services revenues for each of the three years ended December 31, 2014 exclude revenue related to intercompany construction contracts of \$85.4 million, \$35.7 million and \$1.4 million, respectively. General contracting and real estate services expenses for each of the three years ended December 31, 2014 exclude expenses related to intercompany construction contracts of \$84.6 million, \$35.4 million and \$1.3 million, respectively. General contracting and real estate services expenses for the year ended December 31, 2014 include noncash stock compensation of \$0.2 million.

The following table reconciles net operating income to net income for each of the three years ended December 31, 2014 (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Net operating income	\$ 46,903	\$ 42,074	\$ 40,832
Depreciation and amortization	(17,569)	(14,898)	(12,909)
General and administrative expenses	(7,711)	(6,937)	(3,232)
Acquisition, development and other pursuit costs	(229)	—	—
Impairment charges	(15)	(580)	—
Interest expense	(10,648)	(12,303)	(16,561)
Loss on extinguishment of debt	—	(2,387)	—
Gain on real estate dispositions and acquisitions	2,211	9,460	—
Other (expense) income	(113)	297	777
Income tax provision	(70)	(273)	—
Results from discontinued operations	—	—	(10)
Net income	<u>\$ 12,759</u>	<u>\$ 14,453</u>	<u>\$ 8,897</u>

General and administrative expenses represent costs not directly associated with the operation and management of Armada Hoffer's real estate properties and general contracting and real estate services businesses. General and administrative expenses include office personnel salaries and benefits, bank fees, accounting fees, legal fees and other corporate office expenses. General and administrative expenses for the years ended December 31, 2014 and 2013 include noncash stock compensation of \$0.7 million and \$1.2 million, respectively.

Impairment charges recognized during the years ended December 31, 2014 and 2013 represent unamortized leasing assets related to vacated tenants.

Rental revenues for each of the three years ended December 31, 2014 comprised the following (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Minimum rents			
Office	\$26,394	\$24,415	\$24,101
Retail	20,198	18,473	17,753
Multifamily	11,076	8,364	6,259
Percentage rents			
Office	69	104	109
Retail	216	121	121
Multifamily	100	105	103
Other			
Office	1,364	1,275	1,605
Retail	3,542	3,161	3,290
Multifamily	1,787	1,502	1,095
Rental revenues	<u>\$64,746</u>	<u>\$57,520</u>	<u>\$54,436</u>

Minimum rents include \$2.2 million, \$1.1 million and \$2.2 million of straight-line rental revenue for each of the three years ended December 31, 2014, respectively. Minimum rents also include \$(0.7) million, \$(0.8) million and \$(0.8) million of leasing incentive amortization for each of the three years ended December 31, 2014, respectively. Percentage rents are based on tenants' sales. Other rental revenue includes cost reimbursements for real estate taxes, property insurance and common area maintenance as well as termination fees.

Property expenses for each of the three years ended December 31, 2014 comprised the following (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Rental expenses			
Office	\$ 6,395	\$ 5,721	\$ 5,499
Retail	5,011	4,808	4,791
Multifamily	5,261	3,496	2,383
Other	—	—	9
Total	<u>16,667</u>	<u>14,025</u>	<u>12,682</u>
Real estate taxes			
Office	2,315	2,171	2,169
Retail	2,097	1,971	1,838
Multifamily	1,331	982	793
Other	—	—	65
Total	<u>5,743</u>	<u>5,124</u>	<u>4,865</u>
Property expenses	<u>\$22,410</u>	<u>\$19,149</u>	<u>\$17,547</u>

Rental expenses represent costs directly associated with the operation and management of Armada Hoffler's real estate properties. Rental expenses include asset management fees, property management fees, repairs and maintenance, insurance and utilities.

4. *Operating Leases*

The Company's commercial tenant leases generally range from five to 20 years, but certain leases with anchor tenants may be longer. The Company's commercial tenant leases provide for minimum rental payments during each of the next five years and thereafter as follows (in thousands):

2015	\$ 51,679
2016	51,726
2017	50,075
2018	46,265
2019	39,056
Thereafter	<u>275,405</u>
Total	<u>\$514,206</u>

Lease terms on multifamily apartment units generally range from seven to 15 months, with a majority having 12-month lease terms. Apartment leases are not included in the preceding table as the remaining terms as of December 31, 2014 are generally less than one year.

5. *Real Estate Investments*

The Company's real estate investments comprised the following as of December 31, 2014 and 2013 (in thousands):

	December 31, 2014			
	Income producing property	Held for development	Construction in progress	Total
Land	\$ 40,898	\$—	\$15,260	\$ 56,158
Land improvements	16,279	—	—	16,279
Buildings and improvements	456,741	—	—	456,741
Development and construction costs	—	—	65,822	65,822
Real estate investments	<u>\$513,918</u>	<u>\$—</u>	<u>\$81,082</u>	<u>\$595,000</u>

	December 31, 2013			
	Income producing property	Held for development	Construction in progress	Total
Land	\$ 27,736	\$—	\$13,577	\$ 41,313
Land improvements	12,562	—	—	12,562
Buildings and improvements	365,941	—	—	365,941
Development and construction costs	—	—	43,160	43,160
Real estate investments	<u>\$406,239</u>	<u>\$—</u>	<u>\$56,737</u>	<u>\$462,976</u>

Acquisition of Liberty Apartments

As discussed in Note 1, the Company completed the acquisition of Liberty Apartments from affiliates of the Predecessor on January 17, 2014. The fair value of the total consideration transferred at the acquisition date to acquire Liberty Apartments was \$26.7 million, consisting of 695,652 common units of limited

partnership interest in the Operating Partnership (“OP Units”), \$3.0 million in cash and the assumption of \$17.0 million of debt. The fair value adjustment to the assumed debt of Liberty Apartments was a \$1.5 million discount. The outstanding principal balance of the assumed debt of Liberty Apartments at the acquisition date was \$18.5 million.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in thousands):

	<u>Liberty Apartments</u>
Land	\$ 3,580
Site improvements	280
Building and improvements	23,214
In-place leases	340
Indebtedness	(16,966)
Net working capital	<u>(679)</u>
Net assets acquired	<u>\$ 9,769</u>

Liberty Apartments did not have significant operations during the year ended December 31, 2013. Rental revenues and net loss from Liberty Apartments for the period from the acquisition date to December 31, 2014 included in the consolidated statement of income was \$1.0 million and \$(2.1) million, respectively.

Acquisition of Dimmock Square

On August 15, 2014, the Company completed the acquisition of Dimmock Square, a 106,166 square foot retail center located in Colonial Heights, Virginia. The fair value of the total consideration transferred at the acquisition date to acquire Dimmock Square was \$19.7 million, consisting of 990,952 OP Units and \$10.1 million of cash that was used to immediately defease the loan secured by Dimmock Square upon its contribution to the Operating Partnership.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in thousands):

	<u>Dimmock Square</u>
Land	\$ 5,100
Site improvements	600
Building and improvements	12,526
In-place leases	1,880
Above and below-market leases	<u>(390)</u>
Net assets acquired	<u>\$19,716</u>

Rental revenues and net loss from Dimmock Square for the period from the acquisition date to December 31, 2014 included in the consolidated statement of income was \$0.8 million and less than \$(0.1) million, respectively.

During the year ended December 31, 2014, the Company recognized \$0.2 million of acquisition, development and other pursuit costs primarily related to the acquisition of Dimmock Square.

Acquisitions of Bermuda Crossroads and Smith’s Landing

Substantially concurrent with the completion of the IPO on May 13, 2013 and in connection with the Formation Transactions, the Operating Partnership acquired 100% of the interests in Bermuda Crossroads and Smith’s Landing. Prior to the acquisition date, the Predecessor accounted for its 50% interest in Bermuda Crossroads and 40% interest in Smith’s Landing as equity method investments.

The acquisitions of controlling interests in Bermuda Crossroads and Smith's Landing were accounted for as purchases at fair value under the acquisition method of accounting. Total consideration in the form of cash and OP Units paid for the 50% interest in Bermuda Crossroads was \$3.2 million. Total consideration in the form of cash and OP Units paid for the 60% interest in Smith's Landing was \$7.5 million.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in thousands):

	<u>Bermuda Crossroads</u>	<u>Smith's Landing</u>
Land	\$ 5,450	\$ —
Site improvements	540	450
Building and improvements	10,101	34,655
Intangible assets	2,860	2,420
Net working capital	237	14
Indebtedness	(11,053)	(24,995)
Below-market leases	(1,750)	—
Net assets acquired	<u>\$ 6,385</u>	<u>\$ 12,544</u>

The identified intangible assets for Bermuda Crossroads are primarily in-place leases. The identified intangible assets for Smith's Landing include \$1.9 million assigned to a below-market ground lease and \$0.5 million assigned to in-place leases. The fair value adjustment to the assumed debt of Bermuda Crossroads was a \$0.2 million premium. The fair value adjustment to the assumed debt of Smith's Landing was not significant.

The acquisition-date fair values of the previous equity interests in Bermuda Crossroads and Smith's Landing were \$3.2 million and \$5.0 million, respectively. The Company recognized a gain of \$9.5 million as a result of remeasuring the Predecessor's prior equity interests in Bermuda Crossroads and Smith's Landing held before the acquisitions.

Rental revenues and net income of both Bermuda Crossroads and Smith's Landing for the period from the acquisition date to December 31, 2013 included in the consolidated and combined statements of income were \$3.8 million and \$0.2 million, respectively.

Pro Forma Financial Information (Unaudited)

The following table summarizes the consolidated and combined results of operations of Armada Hoffer on a pro forma basis, as if Dimmock Square had been acquired as of January 1, 2013 and both Bermuda Crossroads and Smith's Landing had been acquired as of January 1, 2012 (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Rental revenues	\$66,000	\$61,555	\$60,075
Net income	13,361	5,676	18,520

The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if these acquisitions had taken place on January 1, 2013 and 2012. The pro forma financial information includes adjustments to rental revenue and rental expenses for above and below-market leases, adjustments to depreciation and amortization expense for acquired property and in-place lease assets and adjustments to interest expense for fair value adjustments to assumed debt.

Pro forma net income for the year ended December 31, 2012 includes the nonrecurring \$9.5 million gain as a result of remeasuring the Predecessor's prior equity interests in Bermuda Crossroads and Smith's Landing held before the acquisitions.

Other Real Estate Transactions

On April 16, 2014, the Company purchased land in Williamsburg, Virginia for \$7.6 million for the development and construction of Lightfoot Marketplace.

On May 1, 2014, the Company purchased land in Chesapeake, Virginia for \$0.3 million for the development and construction of a new administrative building for the Commonwealth of Virginia.

On September 29, 2014, the Company purchased land in Virginia Beach, Virginia for \$0.2 million for the development and construction of a new administrative building for the Commonwealth of Virginia.

On November 20, 2014, the Company completed the sale of the Virginia Natural Gas office property for \$8.9 million in cash. Net proceeds to the Company after transaction costs and tax protection payments were \$7.4 million. The gain on the disposition of the Virginia Natural Gas office property was \$2.2 million.

Subsequent to December 31, 2014

On January 5, 2015, the Company completed the sale of the Sentara Williamsburg office property for \$15.4 million in cash. Net proceeds to the Company after transaction costs were \$15.2 million. The gain on the disposition of the Sentara Williamsburg office property was \$6.2 million. The Company intends to use the net proceeds from the Sentara Williamsburg sale in combination with the issuance of common stock to acquire two grocery store anchored retail centers in Maryland for a combined purchase price of \$39.1 million. Both transactions are subject to customary closing conditions and are expected to close by the end of the first quarter of 2015.

On January 9, 2015, the Company entered into an agreement to purchase a 57,000 square foot grocery store anchored retail center in Myrtle Beach, South Carolina for \$8.7 million, including the assumption of approximately \$5.1 million of debt. The transaction is subject to customary closing conditions and is expected to close in the second quarter of 2015.

On February 13, 2015, the Company agreed to the future sale of the Oyster Point office property for \$6.5 million in cash. The Company intends to complete the sale on January 15, 2017.

On February 26, 2015, the Company entered into a definitive agreement to sell Whetstone Apartments for \$35.6 million. The transaction is subject to customary closing conditions and is expected to close in the second quarter of 2015.

6. Construction Contracts

Construction contract costs and estimated earnings in excess of billings represent reimbursable costs and amounts earned under contracts in progress as of the balance sheet date. Such amounts become billable according to contract terms, which usually consider the passage of time, achievement of certain milestones or completion of the project. Billings of \$39.8 million and \$16.2 million are netted against construction contract costs and estimated earnings as of December 31, 2014 and 2013, respectively. The Company expects to bill and collect substantially all construction contract costs incurred as of December 31, 2014 during the year ending December 31, 2015.

The Company defers precontract costs when such costs are directly associated with specific anticipated contracts and their recovery is probable. Precontract costs of \$0.2 million and \$0.8 million were deferred as of December 31, 2014 and 2013, respectively.

Billings in excess of construction contract costs and estimated earnings represent billings or collections on contracts made in advance of revenue recognized.

Construction receivables and payables include retentions—amounts that are generally withheld until the completion of the contract or the satisfaction of certain restrictive conditions such as fulfillment guarantees. As of December 31, 2014 and 2013, construction receivables included retentions of \$4.7 million and \$3.2 million, respectively. The Company expects to collect substantially all construction receivables as of

December 31, 2014 during the year ending December 31, 2015. As of December 31, 2014 and 2013, construction payables included retentions of \$9.0 million and \$2.1 million, respectively. The Company expects to pay substantially all construction payables as of December 31, 2014 during the year ending December 31, 2015.

The Company's net position on uncompleted construction contracts comprised the following as of December 31, 2014 and 2013 (in thousands):

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Costs incurred on uncompleted construction contracts	\$ 195,219	\$ 97,372
Estimated earnings	8,501	4,584
Billings	<u>(204,501)</u>	<u>(102,319)</u>
Net position	<u>\$ (781)</u>	<u>\$ (363)</u>

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Construction contract costs and estimated earnings in excess of billings	\$ 272	\$ 1,178
Billings in excess of construction contract costs and estimated earnings	<u>(1,053)</u>	<u>(1,541)</u>
Net position	<u>\$ (781)</u>	<u>\$ (363)</u>

The Company expects to complete all uncompleted contracts as of December 31, 2014 during the years ending December 31, 2015 and 2016.

7. *Indebtedness*

The Company's indebtedness comprised the following as of December 31, 2014 and 2013 (dollars in thousands):

Secured Debt	Principal Balance		Stated Interest Rate	Stated Maturity Date
	December 31,		December 31,	
	2014	2013	2014	2014

(1) Cross collateralized.

(2) Cross collateralized.

(3) Subject to an interest rate swap lock at a rate of 3.57%.

(4) Principal balance excluding fair value adjustments.

The Company's indebtedness comprised the following fixed and variable-rate debt as of December 31, 2014 and 2013 (in thousands):

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Fixed-rate secured debt	\$144,622	\$127,085
Variable-rate secured debt	216,049	150,657
Total principal balance	<u>\$360,671</u>	<u>\$277,742</u>

Certain loans require the Company to comply with various financial and other covenants, including the maintenance of minimum debt coverage ratios. As of December 31, 2014, the Company was in compliance with all loan covenants.

Scheduled principal repayments and term-loan maturities during each of the next five years and thereafter are as follows (in thousands):

<u>Year</u>	<u>Scheduled Principal Payments</u>	<u>Term- Loan Maturities</u>	<u>Total Payments</u>
2015	\$ 3,222	\$ 8,681	\$ 11,903

2019	1,216	9,333	10,549
Thereafter	<u>63,678</u>	<u>1,344</u>	<u>65,022</u>
Total	<u>\$76,198</u>	<u>\$284,473</u>	<u>\$360,671</u>

Credit Facility

On May 13, 2013, the Operating Partnership, as borrower, and the Company, as parent guarantor, entered into a \$100.0 million senior secured revolving credit facility. On October 10, 2013, the Operating Partnership increased the aggregate capacity under the credit facility to \$155.0 million. As of December 31, 2013, the Operating Partnership had \$70.0 million outstanding under the credit facility. During the year ended December 31, 2014, the Operating Partnership borrowed \$38.0 million under the credit facility. On September 15, 2014, the Operating Partnership used the proceeds from the Company's underwritten public offering of common stock to repay \$49.0 million of the outstanding balance under the credit facility that had been used to fund the Company's development activities. As of December 31, 2014, the Operating Partnership had \$59.0 million outstanding on the credit facility.

As of December 31, 2014, the following properties served as the borrowing base collateral for the credit facility: (i) Armada Hoffer Tower, (ii) Richmond Tower, (iii) One Columbus, (iv) Two Columbus, (v) Sentara Williamsburg, (vi) Bermuda Crossroads, (vii) a portion of North Point Center, (viii) Gainsborough Square, (ix) Parkway Marketplace and (x) Courthouse 7-Eleven.

The credit facility required the Operating Partnership to comply with various financial covenants, including:

- Maximum leverage ratio (as amended on April 22, 2014) of 65% as of the last day of each fiscal quarter through maturity;
- Minimum fixed charge coverage ratio of 1.75 to 1.0;
- Minimum tangible net worth equal to at least the sum of 80% of tangible net worth on the closing date of the credit facility plus 75% of the net proceeds of any additional equity issuances;
- Maximum amount of variable rate indebtedness not exceeding 30% of total asset value; and
- Maximum amount of secured recourse indebtedness of 35% of total asset value.

The credit facility permitted investments in the following types of assets: (i) unimproved land holdings in an aggregate amount not exceeding 5% of total asset value, (ii) construction in progress in an aggregate amount not exceeding 25% of total asset value and (iii) unconsolidated affiliates in aggregate amount not exceeding 5% of total asset value. Investments in these types of assets collectively could not exceed 30% of total asset value. In addition to these financial covenants, the credit facility required the Operating Partnership to comply with various customary affirmative and negative covenants that restricted the ability to, among other things, incur debt and liens, make investments, dispose of properties and make distributions. As of December 31, 2014, the Operating Partnership was in compliance with all covenants under the credit facility.

The credit facility bore interest between LIBOR plus 1.60% and LIBOR plus 2.20%. The interest rate on the credit facility as of December 31, 2014 was 1.92%.

Subsequent to December 31, 2014

On January 23, 2015, the Operating Partnership borrowed an additional \$5.0 million under the credit facility. The credit facility was scheduled to mature on May 13, 2016; however, the Operating Partnership repaid all amounts due under the credit facility with proceeds from a new credit facility and terminated the existing credit facility on February 20, 2015, as discussed below.

New Credit Facility

On February 20, 2015, the Operating Partnership, as borrower, and the Company as parent guarantor, agreed to a new \$200.0 million senior unsecured credit facility that includes a \$150.0 million senior unsecured revolving credit facility and a \$50.0 million senior unsecured term loan facility. The new credit facility replaced the existing \$155.0 million senior secured revolving credit facility that was scheduled to mature on May 13, 2016. On February 20, 2015, the Operating Partnership borrowed \$54.0 million under the revolving credit facility and \$50.0 million under the term loan facility to repay in full all outstanding amounts due under the prior credit facility and to repay approximately \$39.0 million of other indebtedness secured by properties in the Company's portfolio for the purpose of unencumbering those properties.

The new credit facility includes an accordion feature that allows the total commitments to be increased to \$350.0 million, subject to certain conditions. The amount permitted to be borrowed under the new credit facility, together with all of the Operating Partnership's other unsecured indebtedness is generally limited to the lesser of: (i) 60% of the value of the unencumbered borrowing base properties, (ii) the maximum amount of principal that would result in a debt service coverage ratio of 1.50 to 1.0, and (iii) the maximum aggregate loan commitment, which currently is \$200.0 million.

The new revolving credit facility has a scheduled maturity date of February 20, 2019, with a one-year extension option. The term loan facility has a scheduled maturity date of February 20, 2020. The Operating Partnership may, at any time, voluntarily prepay any loan under the new credit facility in whole or in part without premium or penalty.

The new revolving credit facility bears interest at LIBOR plus 1.40% to 2.00%, depending on the Operating Partnership's total leverage. The term loan facility bears interest at LIBOR plus 1.35% to 1.95%, depending on the Operating Partnership's total leverage. The Operating Partnership is also obligated to pay an unused commitment fee of 15 or 25 basis points on the unused portions of the commitments under the new credit facility, depending on the amount of borrowings under the new credit facility. If the Company attains investment grade credit ratings from S&P and Moody's, the Operating Partnership may elect to have borrowings become subject to interest rates based on such credit ratings.

The new credit facility requires the Operating Partnership to comply with various financial covenants, affirmative covenants and other restrictions, including the following:

- Total leverage ratio of the Company of not more than 60%;
- Ratio of adjusted EBITDA to fixed charges of the Company of not less than 1.50 to 1.0;

- Tangible net worth of not less than the sum of \$220.0 million and 75% of the net equity proceeds received after December 31, 2014;
- Ratio of variable rate indebtedness to total asset value of not more than 30%;
- Ratio of secured indebtedness to total asset value of not more than 45%; and
- Ratio of secured recourse debt to total asset value of not more than 25%.

The new credit facility limits the Company's ability to pay cash dividends. However, so long as no default or event of default exists, the credit agreement allows the Company to pay cash dividends with respect to any 12-month period in an amount not to exceed the greater of: (i) 95% of adjusted funds from operations (as defined in the credit agreement) or (ii) the amount required for the Company (a) to maintain its status as a REIT and (b) to avoid income or excise tax. If certain defaults or events of default exist, the Company may pay cash dividends with respect to any 12-month period to the extent necessary to maintain its status as a REIT. The new credit facility also restricts the amount of capital that the Operating Partnership can invest in specific categories of assets, such as unimproved land holdings, development properties, notes receivable, mortgages, mezzanine loans and unconsolidated affiliates.

Other Financing Activity

On January 17, 2014, the Company assumed \$17.0 million of debt at fair value in connection with the acquisition of Liberty Apartments. The fair value adjustment to the assumed debt of Liberty Apartments was a \$1.5 million discount. The outstanding principal balance of the assumed debt of Liberty Apartments at the acquisition date was \$18.5 million. On June 13, 2014, the Company borrowed the remaining \$2.4 million available under the Liberty Apartments loan. The loan amortizes over 30 years, bears interest at 5.66% and matures on November 1, 2043.

On February 28, 2014, the Company closed on a \$19.5 million loan to fund the development and construction of the Oceaneering International facility. The construction loan bears interest at LIBOR plus 1.75% and matures on February 28, 2018.

On August 15, 2014, the Company defeased the loan secured by Dimmock Square for \$10.1 million.

On August 28, 2014, the Company closed on a \$5.4 million loan to fund the development and construction of a new administrative building for the Commonwealth of Virginia. The construction loan bears interest at LIBOR plus 1.90% and matures on August 28, 2017.

On November 3, 2014, the Company repaid North Point Center Note 4 for \$1.0 million.

On November 14, 2014, the Company closed on a \$15.0 million loan to fund the development and construction of Lightfoot Marketplace. The construction loan bears interest at LIBOR plus 1.90% and matures on November 14, 2017.

Subsequent to December 31, 2014

On February 20, 2015, the Company repaid the following loans with borrowings under the Operating Partnership's new credit facility: (i) Studio 56 Retail, (ii) Commerce Street Retail, (iii) Dick's at Town Center, (iv) Broad Creek Shopping Center Note 1, (v) Broad Creek Shopping Center Note 2, (vi) Broad Creek Shopping Center Note 3, (vii) Hanbury Village Note 2 and (viii) Tyre Neck Harris Teeter.

8. Derivative Financial Instruments

On March 14, 2014, the Company executed a LIBOR interest rate cap agreement on a notional amount of \$50.0 million and a strike price of 1.25% for a premium of \$0.4 million. The interest rate cap agreement expires on March 1, 2017.

The Company's derivatives comprised the following as of December 31, 2014 and 2013 (in thousands):

	December 31,					
	2014			2013		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
	Asset	Liability		Asset	Liability	
Pay fixed interest rate swaps	\$ 685	\$—	\$(11)	\$ 705	\$—	\$(16)
Interest rate caps	180,434	260	—	130,672	102	—
Total	<u>\$181,119</u>	<u>\$260</u>	<u>\$(11)</u>	<u>\$131,377</u>	<u>\$102</u>	<u>\$(16)</u>

The changes in the fair value of Armada Hoffer's derivatives during each of the three years ended December 31, 2014 was as follows (in thousands):

	Years Ended December 31,		
	2014	2013	2012
Pay fixed interest rate swaps	\$ 5	\$ 152	\$445
Interest rate caps	(238)	(164)	(37)
Other (expense) income	<u>\$(233)</u>	<u>\$ (12)</u>	<u>\$408</u>

Subsequent to December 31, 2014

On February 20, 2015, the Operating Partnership entered into a \$50.0 million floating-to-fixed interest rate swap attributable to one-month LIBOR indexed interest payments. The \$50.0 million interest rate swap has a fixed rate of 2.00%, an effective date of March 1, 2016 and a maturity date of February 20, 2020. The Operating Partnership entered into this interest rate swap agreement in connection with the new \$50.0 million senior unsecured term loan facility that bears interest at LIBOR plus 1.35% to 1.95%, depending on the Operating Partnership's total leverage. The Company designated this interest rate swap as a cash flow hedge of the variable interest payments associated with the term loan facility.

9. Equity

Stockholders' Equity

On September 15, 2014, the Company completed an underwritten public offering of 5,750,000 shares of common stock. The net proceeds to the Company after deducting the underwriting discount and related offering costs were \$49.3 million.

As of December 31, 2014, the Company's authorized capital was 500 million shares of common stock and 100 million shares of preferred stock. The Company had 25.0 million and 19.2 million shares of common stock issued and outstanding as of December 31, 2014 and 2013, respectively. No shares of preferred stock were issued and outstanding as of December 31, 2014 or 2013.

Noncontrolling Interests

As of December 31, 2014 and 2013, the Company held a 62.9% and 59.5% interest in the Operating Partnership, respectively. As the sole general partner and the majority interest holder, the Company consolidates the financial position and results of operations of the Operating Partnership. Noncontrolling interests in the Company represent OP Units not held by the Company.

On January 17, 2014, the Operating Partnership issued 695,652 OP Units as partial consideration for the acquisition of Liberty Apartments. On March 31, 2014, the Operating Partnership issued 30,000 OP Units in

exchange for all noncontrolling interests in Sandbridge Commons. The Company recognized the difference between the fair value of the OP Units issued and the adjustment to the carrying amount of the noncontrolling interests in Sandbridge Commons directly in equity as additional paid-in capital. On August 15, 2014, the Operating Partnership issued 990,952 OP Units as partial consideration for the acquisition of Dimmock Square.

Holders of OP Units may not transfer their units without the Company's prior consent as general partner of the Operating Partnership. Beginning on the first anniversary of issuance, holders of OP Units may tender their units for redemption by the Operating Partnership in exchange for cash equal to the market price of shares of the Company's common stock at the time of redemption or, at the Company's option and sole discretion, for shares of common stock on a one-for-one basis. Accordingly, the Company presents OP Units of the Operating Partnership not held by the Company as noncontrolling interests within equity in the consolidated balance sheets.

Common Stock Dividends and Common Unit Distributions

During the year ended December 31, 2014, the Company declared the following dividends per share and distributions per unit:

Declaration Date	Record Date	Paid Date	Dividend Per Share/Distribution Per Unit
February 18, 2014	April 1, 2014	April 10, 2014	\$0.16
May 9, 2014	July 1, 2014	July 10, 2014	0.16
August 4, 2014	October 1, 2014	October 9, 2014	0.16
November 10, 2014	December 30, 2014	January 8, 2015	0.16
		Total	\$0.64

During the year ended December 31, 2014, the Company paid cash dividends of \$13.2 million to common stockholders and the Operating Partnership paid cash distributions of \$8.9 million to holders of OP Units.

The tax treatment of dividends paid to common stockholders during the year ended December 31, 2014 was as follows (unaudited):

Capital gains	5.3%
Ordinary income	52.3%
Return of capital	42.4%
Total	100.0%

During the year ended December 31, 2013, the Company declared the following dividends per share and distributions per unit:

Declaration Date	Record Date	Paid Date	Dividend Per Share/Distribution Per Unit
June 19, 2013	July 1, 2013	July 11, 2013	\$0.08
August 9, 2013	October 1, 2013	October 10, 2013	0.16
November 11, 2013	December 30, 2013	January 9, 2014	0.16
		Total	\$0.40

During the year ended December 31, 2013, the Company paid cash dividends of \$4.6 million to common stockholders and the Operating Partnership paid cash distributions of \$3.1 million to holders of OP Units.

The tax treatment of dividends paid to common stockholders during the year ended December 31, 2013 was as follows (unaudited):

Ordinary income	17.0%
Return of capital	<u>83.0%</u>
Total	<u>100.0%</u>

Subsequent to December 31, 2014

On January 8, 2015, the Company paid cash dividends of \$4.0 million to common stockholders and the Operating Partnership paid cash distributions of \$2.4 million to holders of OP Units.

On January 28, 2015, the Board of Directors declared a cash dividend of \$0.17 per share to stockholders of record on April 1, 2015.

10. Stock-Based Compensation

The Company's 2013 Equity Incentive Plan permits the grant of restricted stock awards, stock options, stock appreciation rights, performance units and other equity-based awards up to an aggregate of 700,000 shares of common stock over the ten-year term of the plan. As of December 31, 2014, the Company had 431,049 shares of common stock reserved for issuance under the 2013 Equity Incentive Plan.

During the year ended December 31, 2014, the Company granted an aggregate of 132,081 shares of restricted stock to employees and nonemployee directors. Employee restricted stock awards generally vest over a period of two years: one-third immediately on the grant date and the remaining two-thirds in equal amounts on the first two anniversaries following the grant date, subject to continued service to the Company. Nonemployee director restricted stock awards vest either immediately upon grant or over a period of one year, subject to continued service to the Company.

During the year ended December 31, 2014 and 2013, the Company recognized \$1.3 million and \$1.2 million of stock-based compensation, respectively. As of December 31, 2014, the total unrecognized compensation cost related to nonvested restricted shares was \$0.5 million, substantially all of which the Company expects to recognize over the next 15 months.

The following table summarizes the changes in the Company's nonvested restricted stock awards during the year ended December 31, 2014:

	<u>Restricted Stock Awards</u>	<u>Weighted Average Grant Date Fair Value Per Share</u>
Nonvested as of January 1, 2014	111,940	\$11.50
Granted	132,081	9.85
Vested	(98,938)	10.78
Forfeited	<u>(1,354)</u>	11.07
Nonvested as of December 31, 2014	<u>143,729</u>	\$10.48

Restricted stock awards granted and vested during the year ended December 31, 2014 include 21,439 shares tendered by employees to satisfy minimum statutory tax withholding obligations.

Subsequent to December 31, 2014

On March 3, 2015, the Company granted 72,282 shares of restricted stock to employees with a grant date fair value of \$10.98 per share. On March 11, 2015, the Company granted 646 shares of restricted stock to a nonemployee director with a grant date fair value of \$10.36 per share.

11. Fair Value of Financial Instruments

Fair value measurements are based on assumptions that market participants would use in pricing an asset or a liability. The hierarchy for inputs used in measuring fair value is as follows:

Level 1 Inputs—quoted prices in active markets for identical assets or liabilities

Level 2 Inputs—observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3 Inputs—unobservable inputs

Except as disclosed below, the carrying amounts of the Company's financial instruments approximate their fair value. Financial assets and liabilities whose fair values are measured on a recurring basis using Level 2 inputs consist of interest rate swaps and interest rate caps. The Company measures the fair values of these assets and liabilities based on prices provided by independent market participants that are based on observable inputs using market-based valuation techniques.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. For disclosure purposes, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

The fair value of the Company's secured debt is sensitive to fluctuations in interest rates. Discounted cash flow analysis based on Level 2 inputs is generally used to estimate the fair value of the Company's secured debt.

Considerable judgment is used to estimate the fair value of financial instruments. The estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized upon disposition of the financial instruments.

The carrying amounts and fair values of the Company's financial instruments, all of which are based on Level 2 inputs, as of December 31, 2014 and 2013 were as follows (in thousands):

	December 31,			
	2014		2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Secured debt	\$359,229	\$366,095	\$277,745	\$273,310
Interest rate swap liabilities	11	11	16	16
Interest rate cap assets	260	260	102	102

12. Income Taxes

The income tax provision for the years ended December 31, 2014 and 2013 comprised the following (in thousands):

	Years Ended December 31,	
	2014	2013
Federal income taxes:		
Current	\$37	\$ 356
Deferred	6	(113)
State income taxes:		
Current	26	43
Deferred	1	(13)
Income tax provision	<u>\$70</u>	<u>\$ 273</u>

As of December 31, 2014 and 2013, the Company had \$0.5 million of net deferred tax assets representing basis differences in the assets of the TRS and stock-based compensation attributable to the TRS.

Management has evaluated the Company's income tax positions and concluded that the Company has no uncertain income tax positions as of December 31, 2014 or 2013.

The Company had no income tax expense or benefit for the years ended December 31, 2012 and 2011 as the Predecessor consisted of flow-through entities that were not subject to tax.

13. Other Assets

Other assets comprised the following as of December 31, 2014 and 2013 (in thousands):

	December 31,	
	2014	2013
Leasing costs, net	\$11,683	\$ 7,858
Leasing incentives, net	6,237	4,851
Acquired lease intangibles, net	5,247	4,369
Preacquisition development costs	4,550	2,036
Debt issuance costs, net	2,884	3,072
Prepaid assets and other	2,507	2,223
Other assets	<u>\$33,108</u>	<u>\$24,409</u>

14. Other Liabilities

Other liabilities comprised the following as of December 31, 2014 and 2013 (in thousands):

	December 31,	
	2014	2013
Deferred ground rent payable	\$ 6,790	\$ 6,475
Dividends and distributions payable	6,368	5,155
Acquired lease intangibles, net	1,867	1,638
Security deposits	1,014	748
Prepaid rent and other	1,922	1,857
Other liabilities	<u>\$17,961</u>	<u>\$15,873</u>

15. Acquired Lease Intangibles

The following table summarizes the Company's acquired lease intangibles as of December 31, 2014 (in thousands):

	December 31, 2014		
	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>	<u>Net Carrying Amount</u>
In-place lease assets	\$5,434	\$2,096	\$3,338
Above-market lease assets	107	32	75
Below-market lease liabilities	2,169	302	1,867
Below-market ground lease assets	1,920	86	1,834

The following table summarizes the Company's acquired lease intangibles as of December 31, 2013 (in thousands):

	December 31, 2013		
	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>	<u>Net Carrying Amount</u>
In-place lease assets	\$3,279	\$817	\$2,462
Above-market lease assets	27	7	20
Below-market lease liabilities	1,750	112	1,638
Below-market ground lease assets	1,920	33	1,887

Amortization of in-place lease assets, net below-market lease liabilities and below-market ground lease assets for the year ended December 31, 2014 was \$1.3 million, \$0.2 million and less than \$0.1 million, respectively.

Amortization of in-place lease assets, net below-market lease liabilities and below-market ground lease assets for the year ended December 31, 2013 was \$0.8 million, \$0.1 million and less than \$0.1 million, respectively.

Estimated amortization of acquired lease intangibles for each of the five succeeding years is as follows (in thousands):

	<u>Rental Revenues</u>	<u>Rental Expenses</u>	<u>Depreciation and Amortization</u>
Year ending December 31,			
2015	\$161	\$53	\$1,087
2016	112	53	626
2017	110	53	528
2018	107	53	351
2019	95	53	200

16. Related Party Transactions

Armada Hoffler provides general contracting and real estate services to certain related party entities that are not included in these consolidated and combined financial statements. Revenue from construction contracts with related party entities of Armada Hoffler was \$5.3 million, \$45.0 million and \$17.4 million for each of the three years ended December 31, 2014, respectively. Operating margin from such contracts was \$0.3 million, \$1.5 million and \$1.2 million for each of the three years ended December 31, 2014, respectively. Real estate services fees from affiliated entities of Armada Hoffler was \$0.5 million for the year ended December 31, 2014 and were not significant for either of the years ended December 31, 2013 or 2012. In addition, affiliated entities also reimburse Armada Hoffler for monthly maintenance and facilities management services provided to the properties. Cost reimbursements earned by Armada Hoffler from affiliated entities were not significant for any of the three years ended December 31, 2014.

In connection with the Formation Transactions, the Operating Partnership entered into tax protection agreements that indemnify certain directors and executive officers of the Company from their tax liabilities resulting from the potential future sale of certain of the Company's properties within seven (or, in a limited number of cases, ten) years of the completion of the Formation Transactions on May 13, 2013. Upon completing the sale of the Virginia Natural Gas office property on November 20, 2014, the Operating Partnership paid \$1.3 million under such tax protection agreements. The \$1.3 million of tax protection payments made in connection with the Virginia Natural Gas office property sale is presented within gain on real estate dispositions and acquisitions in the consolidated statements of income.

17. Commitments and Contingencies

Legal Proceedings

The Company is from time to time involved in various disputes, lawsuits, warranty claims, environmental and other matters arising in the ordinary course of its business. Management makes assumptions and estimates concerning the likelihood and amount of any potential loss relating to these matters.

The Company currently is a party to various legal proceedings, none of which management expects will have a material adverse effect on the Company's financial position, results of operations or liquidity. Management accrues a liability for litigation if an unfavorable outcome is determined to be probable and the amount of loss can be reasonably estimated. If an unfavorable outcome is determined by management to be probable and a range of loss can be reasonably estimated, management accrues the best estimate within the range; however, if no amount within the range is a better estimate than any other, the minimum amount within the range is accrued. Legal fees related to litigation are expensed as incurred. Management does not believe that the ultimate outcome of these matters, either individually or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations; however, litigation is subject to inherent uncertainties.

Under the Company's leases, tenants are typically obligated to indemnify the Company from and against all liabilities, costs and expenses imposed upon or asserted against it as owner of the properties due to certain matters relating to the operation of the properties by the tenant.

Commitments

The Company has a bonding line of credit for its general contracting construction business and is contingently liable under performance and payment bonds, bonds for cancellation of mechanics liens and defect bonds. Such bonds collectively totaled \$192.2 million and \$35.8 million as of December 31, 2014 and 2013, respectively.

The Operating Partnership has entered into standby letters of credit using the available capacity under the credit facility. The letters of credit relate to the guarantee of future performance on certain of the Company's construction contracts. Letters of credit generally are available for draw down in the event the Company does not perform. As of December 31, 2014 and 2013, the Operating Partnership had total outstanding letters of credit of \$8.5 million and \$3.0 million, respectively.

The Company has four ground leases on three properties with initial terms that range from twenty to fifty years and options to extend up to an additional 40 years in certain cases. The Company also leases automobiles and equipment.

Future minimum rental payments during each of the next five years and thereafter are as follows (in thousands):

2015	\$ 1,546
2016	1,516
2017	1,484
2018	1,488
2019	1,563
Thereafter	<u>60,198</u>
Total	<u>\$67,795</u>

Ground rent expense for each of the three years ended December 31, 2014 was \$1.8 million, \$1.5 million and \$1.5 million, respectively.

Concentrations of Credit Risk

All of the Company's income producing properties are located in either Virginia or North Carolina. The majority of the Company's properties are located in Hampton Roads, Virginia. For each of the three years ended December 31, 2014, rental revenues from Hampton Roads properties represented 69%, 70% and 75%, respectively, of Armada Hoffler's rental revenues. Many of Armada Hoffler's Hampton Roads properties are located in the Town Center of Virginia Beach. For each of the three years ended December 31, 2014, rental revenues from Town Center properties represented 47%, 48% and 51%, respectively, of Armada Hoffler's rental revenues.

Rental revenues from Richmond Tower individually represented 13%, 15% and 16% of Armada Hoffler's rental revenues for each of the three years ended December 31, 2014, respectively. A single tenant—Williams Mullen, a prominent Mid-Atlantic law firm—occupies over 80% of Richmond Tower.

A single construction project in Baltimore, Maryland represented 41% of the Company's general contracting and real estate services revenues for the year ended December 31, 2014. The same project represented 27% of the Company's general contracting and real estate services segment profit for the year ended December 31, 2014.

18. Selected Quarterly Financial Data (Unaudited)

The following tables summarize certain selected quarterly financial data for 2014 and 2013 (in thousands, except per share data):

	2014 Quarters			
	First	Second	Third	Fourth
Rental revenues	\$15,193	\$15,319	\$16,713	\$17,521
General contracting and real estate services revenues	19,234	20,495	31,532	32,060

SARBANES-OXLEY SECTION 302(a) CERTIFICATION

I, Louis S. Haddad, certify that:

1. I have reviewed this Annual Report on Form 10-K of Armada Hoffler Properties, Inc.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report.
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
